

The University of Texas at El Paso
AERO 2331: Aerospace Materials
Spring 2023

Instructor: Alejandra G. Castellanos, Ph.D. Department of Mechanical Engineering A116 Engr. Building castellanosa@utep.edu	Office Hours: Monday 10:30-11:30 am and Tuesday 1:30-2:30 pm or by appointment in A116 Engr. Building
---	---

Class meeting time and location: MW 9:00 – 10:20 am CCSB 1.0202

Prerequisites: CHEM 1305: General Chemistry and CHEM 1105: Laboratory for CHEM 1305

Course overview: This course is designed to introduce the students to basic materials science with an emphasis on properties and how they are influenced by thermal and mechanical treatments. The students will be able to relate the microstructure of a material to its properties, and understand the effects of the environment on materials and the possible failure modes of structures. The students will be provided with demonstrations of various processes in the laboratory.

Textbooks:

- (Required) Ashby, Materials Selection in Mechanical Design, 5th Ed. 2017

The material covered in class will parallel the text, but it will not duplicate entirely. You are responsible for the content covered in the lectures. (see schedule for topics)

- (Required) Mouritz, Introduction to Aerospace Materials, 1st Ed. 2012. You can find this book for free available online at the UTEP library.

Software:

- (Required) Fusion 360

Other course materials:

- Any Mechanics of Materials (MoM) textbook. A free e-book on Introductory Mechanics of Materials by M. Vable can be downloaded at <http://madhuvable.org/books-2/introduction/>
- Supplemented example problems posted in Blackboard and distributed in class.
- Slides posted in Blackboard. (Class notes will **NOT** be uploaded).

Course home Page: The “Course Home Page” has been created on Blackboard. Make sure you have access to this site; it will be used to distribute lecture notes, assignments and grades. The email distribution list for the class will be used for announcements and reminders. **Check your email account on a regular basis.**

Grading:

Syllabus Quiz	2%
Homework	28%
Exam 1	20%
Exam 2	20%
Projects (2)	10%
Final Exam	20%
Total	100%

Grading will be conducted on an absolute scale. Under this system it is possible for the entire class to get an A or the entire class to get an F depending on the ability and performance of the individuals in the class. It is also easy for you to evaluate how you are doing in the class during the semester. The following criteria will be used to assign a grade for the course:

$100 \geq \mathbf{A} \geq 91$
$90.9 \geq \mathbf{B} \geq 81$
$80.9 \geq \mathbf{C} \geq 71$
$70.9 \geq \mathbf{D} \geq 61$
$60.9 > \mathbf{F}$

Technology Requirements:

Course content is delivered via **Blackboard** learning management system. Ensure your UTEP e-mail account is working and that you have access to the Web and a stable web browser. Google Chrome and Mozilla Firefox are the best browsers for Blackboard; other browsers may cause complications. When having technical difficulties, update your browser, clear your cache, or try switching to another browser.

You will need to have access to a computer/laptop. You will need to download or update the following software: Microsoft Office, Adobe Acrobat Reader, Windows Media Player, QuickTime, and Java. Check that your computer hardware and software are up-to-date and able to access all parts of the course.

IMPORTANT: If you encounter technical difficulties beyond your scope of troubleshooting, please contact the UTEP Help Desk as they are trained specifically in assisting with technological needs of students. Please do not contact me for this type of assistance.

Homework:

When? Due at the beginning of each class (see schedule at the end of the syllabus for dates)

Where? You will submit it through Blackboard (BB) as a **single** pdf. Failure to submit your homework as a pdf will result in a zero grade. If your file is corrupted or I cannot open it, you will receive a zero grade. Before submitting your homework make sure it is a readable file.

All problems should be worked on a separate piece of paper. One to two problems will be randomly selected for grading from each assigned homework set.

For **Full Credit**, each homework problem must include the following information:

- Your name
- Problem number
- A diagram describing the problem when appropriate (e.g. Free body diagram)
- State appropriate formula
- Complete and detail solution: step-by-step solution and appropriate units.
- Write 2-3 sentences describing in words the concepts covered in the problem

You must show your work for all problems. If no work is shown or your procedure does not match your answer you may not receive credit.

