

THE UNIVERSITY OF TEXAS AT EL PASO
College of Education- Department of Teacher Education

Title of Course: ECED 4300 CRN 33266 and CRN 34061 Responsive Classroom Management	Credits: 3
Semester: Summer 2024	Instructor Information: Name: Bryn Birdwell, M.Ed. Email: bibirdwell@miners.utep.edu Office hours: Email for a phone or Zoom appointment. Emails will be answered within 24-48 hours (usually sooner).
Day/Time: Fully Online Runs: Monday-Sunday Schedule	

Course Description:

This course adopts an encompassing view of classroom management, including: positive child guidance strategies, inclusive social organization strategies and the design of engaging learning environments. It covers the psychosocial foundations of current child guidance strategies and practical approaches to promoting effective child-teacher, peer-peer and large group interactions. Emphasis is placed on ways teachers can foster respectful and responsive relationships with and between students, as well as techniques for nurturing self-regulation, self-motivation and self-esteem in children.

Course Format Information:

This course will be conducted *fully online* [there are no in-person/campus- based class meetings]. It runs on a Monday to Sunday schedule; course work throughout the week is due at specific days/times, however, you are *not* required to be online at any specific time. This is an intensive summer course that runs in half the time of a traditional semester. The standard recommendation across the board by American universities is to plan for approximately three hours of study time for every one credit hour taken. Therefore, for this course, you can expect each week to spend 3 hours of class time + 9 hours of study and prep time, which equals approximately a minimum 12 hours per week devoted to this course. Please read the syllabus and information in the course site VERY carefully, understand what you need to do and when you need to do it, and then plan course study time in your week accordingly. If at any time you do not understand what to do or when to do it, you should contact Ms. Bryn Birdwell immediately (bibirdwell@miners.utep.edu).

For Technical Assistance:

For technical problems with our online course site or related computer/Internet applications, please contact the UTEP Helpdesk: M - F: 7AM - 8PM, Sat: 9AM - 1PM, Sundays 11-4 pm. On campus phone: 915.747.5257. Off campus: 915.747.4357. If you are on campus, you may also visit the ATLAS lab located within the Undergraduate Learning Center (UGLC building) or the Technology Support Center in Room 300, Library.

UTEP Learning Resources:

(UTEP provides a variety of student services and support, including the resources below.)

- UTEP Library: You may access a wide range of resources, including online, full-text access to thousands of journals and eBooks plus reference service and librarian assistance for enrolled students.
- The University Writing Center (UWC): Virtually everyone needs help with writing academic English. There's no shame in it. The UWC [Library Building, Rm.227; phone: 915.747.5112] provides online consultations to all UTEP students at no cost. They also have walk-in services, if you are local. It is a terrific resource. If I suggest you attend the Writing Center, it's because I think you will benefit from it. It's not a punishment – it's intended to help you. Check the website for more information: <http://uwc.utep.edu>

Standards of academic integrity:

Students are expected to uphold the highest standards of academic integrity. Any form of scholastic dishonesty is an affront to the pursuit of knowledge and jeopardizes the quality of the degree awarded to all graduates of UTEP. Any student who commits an act of scholastic dishonesty is subject to discipline. Scholastic dishonesty includes, but is not limited to: cheating, plagiarism, collusion [making plans to cheat with another], the submission for credit of any work or materials that are not attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Proven violations of the detailed regulations, as printed in the Handbook of Operating Procedures (HoOP) and available in the Office of the Dean of Students, may result in sanctions ranging from disciplinary probation, to failing grades on the work in question, to failing grades in the course, to suspension or dismissal among others.

Students with Disabilities statement:

If you have or believe you have a disability, you may wish to self- identify. You can do so by providing documentation to the Center for Accommodations and Support Services (CASS) located in Union E Room 106. Students who have been designated as having a disability must reactivate their standing with

CASS on a yearly basis. Failure to report to this office will place a student on the inactive list and nullify benefits received. If you have a condition which may affect your ability to exit safely from the premises in an emergency or which may cause an emergency during class, you are encouraged to discuss this in confidence with the instructor and/or the director of CASS. You may call 919-747-5148 for general information about the Americans with Disabilities Act (ADA).

Student Conduct and Discipline: All students are expected and required to obey the law and to comply with Regent, Rules, and Regulations (<http://www.utsystem.edu/bor/rules>) with system and University rules, with directives issued by an administrative official in the course of his or her authorized duties and to observe the standards of conduct appropriate for the university.

Equal Opportunity: All students regardless of gender, age, class, race, religion, physical disability, sexual orientation, etc., shall have equal opportunity without harassment in this course. Any problems with or questions related to this can be discussed confidentially with Ms. Birdwell [email bibirdwell@miners.utep.edu to set up a phone meeting].

