This will connect you to this class’s REMIND where you can communicate with me via secure text during my office hours. I will respond within 24 hours outside office hours.

OFFICE HOURS: TH 3-5pm

ALSO AVAILABLE TO CHAT BY APPOINTMENT

REQUIRED TEXTBOOK

MAJOR ASSIGNMENT DEADLINES:

PROCESS INSTRUCTION PROPOSAL November 1

USER GUIDE November 8

PRODUCT DEVELOPMENT PROPOSAL November 15

RECOMMENDATION REPORT November 22

PRODUCT MARKET DOSSIER December 6

*All Major Assignments will be due by MIDNIGHT of the day listed.*
COURSE OVERVIEW

This course introduces you to the principles and methods of technical writing and provides you with the skills to improve your ability to communicate through a variety of technical documents and media. Together, we will examine (analyze) a number of writing and design principles and practice (produce) a variety of technical genres. Successful completion of this course will improve your ability to:

- Analyze the rhetorical situation and define the users and/or audience as well as tasks that the information must support;
- Apply rhetorical principles to plan and design effective technical documents for diverse media;
- Direct, manage, and monitor the publication cycle of small- and large-scale texts, such as articles, manuals, and websites;
- Compose content appropriate for the users and genres, revise and edit written work for accuracy, clarity, coherence, and appropriateness, and document resources as defined by a specific field;
- Apply technological and visual rhetorical skills (e.g., document design, graphics, computer documentation, electronic editing, and content management applications) in the composing process and publish, deliver, and archive as required; and
- Work critically and collaboratively to complete projects.

1.1 COURSE INTERFACE & SYLLABUS

This course will use Blackboard as the primary online interface, in addition to posting and course communication. Blackboard will also serve as a private and secure space for students to access up-to-date grades. If you need help working with Blackboard, please contact me, or UTEP Tech Support at:

- Phone: 915-747-4357 (HELP)
- Email: helpdesk@utep.edu
- Chat: Chat With Us
This syllabus is available on Blackboard. While this syllabus is a binding document, portions, such as the course calendar, are subject to change by written notice. A current draft of the syllabus and calendar will always be available on Blackboard. Any modifications to the syllabus will be announced on Blackboard, as well.

1.2 ATTENDANCE

Logging in regularly is a must for an online course. I recommend logging in at least once per day as there may be updates. If logging on or internet access is a problem, please reach out to me and we will try to find a solution. Since you signed up for an online course, it is assumed you have internet access. Missing more than three weeks worth of postings will result in automatic failure of the course, regardless of your progress on major assignments. Students who do not log on or post to Blackboard by the end of Week Two will be dropped from the course—no exceptions.

1.3 REQUIRED TEXT

This course will use Markel’s *Technical Communication* (12th edition)—see page 1 of course syllabus for textbook specifics—as the guiding textbook. All assignments and readings will be listed in the course calendar as well as provided within Blackboard as needed. You will need the textbook for the first week of classes. Please plan for shipping times if ordering online as no extensions or exceptions will be made if you do not have a textbook by the third week.

1.4 ASSIGNMENTS & PROJECTS

Assignment sheets will be posted to Blackboard as they become relevant to the course. All assignments are to be submitted via the Blackboard “assignments” section by midnight of the due date (see course calendar). All assignments are required to be submitted in PDF formats unless otherwise noted. Assignments submitted in other formats will automatically receive no credit and will be required to contact the instructor in order to resubmit. Please double-check before submitting your assignments. Additionally, assignments should never be sent via email and will not be accepted unless instructed to do so.
This course works on a 1,000-point scale and final grades will be determined using the scale below. Grades will be posted to Blackboard. Please see me during my office hours or contact me for an appointment if you wish to discuss your grades.

