### Course Description

- This course is designed to provide the student with a general understanding of past and present Mexican American culture and society. This interdisciplinary course examines education, labor, politics, immigration, and film to better understand how ethnic Mexicans create distinct cultures and identities in the United States. Issues such as citizenship, class, gender, and sexuality are also interrogated to increase awareness of the way that Mexican American culture and society constantly redefines itself. Students will develop a number of skills to include critical thinking, reasoning, analysis, and maintaining a point of view, verbally and in writing. Additionally, this course will help students develop computer skills and electronic communication skills.

### Required Texts:

Whether you are discussing in a group or as a class, please remember that the appeal of higher learning is that we can think and talk, maturely and responsibly, about topics like race, class, gender, and sexuality. ***Please make an effort to treat each other, and each other's contributions to class discussions, with respect.***