Late homework is NOT accepted and will result in a zero grade. The lowest homework grade over the course of the semester will be dropped. You will receive an email once your HW has been graded.

If you believe your grade is incorrect after you have checked the solution, you will have one week after you have received your grade to consult with me about it. After that date, your grade will be permanent.

Projects:

Instructions will be provided in class for each of the two Projects that will be assigned during the semester. The report should be uploaded ONCE through Blackboard (BB) as a pdf.

Your goal in the writing is to convey your results and understanding of the topic thoroughly and concisely. Reports must be **no less than 1.5 or more than 2 pages**, including figures, tables, and references. Figures and tables must be numbered and captioned and referred to in the text of the report. Any references utilized must be cited in either a footnote or endnote.

Report must include:

- Title
- Contributing Authors
- Abstract: The formula for an abstract is as follows:
 - Begin with 1-2 sentences motivating the work. These sentences answer the question of why the “general topic” is interesting.
 - State a key unknown question in the field (1 sentence). This focuses your abstract onto a specific topic. (Note: The unknown question is what your explanation will address.)
 - Explain the methods you used to address this question. State results and conclusions. (3-5 sentences)

The hardest part of writing the abstract will be identifying the key question. This is also the most important part of the abstract, because it tells the reader what they will learn from reading your manuscript.

- Methods
 - List materials used
 - Describe step-by-step procedures
 - Provide drawings or images of the experimental setup
- Results
 - Include all relevant data/observations (inclusion of images may be helpful)
 - Include an analysis of the results (often a graph or table will assist). If a table is used make sure to include the standard deviation.
 - Discuss sources of error in the experiment/measurements if any
- Discussion and Conclusions
 - Describe the topic investigated
 - Provide explanations for your results.

Late reports are NOT accepted and will result in a zero grade.

Exams:

There will be three exams. All exams are closed book and closed notes with the following exceptions:

- For all exams (Exam 1, Exam 2 and Final Exam) students are allowed to bring notes on one 8.5” x 11” sheet of paper with notes on both sides.

The note sheet can include problems, derivations, and concepts, anything you can fit in it as long as it is written by you. The note sheets must be written by the student. Photocopies are NOT allowed. Student will turn in their note sheets with their exams. Failure to submit your notesheet with your exam will result in a 0 for that exam. If two students have the same note sheet, a 50% reduction will be applied to each problem, which means that the maximum grade that you can obtain is 50. More than one notesheet will result in a 0 for the exam.

If you arrive more than 15 minutes late on an exam, you will not be allowed to enter the examination room.

Excused Absence for Exams:

The UTEP catalog allows an Exam Absence to be excused ONLY for University-Recognized Activities or other specific situations listed in the Academic Catalog. You must notify the instructor with at least **10 days prior to the absence**. If a student does not take the test and does not have an excused absent by the instructor based on the guidelines of the university catalog, the test will be graded as zero (0). No exceptions! There will be no makeup exams administered, unless it is an excused absence approved by the UTEP Graduate Catalog. Please observe the university’s academic regulations outlined in the UTEP Graduate Catalog (<http://catalog.utep.edu/policies-regulations/attendance-grading/>).

Email Policy:

The best communication method is through UTEP email, office hours and during class. I will reply to general questions or concerns within 2 to 3 business days, Monday through Friday, during business hours (8:00AM-5:00 PM). Emails received after 5:00 PM, may not be responded to until the next business day.

- If the answer is in the syllabus, I will not reply unless the question is about clarifying information.
- I do not answer emails during the weekend.
- I do not explain complete lectures or solved problems through email. If you need clarification on one of the topics, attend my office hours. If you cannot make it, please schedule an appointment. The meetings will be scheduled several days after your initial email due to my busy schedule. Office hours are not a substitute for the class.
- ***If we (student and professor) agree on a make-up exam/assignment due to an excused absence, you MUST have an email from me agreeing to that make-up exam/assignment. Otherwise, no make-up exam/assignment will be administered and its grade will be zero (0)***

Bottom line: Ask questions in class and during office hours.

Attendance Policy:

Attendance in the course is determined by participation in the learning activities of the course (Homework, Projects, Exams and Final Project) and class participation. Your participation in the course is important not only for your learning and success but also to create a community of learners. Participation is determined by completion of the following activities:

- Syllabus Quiz
- Homework
- Exams
- Projects

Because these activities are designed to contribute to your learning each week, they cannot be made up after their due date has passed.

