Here is a quick outline to help you see how the assignments and their activities fit together. Remember that activities earn points counting towards the total participation grade. Assignments are graded. Activities are designed to help write and organize assignments. By November 1, these two assignments will be completed.

The ongoing ePortfolio assignment is due on the day of the class final. Because hybrid courses are not given a time or place for a final, the designated final date for this class is December 13, 11:30 P.M., during finals week.

The following assignments include activities:

I. Genre Analysis: choose two genres (Oral, Typographic, or Iconographic) about your chosen topic. For example, genres selected may be an online news article (typographic genre) and a YouTube video (iconographic genre).
   a. Complete the Genre Analysis Outline Activity to help write the Genre Analysis report. Refer to the student papers in the Brytewave book, which begin on page 201.
   b. Draft, Genre Analysis report. Submit the draft for participation points and feedback.

II. Literature Review and Research Report: with your chosen topic, research your questions. The report must include Primary Research, a graphic element (chart, graph, table, map), an Abstract page, and References page. The length of the report will vary, but should be about 8-10 pages in total. There should be 8-10 or more references. Primary Research, whether a survey or interview, counts for one reference.
   a. Questions of Inquiry activity: Submit the worksheet associated with the activity and 3-4 questions to research for the report. Questions should begin with a journalistic word, usually What, Why, or How.
   b. Primary Research activity: Submit the worksheet associated. It is designed to help write survey or interview questions. The document for this activity also includes the Interview Release form. This should be signed by anyone interviewed for the report.
   c. Draft, Literature Review and Research Report. Submit the draft for participation points and feedback.

III. ePortfolio: Reflections written about your writing process for all assignments. Reflections should be between 150-250 words. The reflections can be posted to a Blog section added to the ePortfolio. Both Wix.com and Weebly.com allow for a blog to be added to the sites.
