MKT 3300 CRN 22696
PRINCIPLES OF MARKETING – SP 2021

Instructor: Dr. Fernando R. Jiménez
Class Format: Online - Asynchronous
Contact the instructor: Via Course Messages in Blackboard
Virtual office hours: Via Blackboard Collaborate, TR 1:00 PM – 2:00 PM or by appointment.

Course Description: A description and analysis of the ways in which goods move to points of consumption. Topics studied include functions, institutions, the marketing environment, markets, and government regulation. Restricted to majors: ACCT, BSAD, CIS, ECON, FIN, MGMT, and MKT. Prerequisites: ACCT 2301 and junior standing.

Course structure: This course is online asynchronous. Students are not required to meet at any specific times/dates. However, students must follow a course schedule and complete assignments by due dates. The course uses a modular format in Blackboard— that is, each week is “packaged” as a single including course materials and assignments for a given week.

Modules will become available on Monday and assignments will be due on Sunday at 11:30PM. Enrolled students can access modules through Blackboard. In Module One: Course Orientation, students can obtain detailed information about how to navigate the Blackboard course shell. For technology support regarding Blackboard, please contact the IT Help Desk at 915-747-4357 or visit [https://www.utep.edu/technologysupport/ServiceCatalog/BB_Students.html](https://www.utep.edu/technologysupport/ServiceCatalog/BB_Students.html) More information about Blackboard and the Blackboard App appears in the Technology Requirements section in this syllabus.
Required Materials:

  

  MyMarketingLab is a digital product that allows students to access a digital textbook and complete assignments (e.g., quizzes, study modules, simulations, etc.). Access to MyMarketingLab is required.

- MyLab Registration: In Blackboard, in Module One: Course Orientation, you will get a link to register to Pearson’s MyLab. Register to MyLab through Blackboard. When students register to MyLab through Blackboard, their MyLab account will be linked to the course. Register through Blackboard. Do not register through Pearson’s website.

- Temporary Free Access: Students that are not ready to purchase the textbook/MyLab bundle can still register to MyLab through Blackboard and get temporary access to start assignments. Students will have 14 days to complete the purchase. If the purchase is not completed within the period, access will be revoked and assignment records lost.

- Purchase Recommendations: During the registration process through Blackboard, students will be given the option to purchase a bundle including the e-textbook and an access code to MyLab. A credit card or a PayPal account are required for payment ($84.99 approx.). If you purchase a bundle through Amazon, Pearson’s website, or the bookstore, please complete the MyLab registration through Blackboard. I recommend you to purchase the bundle in Blackboard to avoid any misunderstandings.

For detailed instructions regarding registration, temporary access, and purchase of the bundle (textbook/MyLab), watch: [https://www.youtube.com/watch?v=Vd8rJe5_VK8](https://www.youtube.com/watch?v=Vd8rJe5_VK8)

**Tech Support for Pearson:** Most issues can be resolved by performing each step below on your browser: TURN OFF POP-UP BLOCKERS; ACCEPT/ENABLE COOKIES; DELETE Cached files & COOKIES  *TIP - Preferred browsers are Chrome and Firefox

If you still need help, follow the Pearson Technical Support Process steps listed in the blue box. If your course is paired with Blackboard, please include your diagnostics when opening your case. [Here](#) is helpful information to provide to Support.

See next page for contact information.
If you exhaust all the possibilities and still are unable to get a resolution, please send your Pearson Technical Support Case Number to your instructor, who can pass it to their Representative for further investigation.
Course Assignments and Grading:

Pearson’s MyLab Assignments: 50 points  A = 180 – 200 points
Pearson’s MyLab Quizzes: 50 points  B = 160 – 179 points
Flipgrid Practicums: 40 points  C = 140 – 159 points
Exams (2 @ 30 pts): 60 points  D = 120 – 139 points
Total Points: 200 points  F = 119 or less points
WSJ Extra Credit: 14 points  

Read below for details on each category.

- **Pearson’s MyLab Assignments.** Each week, students will access Pearson’s MyLab to:
  Read a book chapter and complete assignments such as mini-simulations, study modules, and watch short video cases. For full credit, assignments must be completed by the due date. A penalty of 33% per day will apply for late assignments.

- **Pearson’s MyLab Quizzes.** Each week, students will access Pearson’s MyLab to complete a quiz for a book chapter. To help students study for the quiz, students will have to complete Study Plans prior to the quizzes. In MyLab, Study Plans are like study guides that students must complete prior to taking a quiz. Study Plans are not graded. Students must show basic mastery of topics before taking the quiz. Students can take a quiz two times without penalty. The highest grade out of two attempts will be recorded. To earn full credit, however, students must complete the quiz by the due date. Late quizzes will be penalized 33% per day.

