Vocal Health

Effective practice is very important in order to progress toward your vocal and performance potential. However, excessive practice or singing in excess of two hours per day can be counterproductive and dangerous to your vocal health. Listen to your body. Give yourself appropriate rest periods. Hydrate, do not smoke, avoid overuse of caffeine and alcohol, get adequate sleep, stay healthy and do not abuse your voice (ie. talking over loud environments, yelling at sporting events or concerts, etc.).
