COURSE INFORMATION

TED 5304-009: Scholarly Writing for Educators Online [CRN 28614]

3 credit hours

COURSE DESCRIPTION

This is an online course, meaning students will participate in online activities that cover topics and issues related to academic writing, effective peer editing and review, research strategies, documentation, and the writing process. The purpose of this course is to build and refine scholarly writing through the use of archival research, documented sources, and library databases. Students will draw from a variety of UTEP library resources to support their research and writing while developing information literacy skills to locate, analyze and apply information. Students will also work closely with peers and the professor to provide constructive feedback on one another's writing and to produce publication-quality papers. To that end, the course covers issues of conceptualization, argumentation and evidence, and citation and referencing. It also deals with style, audience, organization, and mechanics, and relies heavily on peer review and editing.

This is an intensive, semester-long course that will require a significant investment of time. Students will need to plan to invest approximately 8-10 hours per week on reading, research, writing, and development of related skills. Please plan accordingly.

STUDENT LEARNING OUTCOMES

In completing this course, students will:

- Produce a 10-15-page thesis-driven literature review paper on a current and compelling educational topic of their choosing;
- Construct a solid, well-grounded academic argument (thesis) that is sufficiently supported by evidence from the research literature;
- Develop clear and concise summaries and syntheses of the research literature;
- Be able to use tools for online literature research, including library databases, evaluate the credibility of sources, and distinguish between scholarly sources and popular sources;
- Organize and summarize sources;
- Work cooperatively and collaboratively with peers in brainstorming topics, sharing information on sources, clarifying ideas, and providing substantive feedback on assignments and drafts;

- Reflect on their own histories and personal styles as writers in order to become aware of effective strategies for academic writing;
- Correctly employ APA style in the formatting of the paper, as well with in-text citations and references; include at least 18-20 scholarly sources in the paper;
- Demonstrate coherence and cohesion in the organization of their ideas and show an excellent command of language mechanics, including but not limited to sentence structure, word choice, and grammar;
- Show a clear understanding of audience through the use of an academic writing style/tone directed towards researchers and/or professionals in field of education;
- Understand intellectual property and what constitutes plagiarism; demonstrate academic integrity with their writing.

COURSE REQUIREMENTS

Successful completion of this course will be based on several key elements:

- Class assignments (24 points)
- Paper proposal & annotated bibliography (8 points)
- Drafts of paper (10 points)
- Peer reviews (8 points)

- Final research paper (50 points) – details included below and in the rubric at the end of the syllabus

POSTING ASSIGNMENTS AND LATE ASSIGNMENT POLICY

Most course assignments will be posted on the group discussion board of the group to which you have been assigned. You will find this group discussion board by going to Blackboard, clicking on “Groups”, clicking on your assigned group, then clicking on “Group Discussion Board”. Once in your group discussion board you will see a list of the course assignments. Click on each assignment to open discussion board for that assignment, create a new thread, then post the respective assignment. Peer feedback on assignments and drafts will be posted by accessing the assignment that requires peer feedback in the same way described above, then opening your classmate’s assignment and posting a reply. When providing feedback on drafts, please use the peer feedback form and also provide feedback within the paper itself by using the Tracked Changes feature of MS Word. To provide feedback to your classmates, upload both of these documents by replying to the thread where your classmate’s assignment is posted.

Please pay attention to the due dates for assignments by following the course schedule in your syllabus! Due dates for assignments do not appear on Blackboard! Assignments that are submitted after their due date will receive a grade deduction for each day the assignment is late. Assignments that are submitted three days past their due date will not be accepted and students will not receive credit for them.

GRADING

COMMUNICATION PLAN

Online courses offer opportunities for collaboration and peer learning. I highly recommend that you engage in ongoing communication with your peers via your writing groups, as well as the full-class discussion board above and beyond the instances where I prompt (or require) you to do so. You are in the position to support one another and help each other through this process, and building a strong writing community with one another is one of the most valuable experiences that can emerge from your participation in this course.

Strong literature reviews develop through extensive research on a subject. In order to support you as you search library databases for research on your subject, you are encouraged to use the resources and librarians at the UTEP library for support as you research on your topic.

In this course, you will also receive ongoing feedback on your writing as you go through the various stages of research and paper development. In addition to your final draft, there are certain assignments that you can expect to receive feedback on; they include:

- Summary of Morrison et al. (2008) article (due Week 2)
- Draft of topic brainstorming and thesis statement (due Week 4)
- Synthesis of the Au (2009) and Nichols & Berliner (2008) articles (due Week 4)
- Paper proposal and annotated bibliography (due Week 5)
- Draft of paper (see below)

Feedback on these assignments will generally be returned within one week after the due date.

I will also provide extensive feedback on one draft of your paper. You can decide which draft you would like me to review; it could be an earlier draft or a later revision. The window for my review of drafts will be **March 10 – April 14**. If you would like feedback from me on your draft, you need to email me your draft during that time period; I will plan to return the draft to you within one week (barring a large backlog of drafts). I would also recommend not waiting until November 11th to send your draft, as it might get backlogged with other drafts. ****If you make no revisions to a draft and instead resubmit an unchanged draft as a new, revised draft (e.g. if you submit an unchanged first draft as a second draft, or if you submit an unchanged third draft as your final paper), you will receive a grade of “zero” for that assignment.**

POLICIES AND PROCEDURES

Disability policy: If you have or believe you have a disability, you may wish to self-identify. You can do so by providing documentation to the Office of disabled Student Services located in Union E Room 203. Students who have been designated as disabled must reactivate their standing with the Office of Disabled Student Services on a yearly basis. Failure to report to this office will place a student on the inactive list and nullify benefits received. If you have a condition which may affect your ability to exit safely from the premises in an emergency or which may cause an emergency during class, you are encouraged to discuss this in confidence with the instructor and/or the director of Disabled Student Services. You may call 747-5148 for general information about the Americans with Disabilities Act (ADA).

