Teaching Philosophy

My teaching philosophy is to allow students to experience personal responsibility in the university setting. It will be the student's responsibility to actively participate in their job as a college student by attending class everyday, coming prepared, actively participating in class, and completing all assignments. My job is to provide a positive environment that encourages the desire to learn, guide the students through the course and make sure that the students feel comfortable coming to me in person and asking any questions or to talk about the class.

Grading:

I grade using a point system. Assignments will range in value. There is no weight to work. It is a simple point received/potential points earned system **Grading Scale: 720-800 = A; 640-719 = B, 560-639 = C, 480-559 = D, 0-479 = F.** You must make at least a C to receive credit for the class.

Please Note: Be sure to save ALL graded work that is returned to you and verify your grade periodically throughout the semester. Errors in your grade can be corrected if you can provide your graded work.

Show attendance:

It is mandatory for you to attend the following productions. Please purchase your tickets early. If you wait to buy tickets until the last minute, it is possible that tickets will be sold out. **Remember to save your tickets and programs. You will need to turn them into me to get credit for attending the production.**

- Exams: (300 points) You will have three online multiple choice Exams. They will be available for one week and when you begin you will have a set time limit to take the test. Make sure you on a reliable network (hard wired is more reliable than wireless.) You will find your exams under **Content/Exams** choose the exam that is open and available. The calendar on your syllabus has the schedule for due dates. **Technical difficulties is not an excuse for not completing the exam.** Please use **Google Chrome** as your preferred software for and during all testing. If Blackboard is down on the due date of the exam, I will extend it for an additional 24 hours only. I will know if Blackboard is down university wide as I have access to this information and can have it confirmed.
- Articles and Final Essay Exam (100 points) You will have an essay final that will be online, your time window will be on the syllabus and once you begin you will have 2 hours to complete. The essay will revolve around a series of articles that are available for you to read throughout the semester at your own pace. I suggest you read the articles in your time, take notes, highlight information and be prepared prior to starting the exam or you will find you will not have enough time to complete the writing.
- UTEP Productions: (100 points) You will be required to see the two production above. You will have to turn in the program and ticket stub to me by the due date on the syllabus. They must be stapled (**I do not provide a stapler for you to use in class**) and have your name on it. I will not accept late submitted programs. You can turn them in early.
- Online Productions and Questions (200 points) – You will be watching video plays online through the Library Database, *Digital Theatre Plus*. I have found that for you to view it best, you should use **Internet Explorer**. After you watch it, you will be required to answer questions on Blackboard about the production. These are **NOT MOVIES**, they are taped LIVE PRODUCTIONS. I will post instructions on how to get to the database from home, you can also contact the library for more instructions. I suggest you make sure you know how to get to the database well in advance of your first assignment. You will find the link under **Content/Online Productions and Questions**. You can find the due dates on the calendar in the syllabus. Blackboard will shut the questions down at 11:59 pm on the due date and you WILL NOT have access to the assignment and will receive a zero. I cannot open the assignment back up again. Do not wait until the last minute to work on this assignment.
- Class Presentation (100 points) You will all be assigned a city in the United States and will give a 3 minute presentation in class on the “Arts in an American City.” You will be required to create a PowerPoint Presentation with images to support your speech. You can find more information on this presentation under (**Content/Arts in and American City Presentation**). The schedule for your presentation can be found on the syllabus calendar and you must be present for both days and ready when I call on you.

Late Work

I do not accept late work! No Excuses Allowed! Blackboard shuts down and I cannot reopen assignments for one student.

Extra Credit

Extra credit for you means extra work for me and I don't have that kind of time. Extra credit also means extra hard working. Students who have shown they are serious about class through good attendance and turning in all work will be granted extra credit. Assignment, points will be determined by me. You must make an appointment to see me and we will have a discussion about it. There will be no extra credit granted after November 17th and all extra credit will be due November 24th at 9am. If you have been a student who has missed class and missed work, you will NOT be granted extra credit, so do not bother to ask me.

Attendance

You are allowed up to two (2) absences. I will close and lock doors at top of lecture, do not knock and interrupt lecture, I will not answer. Once class begins, do not leave early unless it has been discussed with me prior to the start of class. I will pass around an attendance sheet, it is your responsibility to sign in.