Attendance is mandatory. Anyone with 3 or more absences (missing assignments) will be dropped from the class. A drop for not attending will count toward the State Allowed Six Drop Limit. If you are failing the class at the time of the drop you may also be given a WF designation. Be advised that a drop could adversely impact visa status, financial aid and other programs. Students must arrive to class on time. If you will not be able to make it to the class session, contact the instructor in advance via email.

As per UTEP rules, you may be asked to show a UTEP ID at any time during class. Anyone who is present and/or registered in the class will be subjected to disciplinary action unless the instructor gives prior approval.

Excused Absence for Exams:

The UTEP catalog allows Exam Absence to be excused ONLY for University-Recognized Activities or other specific situations listed on the Academic Catalog. You must notify the instructor with at least **10 days prior to the absence**. If the student is absent from a test, the exam will be graded as zero (0).

Students with special needs:

Students with disabilities or special need, including both permanent disabilities (including learning disabilities, Attention Deficit Disorder, visual, mobility and hearing impairments, psychological disabilities, and chronic systemic disorders) as well as some temporary medical conditions (e.g. broken arm), are encouraged to see the UTEP Center for Accommodations and Support Services (CASS) located at Union East Room 106 or contact them at (915) 747-5148 or at cass@utep.edu.

Diversity:

Diversity is a source of strength, creativity, and innovation. All students in this course are expected to value the contributions of each person and respect the ways in which their identity, culture, background, experience, status, abilities and opinion enrich our learning experience and university community.

Departmental Policy

Academic Honesty:

- During exams and quizzes, you are not allowed to use any form of wifi enabled electronic device, including cell phones or other electronic communication devices or methods (wrist watches, earbuds, etc.). No

wrist watch or other electronic device may be worn. Calculators and watches may be subject to inspection. You may be asked to temporarily remove glasses to allow for their inspection.

- **You must show your work for all problems.** You must use the paper provided by the instructor. **If no work is shown you may not receive credit.** After the exam, the instructor may require you to explain how you solved a problem on the exam. If you refuse to or cannot explain your work you may be subject to disciplinary action.
- No electronic version of the book, loose paper print-outs of the book or extra sheets of paper of any kind are allowed unless explicitly mentioned in writing by the instructor. As a part of the zero-tolerance policy, if you have a cellphone or other electronic device capable of communication on your person; or if any proctor sees or hears any electronic device during the exam or if you share your work with someone else, you will be reported to the proper authorities and you may receive a zero on the exam or an F in the class. Other actions including suspension may also be pursued.
- University approved recording devices may be located at various locations in the room and may be out of sight of the students. These recordings will be managed according to the UTEP approved regulations for such media. The instructor may create a record of your activity during the exam and may take photographs of your work during the exam.
- If you arrive more than 15 minutes late to an exam, you will not be allowed to take the examination.
- There will be no makeup exams administered. If you have a university approved excuse, your instructor will have a process for determining how to handle the missing grade outlined in the syllabus. However, no makeup exams will be given.
- If you miss more than one exam, the instructor may choose to administratively drop you from the class. This may adversely impact a visa and financial aid.
- All students must present their UTEP issued ID prior to and during every exam and may be required to sign in. Not having a UTEP issued ID when asked will result in forfeiture of the exam. No other IDs will be accepted.
- **Scholastic dishonesty on homework, lab assignments and all other class assignments will be held to the same standards and requirements of academic honesty as quizzes and exams.**
- **Use of 3rd party websites for answers (Chegg.com, CourseHero, SparkNotes, Quizlet, etc.) is considered academic dishonesty.**
- **If you are suspected of scholastic dishonesty you may or may not be directly confronted about your conduct by the instructor or proctor. You will however, be reported to the Office of Student Conduct and Conflict Resolution (OSCCR) and your exam may not be admissible. Your grade in the class may not be available until OSCCR makes a final ruling, this may adversely impact your ability to enroll in other classes.**

Harassment policy:

