### **Course Objectives**

- Students will explore in depth a specialized topic or project that contributes to the student's musical knowledge and program of study.
- Students will complete successfully the project or course of study agreed upon by the student and instructor.

### **Course Outline**

The student and instructor will hold regular weekly meetings to discuss issues relevant to the project and progress being made toward the completion of the project. Students are urged to arrange additional meetings with the instructor to seek help outside of the regularly scheduled meeting time.

### **Grading**

Grades will be based on the successful completion of the project or curriculum associated with the specialized topic.

The following guidelines will be used in determining the final grade.

- A: Project is completed with careful attention to detail and with neatness and accuracy in notation; meets all standards specified in the project guidelines.
- B: Project is completed and meets general expectations; some level of detail may be missing, though overall the standards specified in the project guidelines have been met.
- C: Project is completed and meets general expectations; more detail may be lacking than that of the 'B' level; limitations on originally planned project's scope and substance.
- D: Some evidence of work shown, though the amount and quality of work falls clearly below expectations and guidelines set forth at the beginning of the semester.
- F: Little or no work completed.

- A grade of "W" will be reported only if the student withdraws from the course by the Course Drop Deadline (Friday, October 30).
