UNIVERSITY OF TEXAS at EL PASO

Syllabus for Physics 3304, Physical Science for Education Majors
Instructor: Dr. Charles T. Hawkins
Office: 223A, Phone: 747-7541
Office Hours: One hour before class or by appointment.

Required Materials:
(Must have these
1) Materials Provided by the Instructor.
2) 12th edition of Conceptual Physics by Paul G. Hewitt
within one week of first class)
3) A scientific calculator

Course Format: This is a laboratory, hands-on, learning-by-discovery class, reinforced by lectures and homework problems from the text and/or the manuals. Topics from text (re-enforced by the manuals) include:
   A) Electricity, static (Ch. 22) and dynamic (Ch. 23), all sections
   B) Atoms (Ch. 11), solids (Ch. 12) and liquids (Ch. 13), all sections.
   C) Magnetism (Ch. 24) and Atomic Structure (Ch. 32), selected sections.
As time and circumstances permit, the instructor may make changes and/or adaptations to these topics.

Grade Determination: There will be a major exam at the end of each area covered. There will be a comprehensive Final Exam at the end of the course. Make-up exams will be allowed for extreme emergency situations only.
   Lab Manual, homework and Quizzes: 25%
   Major Exams (3): 45%
   Final Exam (Comprehensive) 30%

   Students will keep all graded papers in a neat folder in order to tally their own grades as the semester progresses. )Please do not expect the instructor or his TA to do this for you.) This folder will be necessary if the student wants a review of the course grade at semester’s end.

   If a student wishes to review an exam grade, this must be done within one week, or the original grade will stand.

   To review the final course grade, the time limit will be four weeks after the grade is posted on Goldmine. After that time period, reviews will not be considered.
Integrity: Students copying or cheating in any way will be given zeros the first time. After that they will be dropped from the class.

Attendance: Attendance and punctuality are required. Roll may or may not be taken at the beginning of each class, but late arrivals will have to sign in. In such cases, late comers will receive a reduced grade for that class. Please take this seriously, especially since you are to be our future teachers.

From your Instructor: Welcome to physical science. I truly hope you benefit from this class in such a way that you, as a future teacher shaping and molding little minds, can pass on an appreciation of science to your students. Classroom participation is essential, and your questions and doubts are always welcomed. However, do your best to work out the assigned problems in your groups before seeking help from your TA.

Academic Integrity Policy: Cases of students suspected of copying or cheating in any way will be referred to the chairman of their department for appropriate action.

Civility Statement: Cell phones, pagers and laptops are not permitted in class.

Disability Statement: If a student has or suspects he/she has a disability and needs an accommodation, he/she should contact the Disabled Student Services Office (DSSO) at 747-5148 or at <dss@utep.edu> or go to Room 106 Union East Building. The student is responsible for presenting to the instructor any DSS accommodation letters and instructions.

Military Statement: For example: If you are a military student with the potential of being called to military service and/or training during the course of the semester, you must contact me no later than the first week of class.
From UTEP:

Academic Integrity Policy: Cases of students suspected of copying or cheating in any way will be referred to the chairman of their department for appropriate action. See policy cited in http://academics.utep.edu/Default.aspx?tabid=23785

Civility Statement: Cell phones, pagers and laptops are not permitted in class.

Disability Statement: If a student has or suspects he/she has a disability and needs an accommodation, he/she should contact the Disabled Student Services Office (DSSO) at 747-5148 or at <dss@utep.edu> or go to Room 106 Union East Building. The student is responsible for presenting to the instructor any DSS accommodation letters and instructions.

Military Statement: For example: If you are a military student with the potential of being called to military service and/or training during the course of the semester, you must contact me no later than the first week of class.

Notice to Faculty,
The UTEP Spring 2015 drop deadline is April 6, 2015. The College of Science will remain aligned with the University and not approve any drop requests after that date. Please insert this notice in your syllabi.

All grades of Incomplete must be accompanied by an Incomplete Contract that has been signed by the instructor of record, student, departmental chair, and the dean. Although UTEP will allow a maximum of one year to complete this contract, the College of Science requests it be limited to one month based upon completion data. A grade of Incomplete is only used in extraordinary circumstances confined to a limited event such as a missed exam, project, or lab. If the student has missed a significant amount of work (e.g. multiple assignments or tasks), a grade of Incomplete is not appropriate or warranted. Please add this to your spring syllabi.