Guide to Online Etiquette:

As a member of the learning community of this class, the following is a list of specific expectations (Note that this list is not exhaustive and that it may be added to as needed throughout the semester):

1. *You are expected to actively engage in the learning community of this class.*

This includes completing the coursework tasks as outlined in each week's session, actively contributing to discussions, seeking guidance if you have questions (note that if you have a question, it is likely that everyone will benefit if ask your question) and exhibiting professional courtesy during interactions with classmates/ your instructor. Class participation includes but is not limited to engaging in in-class activities and writing, volunteering inputs in class discussions, answering questions, defending personal viewpoints, and presenting completed assignments to your classmates.

2. *You are expected to exhibit appropriate behavior for a higher learning environment.*

Even though we will not meet face-to-face, logging on to our online course site is the equivalent of walking on to the UTEP campus. Therefore, the rules of conduct that apply on campus also apply in our course site. Our course site is a place to engage in social learning; it is meant to be a safe space for all. Our ideas and beliefs shape who we are and will differ from our peers; sharing these within class allows us to learn different perspectives and points of view, but this can only happen successfully if everyone in our learning community is respectful of individual ideas. You are encouraged to participate in all activities to the fullest extent possible, with an open mind to new experiences. In particular, the following are general guidelines for online interactions:

- All the information discussed between peers and/or with your instructor should be kept confidential, thus providing a safe atmosphere for creative expression, free of judgment.
- You are encouraged to participate to the depth that you feel comfortable sharing with the class (Note: An electronic record will remain, so be thoughtful in how much personal information you share. The general rule is to share only that which you would be comfortable seeing printed in a newspaper/ public Internet page.).
- Do not use inappropriate language, all capital letters, or language shortcuts (i.e., texting shorthand). Online entries should reflect academic writing standards, with edited spelling, grammar, and punctuation.

- When reacting to someone else's message, whether in agreement or disagreement, please address the ideas, not the person. (Note: Harassing, flaming and/or inappropriate postings will not be tolerated.)
- Be sure to read everyone's responses before posting. Avoid repetition of what someone else has already said. Add something new to the discussion!
- Please refrain from posting yes/no or I agree/disagree answers (this will *not* earn you participation points). The point of our online interactions is to create a rich and meaningful sharing of ideas; therefore, posts should: justify positions, provide specific examples, and demonstrate that you have read the required readings and your classmates' comments carefully and thoughtfully.

3. *You are expected to exhibit high level time management skills and turn your work in ON TIME.* As previously mentioned, this is a fast-paced, intensive course that requires you to devote significant time to complete the required readings, discussions and various additional assignments that are due each week. Although there is no mandatory time that you must be online, the research shows that those with the best success in online courses create a set schedule for coursework and stick to it (whether you do your work at 3am or 10am on whatever day does not matter, what matters is just that you allow a sufficient, set time each week of the semester to focus on coursework). Timely completion of all coursework is essential for this class to run smoothly (i.e. your classmates rely on you to do your readings early in the week and contribute to the discussion on time in order for them to be able to post feedback later in the week). Therefore, late work will *not* be accepted. All online assignments are due by the due date and time listed in the task directions (see each weekly session in our course site for specific details). Please ensure that you carefully read all instructions for each assignment, particularly the due dates and times, and then schedule the time you devote to this class accordingly.

Missing two weeks of discussion and/or failure to turn in three assignments will result in your automatically failing this course, regardless of any points earned.

Note: Exceptions may be made in the case of *extreme emergency* with supporting documentation. I will not accept any late coursework after one week from the originally scheduled due date during the semester or after the last scheduled coursework due date at the end of the semester. If you anticipate your assignment will be late due to unusual circumstances, please contact me and explain your situation prior to the due date of the assignment. Without prior notice, late assignments will NOT receive any credit. Any accepted work not turned in on the due date will be graded by the end of the semester.

If Blackboard is down and you cannot get into our course site to post work by the required due date: ALL coursework should be posted in our online course site. If you find that you are unable to log into Blackboard to access our course site at the time that you are trying to post your work by the due date, you must email me (through regular e-mail at bibirdwell@miners.utep.edu) immediately with an attachment of your work. When you do this, I will know that you have completed the work in a timely manner and it will be accepted, even though it was not posted in our course site as is generally required. I will then check with the Technology staff at UTEP to determine when Blackboard was out. If you email me indicating that you did not post your coursework because Blackboard is down, but you do not send me your work as an attachment in the message, you will not receive credit for your work.

4. *Your work is expected to be your own.*

Everything you turn in for this course must be your own work. The purpose of coursework is to know what *you* think, not how clever you are at getting around the rules.... so use your brilliance in a productive way. Any student caught engaging in instances of cheating, plagiarism or any other form of academic misconduct WILL be referred to the Dean of Students Office for disciplinary action. Students may be suspended or expelled from UTEP for such actions. It's serious! Don't do it.

