## Spring 2022

<i>Netiquette</i>
<i>When communicating electronically, many of the feelings or impressions that are transmitted via body language in face-to-face communications, are lost. Consequently, interpreting emotions and innuendos is much more difficult. Excitement using all caps, for example, may be misinterpreted as anger, insulting, or shouting. It is important that we all keep this in mind as we communicate. It is important that we are conscious of how we communicate while working at a distance. The following are Netiquette guidelines:</i>
1. Respect and courtesy must be provided to fellow classmates and the instructor at all times, in all contexts. Harassment or inappropriate postings will not be tolerated.
2. Be professional and careful in what you say about others. When reacting to someone else's message, address and focus on the ideas, not the person who posted them.
3. Be careful when using sarcasm and humor. Without face-to-face communications your joke may be viewed as criticism.

## VII. Course Content – Calendar and Grading