- **Flipgrid Practicums.** Each week, students will complete a practicum that requires students to show the application of the concepts learned in class to solve concrete problems or provide real-life examples. Practicums link abstract concepts to our reality. Practicums are required in video format. Students will record a short (2-minute Max) video.
  *Important* To be eligible for grading, students will have to watch at least one video from another student and provide feedback. Students are welcome to reply to feedback and engage in academic discussion. The platform for practicums will be Flipgrid (www.flipgrid.com).
  No registration in the Flipgrid website is required. Information about Flipgrid appears in the “Technology Requirements” section below. How to access Flipgrid is discussed in Module One: Course Orientation. There will be 14 Practicums worth 3 points each.
  Practicum Rubric:
  0 points – The student did not answer the question / failed to comment on a peer student.
  1 point – The student showed effort to answer but the connection to the topic is weak.
  2 points – The student answered the question at a basic level. Limited examples/comments.
  3 points – The student demonstrates a clear understanding of the topic and provided clear examples, comments, evidence. Effort to learn is evident.
  Professionalism is expected. Inappropriate language and content will not be graded.
• **Exams.** A Midterm Exam (30 pts.) will consist of 60 questions covering book chapters 1, 2, 4, 5, 6, 7, and practicum materials. Students can take the exam between Monday, March 8 and Sunday, March 14. Students have 1 hour and 20 minutes to complete the exam. A Final Exam (30 pts.) will consist of 60 questions covering book chapters 8, 9, 10, 11, 13, 14, and practicum materials. Students can take the exam between Monday, May 10 and Friday, May 14. Students have 1 hour and 20 minutes to complete the exam. Students that need special accommodations need to contact CASS and the instructor. Details provided in the Special Accommodations section below.

*Exams will require the Test Proctoring Software called Respondus Lockdown Browser and Monitor. For more information, refer to the section “Technology Requirements” below.*

• **WSJ Extra Credit.** Students can earn up to 14 points of extra credit throughout the semester. Reading the Wall Street Journal will help students to relate theory and practice. I encourage students to join the WSJ for only $4 per month with a digital-only membership. To subscribe to the journal at this special rate: [https://r.wsj.com/PROFz9gd](https://r.wsj.com/PROFz9gd). Subscription to the journal alone will not merit extra credit points.

To obtain extra credit, once enrolled to the WSJ, students must enroll in the WSJ Assessment Center at [https://wsassessment.com/e/i/MjMwMjI85MjkvMzQwNy8vODYw](https://wsassessment.com/e/i/MjMwMjI85MjkvMzQwNy8vODYw) and complete “open-WSJ article” quizzes about news articles related to current marketing issues. Quizzes consist of 5-10 questions. Each quiz will be worth 1 point.

Each week, a new quiz will be posted in the assessment portal. Students will be directed to the news article and given the opportunity to answer the quiz. Students interested in extra credit, please subscribe to the WSJ and then access the course assessment tool at [https://wsassessment.com/e/i/MjMwMjI85MjkvMzQwNy8vODYw](https://wsassessment.com/e/i/MjMwMjI85MjkvMzQwNy8vODYw)

Students will not receive credit for quizzes that are past due. To maximize the WSJ extra credit benefit, enroll to the journal and to the assessment portal as soon as possible. WSJ extra credit is optional. Students will not be penalized for not registering to the journal. Feel free to contact the instructor for questions about the WSJ assessment center.

**Copyright Statement for Course Materials and Student-created Content**

Copyright law protects all materials used in this course. The course materials are only for the use of students currently enrolled in this course and only for the purpose of this course. They may not be further disseminated.
Technology Requirements:

- **Tech Skills:** The course requires basic skills to navigate online websites and basic software applications such as Microsoft Office, Pearson’s MyLab, Flipgrid, and WSJ Assessments.

- **Computer/laptop with internet connection.** For the best experience, students need to have access to a computer/laptop equipped with a stable internet connection, Microsoft Office, a webcam, and a microphone. Some students use tablets or smartphones, instead. It is up to the student to check the compatibility and functionality of their devices. Students can download and/or access MS Office for free via UTEP’s Microsoft Office Portal. Check: https://www.utep.edu/technologysupport/ServiceCatalog/SOFTWARE_PAGES/soft_microsoftoffice365.html

**Tech Support with computers or connectivity issues**

UTEP’s IT Helpdesk can help students to set up their device: Via phone (915-747-4357) Remotely via chat (https://www.utep.edu/technologysupport/about/HelpDeskChat.html) In person at UTEP Library Room 300.

