Course Number: 1312 (CRN 21657)  
Course Title: Calculus II  
Credit Hours: 3  
Term: Spring ’14  
Course Meeting Time: MW 8:30-9:20 in COTT 201  
Prerequisite Courses: Math 1411  
Instructor: C. Mundy-Castle  
Office Location: Bell Hall 115  
Contact Info:  
- Phone: 747-7794  
- E-mail: cmmundy@utep.edu  
Office Hours: TBA  

Course Objectives: This course is the second part of the calculus sequence. In Calculus I, you were introduced to the three fundamental notions upon which calculus is built: limits, derivatives and integrals. Our main objectives this semester are: (1) to deepen the comprehension of these notions through conceptual discussions and the investigation of many problems and applications; (2) to master more advanced methods and techniques, and apply them to the solution of a variety of problems.

Assignments: There will be an in-class assignment every class period, which you are to work on during class time. You are encouraged to work in groups on these assignments. You don’t need to turn these in; they are for your own benefit. In addition, homework assignments will be given at the start of each new chapter. There will be a quiz once or twice a week that will be either taken directly from the homework assignments or very similar to them. You may not use your book during the quizzes, but you may use your homework, so it is definitely to your advantage to attempt all the problems on the homework assignments on your own. The lowest two quiz scores will be dropped.

Assessment: Your overall grade will consist of the weighted average of your scores on the exams, homework quizzes, and the final exam. If it benefits you, the score you receive on the final exam will replace your lowest exam score.

Grading Policy: The usual grading scale will be used for this course (90%-100% is an A, 80%-89% is a B, etc.)

</table>

*The final exam will be given on Monday, 5/12, 10:00AM-12:45PM.
Make-up Policy: Make-up quizzes will only be given for students attending university sponsored events (such as student athletes traveling to meets), and only with prior notification and appropriate documentation. A make-up exam will only be given in extraordinary circumstances (severe illness, death in immediate family), and with appropriate documentation (e.g. doctor’s note).

Attendance Policy: As with every college course, attendance is essential for success. Try not to be absent unless it is absolutely necessary. If possible, it is better to let me know ahead of time when you will be absent. If you are absent, it is your responsibility to find out which assignments you need to make up.

Academic Integrity: We will follow the university’s policy in this course, as explained in the Handbook of Operating Procedures. You may find it here. You may be directed to change seats at any time during exams.

Civility: Please do not use cell phones, pagers, IPods, MP3 players, blue tooth devices, etc. during class. Cell phones and pagers should be set to silent or vibrate, and if you absolutely must answer your phone, calls should be taken outside of class. Please do not wear headsets or blue tooth devices during class. Please do not send text messages during class.

Disability Statement: If you have a disability and need classroom accommodations, please contact The Center for Accommodations and Support Services (CASS) at 747-5148, or by email to cass@utep.edu, or visit their office located in UTEP Union East, Room 106. For additional information, please visit the CASS website at www.utep.edu/CASS. *CASS’ Staff are the only individuals who can validate and if need be, authorize accommodations for students with disabilities.*

Military Statement: If you are a military student with the potential of being called to military service and/or training during the course of the semester, you are encouraged to contact me as soon as possible.

Course Schedule: We will cover chapters 7, 8, and 9 of the textbook.

Technology: A graphing calculator is required for this course. I would highly recommend getting a TI-89 if you don't already have one. While it is possible to succeed in this course using one of the other TI graphing calculators, you will find that learning to use the TI-89 (or TI-92) will make your life (at least the mathematical part of it) much easier.

Drop Deadlines: The last day to drop the course without a "W" is Wednesday, February 5th. The last day to drop the course with a "W" is Friday, April 4th. Students will not be dropped by the instructor. Students who decide to drop the course must process a drop form, in person, at the Registrar's Office, by April 4th.

Tutoring: The Tutoring and Learning Center (TLC) offers free tutoring and is located on the second floor of the campus library. There are also numerous private tutors available. Please also make use of the instructor's office hours.

Websites: In-class assignments, previous quizzes and exams, and other materials can be found at the instructor’s website.
