THE UNIVERSITY OF TEXAS AT EL PASO
COLLEGE OF SCIENCE
DEPARTMENT OF BIOLOGICAL SCIENCES

Course No.: BIOL 4398, 4298, 4198
Course Title: Special Problems
Credit Hours: 3 credits, 2 credits, 1 credit, respectively
Term: Fall, Spring, Summer I and Summer II
Course Meetings & Location: Do not meet as organized classes

Prerequisites: Permission of the Supervising Instructor, obtained well before the start of the semester

Supervising Instructor: Dr. Carl S. Lieb
(old) Biology Bldg, Room 203
747-6987
clieb@utep.edu

Course Objective: Research experience for an individual undergraduate as may be provided and/or overseen by the Supervising Instructor

Course Activities Research activities are assigned at the discretion of the Supervising Instructor, and will vary from student to student based upon the number of credits and the time frame (regular semester versus summer term) to complete them. Students are required to consult with the Supervising Instructor at the time that permission is obtained to enroll concerning their mutual expectations.

Assessment of Course Objectives: The general expectation is that the student will provide at the conclusion of the semester’s enrollment in Special Problems a product subject to evaluation by the Supervising Instructor (e.g., a written work, presentation, poster, or other tangible result).