Check out their website at: https://www.utep.edu/technologysupport/index.html

If you are in need of a device or internet connection, contact the UTEP Library for assistance. Some computer labs at the library or the College of Business may be available, with restricted hours of operation. If you can’t come to campus, the library may have some laptops and hotspots available for checkout for students that request them. Please contact the library directly: https://www.utep.edu/library/

- **Blackboard.** The main online platform for this course is Blackboard. Students can access Blackboard through UTEP’s website (www.utep.edu) or directly at MyUTEP (www.my.utep.edu/My). Blackboard works best with Google Chrome or Mozilla Firefox. In BB, students will access to course content, Pearson’s Digital Textbook, MymarketingLab assignments, quizzes, and exams, Flipgrid discussion forums, live discussion sessions, virtual office hours, email to the instructor, and other course materials. **Blackboard App.** I recommend you to download the BB App in your mobile phone. In the App, you will get access to the course and receive push notifications with course announcements. For instructions, please refer to the Blackboard page listed above.

**Tech Support for Blackboard**

To learn about Blackboard features visit: https://www.utep.edu/technologysupport/ServiceCatalog/BB_Students.html

You can get Blackboard assistance at: 915-747-4357, IT Helpdesk.
- **Flipgrid.** Flipgrid is a free platform that allows students to upload and reply to video discussions. Students will have access to Flipgrid assignments through Blackboard directly. Students will use their UTEP email credentials (Microsoft 365) to view and complete assignments. Students will need to record audio and video. To become familiar with Flipgrid, watch: [https://www.youtube.com/watch?v=C0QV3Yfv7UY](https://www.youtube.com/watch?v=C0QV3Yfv7UY)

**Technical issues:**
For issues regarding the Wall Street Journal or Flipgrid, feel free to contact the instructor through course messages in Blackboard.

- **Test Proctoring Software: Respondus Lockdown Browser and Monitor.** For the midterm and final exam, students will be required to use Respondus and Monitor. Respondus blocks students’ screens when taking the exam. Monitor uses a student’s webcam to record their facial movements as they take the test. Students need to download a program in their computer to access the exams. Instructions and assistance can be found at: [https://www.utep.edu/technologysupport/ServiceCatalog/BB_Tool_RespondusLockdown.html](https://www.utep.edu/technologysupport/ServiceCatalog/BB_Tool_RespondusLockdown.html)

Please review the following guidelines:
1. The exams will only be available at the times identified on the course calendar.
2. Students can take the test at any time within the dates window.
3. Students will have one hour to take the tests.
4. A reliable internet connection is essential to completing the exam. Students that come to campus to take the test (e.g., the library) must follow COVID-19 protocol, see below.
5. Students will have one attempt to take the test. Issues during the exam, please email the instructor directly at frjimenezarevalo@utep.edu.
6. Respondus Monitor requires a webcam and microphone.
7. Students are required to show their UTEP ID or valid photo ID prior to the test.
8. Students’ face should be visible. Make sure to take the test in a location where face-coverings are not required.
9. The exam and midterm are closed-book exams. No notes, textbooks, etc. are allowed. Students will be required to close all screens prior to the test. If the software detects that the eyes of the student are looking elsewhere, the student will be automatically flagged.
10. Make sure you are in a private and quiet place. Students cannot have any conversations. If the software detects conversations, the student will be flagged (and reported).

**Tech support Respondus and Monitor:** Contact UTEP’s IT Helpdesk [https://www.utep.edu/technologysupport/](https://www.utep.edu/technologysupport/) or call 915-747-4357
Course Communication: Because this is a fully online – asynchronous class, the instructor and students will not interact face-to-face in traditional ways: during class time, small group meetings, and office hours. However, communication channels are open:

- Course Messages. In Blackboard, students can email the instructor through a feature called course messages. This feature allows students and instructors to organize communications effectively by keeping track of emails associated with each course. The instructor will reply course messages within 48 business hours (M-F). To protect the privacy and confidentiality of students’ records, the instructor will not answer emails sent via regular email from non-UTEP accounts. Please use Course Messages. Using Course Messages reassures the student’s identity. In case of an emergency (e.g., not being able to access Blackboard), use your UTEP email account to contact the instructor at Professor Jimenez, frjimenezarevalo@utep.edu. In your email opening, please state your name, course number, and UTEP ID.

