Instructor Introduction

Professor Perry has a long-standing passion for the visual arts. She studied art history at the University of New Mexico, where she received her M. A. in Pre-Columbian art. She has taught a variety of art history courses and Art Appreciation at the University of Nebraska-Lincoln and here at UTEP. She and her husband and daughter (whom you will see from time to time in slide lectures) have lived in El Paso for many years.

Course Description

This course is an introduction to the visual arts, and will cover basic concepts, terminology and styles in a manner intended to accommodate a variety of learning styles. Students will be exposed to several historical western and non-western cultural styles of art in a variety of media, including architecture. Prior to the art historical study of these styles students will devote several weeks to the study of the fundamental concepts and terminology of art, as well as methods of making and issues surrounding the creation of art. Although frequently used to fulfill freshman core requirements, Art Appreciation is geared to students at all levels, from all academic disciplines. Students need not have had any prior experience in art to succeed in this class, and **there are no pre-requisites for enrollment**. However, attendance at all lectures and thorough note taking are fundamental to your understanding of the material presented in this course.

Course Format

Course material will be presented in a lecture format, utilizing visual support in the form of digitized images of artworks and videos. Additional content material, including chapter reviews and Powerpoint reviews of specific works for the final exam, will be available in Blackboard, in the Content section. This is a technology- enhanced course, and will require the completion of web-based assignments at home or in computer labs on campus.

Course Learning Outcomes

Upon successful completion of this course students will:

- demonstrate basic competency in the formal and iconographic analysis of art objects and will understand the concepts and terminology of art

- demonstrate a basic understanding of the nature of art, the issues surrounding the creation of art and the ways in which art objects and monuments reflect their respective temporal and cultural contexts
- be able to apply learned skills of observation and build confidence in their own ability to objectively assess works of art, paving the way for a lifelong appreciation/support of the arts
- have an awareness of some of the major monuments of western and non-western art and the significance of individual, cultural and historical styles, and will demonstrate the ability to describe, critically analyze, and otherwise engage works of art within a global context

Course Requirements

Exams (3) 75% of the course grade

There will be three objective exams given in this course, which may include image identifications, multiple choice, true/false, or matching type questions. The first portion of each exam consists of timed questions that require viewing of images; for this reason it is absolutely imperative that everyone be on time for every exam. Tentative dates for the first two examinations appear in the following course calendar. Any changes regarding these dates will be announced in class well in advance of the actual test date(s). The non-cumulative final exam is scheduled for Friday, May 17th. Students with last names beginning with the letters A-L will take the final exam @ 10:00 am; M-Z will take the exam @ 11:30 am. **Makeups will not be given for the final exam. Everyone will take the final on the scheduled day and time. NO EXCEPTIONS.**

Quizzes (5) 25% of the course grade

Students are advised that regular attendance at lectures is essential to their success in this course. Quizzes will assess student engagement and comprehension of lecture material and will require the student to utilize information learned in lectures to analyze visual material and respond critically to prompts provided by the instructor. **The dates of these quizzes appear in the course schedule; do not schedule appointments or outside activities on these days. If you have appointments on any quiz days, reschedule them now. Quizzes cannot be made up!!**

Rubin Center Visit

Students will be divided up into groups that will tour the Rubin Center for Visual Arts. With their student guide, they will engage the current exhibitions through active inquiry and discussion. Attendance is mandatory.

P.A.S.S. Study Sessions

Peers Assisting Student Success is a free tutoring program that consists of student led review sessions for historically difficult courses. The weekly review sessions are led by a student who has previously taken the course and is working closely with the professor to help provide individualized academic support to students. Your peer leader for this course is Joshua Rollins. Joshua will guide you through exercises that will improve your note taking and study skills, resulting in better exam grades and deeper comprehension of the subject matter. All students are required to participate in at least two study sessions before the first exam.

NOTE: Joshua is not a teaching assistant; therefore, he cannot extend deadlines, inform you of your grades, give you extra credit or provide you with lecture notes.