5. *You are expected to contact me for help if needed throughout the semester.*

My office hours for this spring are by appointment. Please email me to set up a day/time for a phone or Zoom meeting.

My email is bbirdwell@miners.utep.edu. Please include your first and last name and the title of the course you are taking with me in the body of your message. **Please note:** I answer email Monday-Friday from 9am- 4pm. If you send me an email after 4pm on Friday afternoon, you will not receive a response from me until mid-Morning on the following Monday. Therefore, if you need to reach me on a Friday, email early! You can expect a response from me with 24-48 hours (usually sooner) for any email communication you send during the week.

If at any time, you have difficulty understanding my expectations or the course material or completing course work for any reason—**Be Proactive!!!** I am here for you (email, phone, Zoom). I *strongly* encourage you to reach out to me as soon as possible (do not wait until the day before something is due or the end of the semester) and we will work together to make this class a success for you!

Individual grading rubrics are found in the directions for each coursework task, which are located in our online course site.

This course runs on a weekly schedule, Monday through Sunday. Detailed instructions for all of the coursework tasks to be completed each week of the semester are arranged by class session (i.e., each class session covers one week of the semester). The class sessions for each week are labeled by week number and start date in the main left-hand navigation in our course site. In each of the weekly class sessions, you will find: the topic(s) and objectives for the week, the required reading (with embedded links to download/access articles), a summary of what tasks are due (and when) that week and detailed directions and related links for completing and posting your coursework that is due during that week).

All weekly tasks must be submitted by the given deadline as outlined in our course site.

The following is a summary overview of the required coursework for the semester and related points possible. For *detailed instructions*, you should access the weekly class sessions in our online course site in Blackboard.

Syllabus Quiz (20 Points total)

It is very important that you carefully read and understand the information contained in this syllabus document. To check your knowledge, you will take a Syllabus Quiz. You may take the Syllabus Quiz up to three times by the due date to try to earn full points.

Your Syllabus Quiz is due by **11:45 pm MT on Sunday** of the first week of class.

[There will be 5 Syllabus Questions x 4 Points each = 20 Points total]

Reflections (320 Points total)

Most weeks, there will be assigned readings/videos to watch related to our topic for that class session. To provide an opportunity for you to think about your new knowledge gain from the readings/viewings, you will do 10 written Reflection postings. Detailed directions for Reflections are found in select weekly sessions in our course site.

Your Reflection postings are due by **11:45 pm MT on Sunday** of the weeks they are assigned.

[There will be 10 Reflections x 32 Points each= 320 Points total]

Deeper Look (360 Points total)

Deeper Looks will focus on the topic of the week and practical applications of that concept in a classroom. These assignments will be focused on four types of activities:

- Reflect it! For this type of deeper look, you will be asked to discuss the information that you have gained for that week. You will reflect on your own experiences as a student and what you have observed in classrooms and how it relates to the information presented.
- Design it! For this type of deeper look, you will be asked to create plans based on specific approaches to classroom management and specific theories for behavior management and classroom dynamics.

- Assess it! For this type of deeper look, you will be asked to review and evaluate some provided materials or practices in relation to what we have covered and learned.
- Question it! For this type of deeper look, and possibly the most difficult, you will be asked to question the very practices that may have inspired you to become a teacher. You will be asked to think about the long-term consequences of these practices on students, as well as questioning the effectiveness of the practice for the “greater good”.

The point of each Deeper Look submission (regardless of type) is for you to show the knowledge you have made and to make critical connections to the content topic of the week.

Deeper Look postings are due by **11:45 pm MT on Sunday** of the weeks they are assigned.

[There will be 12 Deeper Look Tasks x 30 Points each = 360 Points total.]

Midterm Paper (150 Points total)

For your Midterm Paper, you are given the scenario that you are a new teacher in an early childhood setting; you are provided detailed descriptions of children in your new classroom. For your paper, you will choose three children and address the needs of these children described in developmentally and culturally appropriate ways so that the children will thrive in your classroom. Specific directions and rubrics are found in our course site.

Your Midterm Paper is due by **11:45 pm MT on Sunday** of the week it is assigned.

[5 Questions x 30 Points Each = 150 Points Total]

Final Project (150 Points total)

For your Final Project, you will interview a “novice teacher” (a teacher relatively new to the teaching field, with 5 or less years of experience) and create a written analysis. For Part 1, you will collect data about the triumphs, challenges the teachers encounter with regards to responsively managing a classroom, as well as the lessons learned. For Part 2, you will then utilize the content covered throughout the semester to analyze the theoretical perspectives and practices taking place in the teacher’s classroom and the school setting. Specific directions and rubrics are found in our course site.

Your Final Project is due by **11:45 pm MT on Sunday, August 4th (the last day of class)**.

[Part 1(50 Points) x Part 2 (100 Points) = 150 Points Total]
