Course #: STAT 5329
Course Title: Statistical Programming
Credit Hrs: 3
Term: Spring 2015
Course Meetings & Location: Bell Hall Computer Lab, TR 1:30 – 2:50
Prerequisite Courses: Department Approval Required
Course Fee: (if applicable) NA
Instructor: Amy Wagler
Office Location: Bell Hall 311
Contact Info: 744-6847 Phone #
avagler2@utep.edu E-mail address
744-6502 Fax #
Course Objectives (Learning Outcomes):
Introduces students to the principles and concepts of programming in SAS and R. Students will be able to manipulate data, create summary reports and lists, edit and interactively debug code, manage complex data sets, transform and generate data, create effective graphics for data visualization, create user-defined functions and SAS macros, handle various data formats, and learn the fundamentals of resampling methods in SAS and R.
Freeweekly assignments are given. A midterm and final exam will also be administered during the semester.
Assessment of Course Objectives: A grading rubric will be used for the bi-weekly assignments. There will be a mid-term and final in-class exam. Daily in-class assignments are graded for completeness only. There is a minimum score (50%) that you are expected to obtain on both the midterm and final exams. If the mean of both exams does not exceed 50%, then the hw grade will be dropped from your course grade.
Course Schedule:

- Week 1: Getting Started in SAS; SAS syntax
- Week 2: SAS Data Sets
- Week 3: Reading in Data; Validating and Cleaning Data
- Week 4: Manipulating Data; Combining Data; SAS reports
- Week 5: Input and outputting Data; Processing and Restructuring Data
- Week 6: Combining Data v2; SAS Macros
- Week 7: Extra SAS topics or handling simulations in SAS
- Week 8: R Intro, help and packages – MIDTERM EXAM (in-class)
- Week 9: vectorized calculations, matrices and arrays
- Week 10: lists and data frames, programming structures
- Week 11: simulations and efficient programming
- Week 12: permuting and bootstrapping
- Week 13: creating R functions (packages?)
- Week 14: final topics and FINAL EXAM

Grading Policy:

- 5% In-class assignments
- 25% Midterm Exam (there is an in-class and take-home portion)
- 25% Final Exam (there is an in-class and take-home portion)
- 45% Weekly Homework Assignments

Make-up Policy:

If class is missed for a valid and documented reason, the daily in-class assignments may be made-up for full credit. All other assignments must be turned in on time.

Attendance Policy:

You are expected to attend class so that you may turn in the in-class assignments and bi-weekly homework assignments.

Academic Integrity Policy:

Civility Statement:

This is a class where participation is required. You will be seated in front of a computer all class period and you are expected to follow the lecture/discussion and at various times complete in-class assignments. You are not to browse the internet during class time or work on any other material. If you regularly do not complete in-class assignments in a satisfactory manner, participate in class, or if you work on other material in class you will have points deducted from your in-class assignments portion of your grade.

Disability Statement:

If a student has or suspects she/he has a disability and needs an accommodation, he/she should contact the Disabled Student Services Office (DSSO) at 747-5148 or at <dss@utep.edu> or go to Room 106 Union East Building. The student is responsible for presenting to the instructor any DSS accommodation letters and instructions.

Military Statement:

If you are a military student with the potential of being called to military service and/or training during the course of the semester, you are encouraged to contact me as soon as possible.
<table>
<thead>
<tr>
<th>Criterion</th>
<th>Approx. % of Grade</th>
<th>Excellent (100%)</th>
<th>Adequate (80%)</th>
<th>Poor (60%)</th>
<th>Not Met (0%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Program Specifications / Correctness</td>
<td>50%*</td>
<td>No errors, program always works correctly and meets the specification(s).</td>
<td>Minor details of the program specification are violated, program functions incorrectly for some inputs.</td>
<td>Significant details of the specification are violated, program often exhibits incorrect behavior.</td>
<td>Program only functions correctly in very limited cases or not at all.</td>
</tr>
<tr>
<td>Readability</td>
<td>20%</td>
<td>No errors, code is clean, understandable, and well-organized.</td>
<td>Minor issues with consistent indentation, use of whitespace, variable naming, or general organization.</td>
<td>At least one major issue with indentation, whitespace, variable names, or organization.</td>
<td>Major problems with at least three or four of the readability subcategories.</td>
</tr>
<tr>
<td>Documentation</td>
<td>5%</td>
<td>No errors, code is well-commented.</td>
<td>One or two places that could benefit from comments are missing them or the code is overly commented</td>
<td>File header missing, complicated lines or sections of code uncommented or lacking meaningful comments.</td>
<td>No file header or comments present.</td>
</tr>
<tr>
<td>Code Efficiency</td>
<td>20%</td>
<td>No errors, code uses the best approach in every case.</td>
<td>N/A</td>
<td>Code uses poorly-chosen approaches in at least one place.</td>
<td>Many things in the code could have been accomplished in an easier, faster, or otherwise better fashion.</td>
</tr>
<tr>
<td>Assignment Specifications</td>
<td>5%</td>
<td>No errors</td>
<td>N/A</td>
<td>Minor details of the assignment specification are violated, such as files named incorrectly or extra instructions slightly misunderstood.</td>
<td>Significant details of the specification are violated, such as extra instructions ignored or entirely misunderstood.</td>
</tr>
