

Course Syllabus

Course Name: Special Topics:
Construction Company Operations - 3
credits

Instructor: Professor Marshall
Engineering Room A214
915.747.5765
asmarshall@utep.edu

Faculty Associate: Dr. Cara Lanigan,
Principal, Clark Construction, educated in
engineering and law, many years of
experience working on some of the
largest construction projects in the world.
She is currently the principal in charge of
the Billion dollar Beaumont Hospital
project here in El Paso.

Location/time: Check day schedule on
Goldmine@6 PM plus times selected by
professor at the project

Course Description: This course will give
students real experience with
construction company operation
procedures

Textbook: none

Exams: none

Student Deliverables: Students must
summarize each week's presentation and
session separately, providing the
student's evaluation of each element
presented, its importance and purpose.

**This shall be only in outline form, not
essay form.** Students should include
input and suggestions on how they feel
the processes can be improved.
Students will combine these summaries
and email them to Prof. Marshall by the
end of week seven and again at the end
of the last week of classes at

asmarshall@utep.edu. These are due by 12
PM of the Friday of the 7th and 14th week of
the class. Late assignments will not be
accepted. These deliverables will be graded
for clarity and completeness (40%), depth
of analysis (40%) and English/grammar
(20%).

Class Structure: Part lecture, part field
project observation