The department has a zero-tolerance policy harassment. Engagement in any behavior considered harassment would be reported to the proper authorities. In addition to generally understood forms of harassment, the department also treats the following behavior as harassment:

- Repeated emails and/or calls regarding subjects that have already been addressed. Once a decision has been made, or a question answered, a student who continues to ask the same question will be given a warning by the recipient of the email/call. If the student continues, the behavior will be reported. Questions that seek understanding of course material are not harassment, but repeated questions about a grade or administrative decisions are.
- Grades are not negotiable, ever. If you believe a grading mistake has been made, you must follow the process described in the UTEP catalog. Any request for a grade elevation that is NOT based on mistake is considered harassment and will be reported immediately.
- Remaining in an office after the occupant requests you to leave is considered harassment and potentially threatening. You will be reported immediately without warning and depending on the severity, may be reported

to law enforcement.

- Similar behavior towards department staff and student advisors will also be treated as harassment, including persistent phone calls, emails and badgering. Department staff and student advisors are there to help students and should be treated with due respect.

AERO 2331 Schedule

The approximate schedule is below. Slight changes may occur as needed.

Week	Date	Topic	Reading Due	Assignment
1	1/16	No Class - Martin Luther King Jr. Day	Mouritz	
	1/18	Course overview/ Ch. 1: Intro to Aerospace Matls	Mouritz	Read syllabus, install Fusion 360. Syllabus Quiz due on Friday 1/20 by midnight
2	1/23	Ch. 2: Aero Matls: past, present and future/Ch. 3: Matls and reqs for Aero Struct	Ashby	
	1/25	Ch. 2: Engr matls and prop: Tension	Ashby	
3	1/30	Ch. 2: Engr matls and prop: Compression and Flexural	Ashby	HW 1 due at the beginning of class
	2/1	Ch. 2: Engr matls and prop: Hardness and Fracture	Ashby	
4	2/6	Ch. 2: Engr matls and prop: Fracture	Ashby	HW 2 due at the beginning of class
	2/8	Ch. 2: Engr matls and prop: Fatigue	Ashby	
5	2/13	Ch. 2: Engr matls and prop: Creep	Ashby	
	2/15	Review		HW 3 due at the beginning of class
6	2/20	Test 1: Covers lectures from Jan 18 to Feb 15	Ashby	
	2/22	Ch. 3: Matl Prop Charts	Ashby	
7	2/27	Ch. 3: Matl Prop Charts	Ashby	Project 1 due by midnight
	3/1	Ch. 4: Matl select	Ashby	*Extra credit due on Friday 3/3 by midnight
8	3/6	Ch. 5: Matl select - Case Studies	Ashby	HW 4 due at the beginning of class
	3/8	Failure Criteria <i>Case Study: The crash of Air France 447</i>	Mouritz	
9	3/13	SPRING BREAK		
	3/15			
10	3/20	Failure Criteria/Ch. 20: Fatigue <i>Case Study: The Alaska Airlines Flight 261 Accident</i>	Mouritz	
	3/22	Ch. 20: Fatigue <i>Case Study: Mid-Air Collision over Überlingen</i>	Mouritz	
11	3/27	Review		HW 5 due at the beginning of class
	3/29	Test 2: Covers lectures from Feb 22 to Mar 27		
12	4/3	Ch. 4: Strengthening of metal alloys	Mouritz	Project 2 due by midnight
	4/5	Ch. 4: Strengthening of metal alloys	Mouritz	*Extra credit due on Friday 4/7 by midnight
13	4/10	Ch. 8, 9, 10: Alloys	Mouritz	
	4/12	Ch. 8, 9, 10: Alloys	Mouritz	HW 6 due at the beginning of class
14	4/17	Ch. 13: Polymer for aero matls	Mouritz	
	4/19	Ch. 14: Fiber reinforced polymer composites (FRPCs)		HW 7 due at the beginning of class
15	4/24	Ch. 14: FRPCs	Mouritz	
	4/26	Ch. 15: FRPCs		HW 8 due at the beginning of class
16	5/1	Ch. 15: FRPCs for aero struct	Mouritz	
	5/3	Review		HW 9 due at the beginning of class
	TBD	FINAL EXAM TBD (according to UTEP Scheduling Office): covers lectures from Apr 3 to May 3