A=900-1,000 points  B=800-899 points  C=700-799 points  D=600-699 points  F=599 or below

This course’s assignments and their associated point values are as follows:

- Participation (Discussion Board Posts/Activities) 100
- Reading Exercises (5 @ 30 points each) 150
- App UX Reviews (5 @ 20 points each) 100
- Process Instruction Proposal 100
- User Guide 150
- Product Development Proposal 100
- Recommendation Report 100
- Product Market Dossier 150
- Peer Review Memos (2 @ 25 points each) 50

1.5 Composition

Your written work is a reflection of your capabilities and efforts and comprises the majority of your final grade. You are therefore expected to produce high-quality, sophisticated documents. A part of that quality is the appearance of your work. Neatness, visual appeal, and mechanical and grammatical correctness are important, although they do not, alone, guarantee a well-made text (or a good grade). Your written documents should have appropriate margins, spacing, pagination, and formatting. Your productions in electronic and other media should be well-designed. In short: take pride in your writing and aim to produce high quality documents.

1.6 Submitting Assignments

Assignments should be submitted following the submission links found on Blackboard. These links will be provided within the modules during the weeks in which the relevant assignments are due. Make sure to upload your assignments in PDF format as this is the only format accepted.
1.7 Late Work/Missed Assignments

As a general rule, assignments should be submitted by the posted deadlines. Assignment deadlines are all clearly posted in both this course syllabus as well as within Blackboard. It is your responsibility to manage your time and meet deadlines. With that in mind, late assignments will be accepted without penalty provided you email me at least 2 days prior to the deadline and we agree on an alternative deadline. Otherwise, assignments will receive a 10 percent penalty per day late.

1.8 Netiquette

Since this an online course, it is important that you familiarize yourself with netiquette—or online etiquette. Please review “The Core Rules of Netiquette” by Virginia Shea.

https://infogram.com/virginia-sheas-10-rules-for-netiquette-1g0n2owqewdnp4y

1.9 Professionalism

We will be considering audience a lot in this course and I want you to keep in mind that you are speaking to a professional audience. Additionally, this is a professional writing course and you should take this into account in all writing you do for this course (postings, responses, assignments, and even emails). When you email me—or anyone really—make sure you include a salutation, background information, and proper closing. Your emails should be professional and cleanly formatted with proper sentence structure and grammar.

1.10 Additional Information

Please note these additional policies and information regarding this course.

- UNIVERSITY WRITING CENTER (UWC): I encourage you to make use of the UWC during the planning, drafting, and/or revising phases of any writing assignments for any class. The trained writing consultants can help give you a fresh perspective on ideas and help you with things like correctness, formatting, etc. The UWC is located on the main floor of the library, to the right of the elevators and computer lab.
• RESOLVING ISSUES: It is your responsibility to manage your workload, complete all assignments, and stay on top of your grades. It is also your responsibility to arrange an office meeting with me to discuss questions/concerns. The earlier you contact me with questions/concerns, the better we can deal with them.

• PLAGIARISM is an issue I take very seriously. An act of plagiarism (or other form of academic dishonesty) will be submitted to UTEP’s Office of Student Conduct and Conflict Resolution and may result in University disciplinary action, such as suspension or expulsion. Additionally, please be aware that you may not submit assignments for this course that were produced for another course. If you have doubts whether or not you are using your own or others’ work legally and ethically, ask me or stop by the UWC. Follow the primary principle: Be upfront and honest.

• AMERICANS WITH DISABILITIES ACT (ADA) requires that reasonable accommodations be provided for students with physical, sensory, cognitive, systemic, learning, and psychiatric disabilities. If you suspect that you have a disability and need accommodations, please contact The Center for Accommodations & Support Services (CASS) at 915.747.5148 or at CASS@UTEP.EDU. The CASS office is located in Room 106. Union East.

Students are responsible for presenting the instructor with any CASS accommodation letters and instructions.

1.11 Course Calendar

A tentative reading and assignment schedule follows, but it may be adjusted as needed. Complete all reading and writing assignments by the Saturday of the assigned week. Additionally, please see the task list provided on Blackboard for a complete list of all weekly requirements for the course. What follows is just a rough outline and does not include all requirements of the course. Make every effort to stay on top of updates.

BE AWARE, as this course is a seven week course, the content is compressed and you will need to devote considerable time daily to complete the assignments that are due every week.
(COURSE CALENDAR, SUBJECT TO CHANGE)

CH: Book Chapters to Read
EX: Book Exercise
DB: Discussion Board
MA: Major Assignment
AR: Application UX Review

WEEK ONE // October 19 - 25 Introduction to the course