Equal educational opportunity: In order to create equal educational opportunities for all students, every student is expected to demonstrate respect for the diverse voices and individual differences in the class. No person shall be excluded from participation in, denied benefits of, or be subject to discrimination under any program or activity sponsored or conducted by the University of Texas at El Paso on the basis of race, color, gender, sexual orientation, disability, national origin, religious affiliation, age, or veteran status. Any member of the university community who engages in discrimination or other conduct in violation of university policy is subject to the full range of disciplinary action, up to and including separation from the university. Complaints regarding discrimination and inquiries regarding applicable policies should be reported to the University's Equal Opportunity Office at Kelly Hall, 3rd Floor, 915.747.5662 or at eoaa@utep.edu.

Academic integrity: Students are expected to uphold the highest standards of academic integrity. Any form of scholastic dishonesty is an affront to the pursuit of knowledge and jeopardizes the quality of the degree awarded to all graduates of UTEP. Any student who commits an act of scholastic dishonesty is subject to discipline. Scholastic dishonesty includes, but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are not attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Proven violations of the detailed regulations, as printed in the Handbook of Operating Procedures (HOP) and available in the Office of the Dean of Students, may result in sanctions ranging from disciplinary probation, to failing grades on the work in question, to failing grades in the course, to suspension or dismissal among others. Refer to <http://www.utep.edu/dos/acadintg.htm> for further information.

Criterion	Acceptable for Submission as Scholarly Paper	Revise and Resubmit (Minor Revision Required)	Revise and Resubmit (Major Revision Required)	Reject
Understanding of Audience	The paper is directed toward scholars and/or professionals in the field of education.	The paper is generally directed toward scholars or professionals, but some material or aspects of tone/style are inappropriate for this audience.	The paper has a focused audience, but choice of material, tone, or style indicate an audience that are not scholars or professionals.	The paper does not have a focused audience.
Foundation of Knowledge	Paper demonstrates a professional command of the subject matter.	Paper demonstrates above average command of subject matter.	Paper demonstrates some general understanding of the subject matter.	Paper explains some concepts, but overlooks critical details.
	The scholarly conversation about the topic is analyzed and synthesized; paper shows how ideas are related.	Analysis, synthesis, or relationships among ideas are explored, but not as fully as they could be.	Analysis, synthesis, or relationships among ideas are only superficially explored.	Analysis, synthesis, or relationships among ideas are not provided.
Organization of Ideas	Introduction establishes the topic's importance, identifies the research question or theme, and establishes a thesis.	Introduction is missing one of the elements discussed in the "Acceptable for Publication" column.	Introduction is missing two of the elements discussed in the "Acceptable for Publication" column.	Introduction does not establish importance, identify focus of the paper, or establish a thesis.
	Major sections of body follow a logical sequence; organization within sections is logical and consistent. If section headings are used, they are clear and logically placed.	Major sections of body generally follow a logical sequence; organization within sections is basically logical, but may have some inconsistencies. If section headings are used, they are clear and logically placed.	Body of paper is not structured in a logical sequence, or not all sections or paragraphs follow a logical order. If section headings are used, they are vague and/or illogical.	The logical structure of the body of the paper is unclear or relies only on simple narrative; organization between paragraphs is difficult to determine. If section headings are used, they are vague and/or, illogical.
	Transitions between and within sections are effective.	Transitions are generally, but not always, effective.	Transitions are mostly ineffective.	Transitions are missing or are ineffective.
	Conclusion (or closing section) reiterates the main points, reiterates the thesis, and discusses implications for practice or future research.	Conclusion (or closing section) is missing one of the elements discussed in the "Acceptable for Publication" column.	Conclusion (or closing section) is missing two of the elements discussed in the "Acceptable for Publication" column.	Conclusion (or closing section) does not reiterate main points, reiterate thesis, or discuss implications of the research.

Research Skill & Development of Argument	Literature review provides a professional and comprehensive synthesis of a complex body of information.	Literature review provides fairly strong synthesis of information; a few sources may seem inappropriate or unrelated; some opportunities to connect ideas across sources are not taken.	Literature review provides little or inadequate synthesis of information; sources are largely unrelated or inappropriate; or connections across sources are not made.	Literature review fails to provide adequate synthesis of information; sources are generally inappropriate or merely listed.
	Thesis makes a clear, strong, arguable claim that is clearly articulated, synthesizes research, and draws specific conclusions about the current scholarly conversation related to it.	Thesis makes a claim that could be stronger, more arguable, or more clearly articulated. The claim synthesizes research and draws general conclusions about it, but the body takes a few tangents.	Thesis does not make a strong, arguable, clearly articulated claim that synthesizes the research. Thesis is not fully supported by evidence and/or does not draw specific conclusions.	Thesis is difficult or impossible to identify or understand, is not supported by research, or is inappropriate in scope and direction.
	Evidence supports every claim made in the paper.	Evidence supports most claims made in the paper.	Evidence supports only some claims made in the paper.	Claims are offered without evidence.
