Course Description:

This course is designed to provide the student with a general overview of past and present Mexican American culture and society. Using an interdisciplinary framework, this course examines ethnic Mexican identity formation from contact and conquest to the present. The course uses race, ethnicity, class, and gender as categories of analysis to interpret how and why ethnic Mexicans create distinct cultures and identities in the United States. The readings and videos explore a number of topics to include immigration, education, labor, politics, and pop culture for a better understanding of how ethnic Mexicans negotiate, resist, and redefine their place in the U.S.

By the end of the class, students will

1. Develop the critical thinking and analytical skills necessary for effective communication both orally and written.
2. Identify, analyze, and articulate the central themes in Mexican American community and identity formation.
3. Understand theories of race, class, ethnicity, and gender in the shaping of both geo-political and metaphorical borders.
4. Connect the past to the present in an effort to better understand the world around them.
5. View themselves as global citizens.
6. Develop their technology skills and learn to use software available for teaching and learning.

VPN Connection

- In this class you will access a number of videos that are housed at the UTEP library. The easiest strategy for you to access these videos is to create a VPN (Virtual Private Network) Connection. I have provided a VPN Connection link on the home page, which will assist you in creating your VPN account. The purpose of the VPN is to provide you with easy access to library sources when you are off campus. Click on the VPN Connection link, choose your operating system and follow the detailed instructions for creating your account.
- You can access instructions for how to set up the UTEP VPN on your personal computer here: <http://libguides.utep.edu/howdoi/vpn>
- If you cannot access VPN for whatever reason: technical issues, not familiar with Blackboard, anxiety, or whatever the case - please let me know as soon as an issue arrives or is seen on your horizon. I can only help if an issue is made known.

COVID-19 PRECAUTIONS

Please stay home if you have been diagnosed with COVID-19 or are experiencing COVID-19 symptoms. If you are feeling unwell, please let me know as soon as possible, so that we can work on appropriate accommodations. If you have tested positive for COVID-19, you are encouraged to report your results to covidaction@utep.edu, so that the Dean of Students Office can provide you with support and help with communication with your professors. The Student Health Center is equipped to provide COVID 19 testing.

The Center for Disease Control and Prevention recommends that people in areas of substantial or high COVID-19 transmission wear face masks when indoors in groups of people. The best way that Miners can take care of Miners is to get the vaccine. If you still need the vaccine, it is widely available in the El Paso area, and will be available at no charge on campus during the first week of classes. For more information about the current rates, testing, and vaccinations, please visit epstrong.org
