

If you have any questions, please call Professor Marshall at 915.247.1170, day or evening.

Welcome to this class. It should be very enjoyable and educational for you thanks to the generous and gracious effort provided by Sundt Construction staff.

Enjoy,

Prof. Marshall

Course Syllabus

**Course Name: SUNDT CONSTRUCTION
Course on Building Operations**

Course Number: CE 5390

**Instructor: Professor Marshall
Engineering Room A214
915.747.5765
asmarshall@utep.edu**

**Location/time: CRBL Rm. 204;
Tuesdays at 530-730 PM, starting on January 16, 2024**

Course Description: This course is designed to give students a working knowledge of methods and materials used in construction of an actual project currently being started by SUNDT..

Textbook: None

Exams: None, unless specifically requested by a student.

Assignments: Students are required attend class meetings each week and compile a summary of all things observed and learned during that week's session, and to include any and all questions the student has regarding anything presented. These deliverables are due by email to asmarshall@utep.edu and to the Sundt Professor email to be provided in class with a hard deadline of Sunday at midnight MST following the weekly session. Late assignments will not be graded for any reason unless discussed with Professor Marshall before the deadline. Assignments will be graded after each four week period or so. Grading will be provided by email to each student. Submit class subject questions with your weekly reports.

Late work and excuses are not part of construction.

Class Structure: The class will be organized to include discussion and visits to the construction site near to the classroom.

Class Topics: Topics will begin with a discussion of Precon tasks that are needed before a project begins and followed by subjects selected by SUNDT related to activities occurring on the job site.

Grading: Grades will be determined solely based on the weekly deliverables. Deliverables will be reviewed for completeness (50%), accuracy (30%), clarity (20%). There will be no exams or quizzes.

Academic Integrity: Academic integrity will be enforced in accordance with University and Department policies.

Disabilities: Students with disabilities will be accommodated. Students are required to notify the instructor of any disability at least one week before the start of class.