- Virtual Office hours. The instructor will hold virtual office hours from 1:00 to 2:00 PM on Tuesdays and Thursdays or by appointment. This class has about 100 students enrolled. To better serve you and to manage meetings efficiently, students are asked to setup an appointment with the instructor.

- Course Blog: In each Blackboard module, the instructor will provide a link to a course blog in which students can ask questions about course materials or any other questions about the course. Students are encouraged to answer questions to their peers.

- Announcements. Each week, the instructor will send out an announcement detailing the work to do for that week. It is an effort to help students stay on track. Please enable course announcements in your BB App, check BB announcements in your BB shell, and check your UTEP email frequently. I know you may get thousands of messages each week, but each student is different, I have to send out announcements in multiple ways. Please forgive me for cluttering your accounts.

Netiquette: Electronic communications lack information from body language and context. It is easy to miscommunicate with others. Please follow network etiquette rules in emails, discussions, and other posts:

- Treat others, as you would like to be treated. Respect classmates and instructors.
- Be tolerant to other people’s ideas. Do not insult, embarrass, criticize, or bully others. When addressing someone else’s ideas, refer to the idea not to the person.
- Post messages and videos in a way that resembles face-to-face interactions in a classroom. If you would not do it in the classroom, don’t upload it.
• Blackboard is not a public internet venue; all postings should be private and confidential. Do not share information outside the course.
• Posting course documents, videos, and any other material in public internet websites is prohibited.

Students that post inappropriate language or content will not receive credit for assignments and will be reported to the Dean of Students for academic misconduct.

Attendance / Activity
In an online course, students commit to participate in learning activities regularly on a weekly basis. The instructor will monitor students’ participation. Students that do not access Blackboard, Pearson’s MyLab, or Flipgrid can be dropped from the class. Students that cannot access the course due to an emergency (e.g., military deployment, illness) must contact the instructor. Contact the instructor if you need any arrangements due to exceptional circumstances. Proper documentation will be requested. Keep in mind that the instructor must treat all students equally. Allowing a student to postpone a test to go on a pleasure trip is not manageable. The other 99 students in the class could have the right to ask for a similar exception. Emergencies only.

COVID-19 Policy and Accommodations

You must STAY AT HOME and REPORT if you (1) have been diagnosed with COVID19, (2) are experiencing COVID-19 symptoms, or (3) have had recent contact with a person who has received a positive coronavirus test. Reports should be made at www.screening.utep.edu. If you know anyone who should report any of these three criteria, encourage them to report. If the individual cannot report, you can report on their behalf by sending an email to COVIDaction@utep.edu.

For each day that students attend campus—for any reason—students must complete the questions on the UTEP screening website (www.screening.utep.edu) prior to arriving on campus. The website will verify if the student is permitted to come to campus. Under no circumstances should anyone come to class when feeling ill or exhibiting any of the known COVID-19 symptoms. If you are feeling unwell, please let me know as soon as possible, and alternative instruction will be provided. Students are advised to minimize the number of encounters with others to avoid infection.

Wear face coverings when in common areas of campus or when others are present. You must wear a face covering over your nose and mouth at all times in this class. If you cannot wear a face mask for medical reasons, please let me know ahead of time to discuss accommodations. If you choose not to wear a face covering, you may not enter the classroom. If you remove your
face covering, you will be asked to put it on or leave the classroom. Students who refuse to wear
a face covering and follow preventive COVID-19 guidelines will be dismissed from the class and
will be subject to disciplinary action according to Section 1.2.3 Health and Safety and Section
1.2.2.5 Disruptions in the UTEP Handbook of Operating Procedures. Please note that if COVID-
19 conditions deteriorate in the City of El Paso, all course and lab activities may be transitioned
to remote delivery. Please consider that students are not permitted on campus when they have a
positive COVID-19 test, exposure, or symptoms.

All students should follow this policy:
1. Complete self-screening (www.screening.utep.edu) prior to every campus visit
3. Contact instructor if temporary accommodations due to COVID-19 are needed (i.e., due
to positive COVID-19 test, symptoms, or exposure).
4. If unable to wear face covering (e.g., medical reasons), the best course of action is to
   enroll in courses that are entirely online or work with academic advisors, if necessary, to
   identify alternative courses. If this is not possible, request an accommodation from the
   Center for Accommodations and Support Services.

It is important that you participate in UTEP’s COVID testing program and monitor your e-mail
for regular testing notices. Knowing your status is vital to taking care of yourself and protecting
the health of others around you.

Special Accommodations for students
If you have a disability and need classroom accommodations, please contact The Center for
Accommodations and Support Services (CASS) at 747-5148, or by email to cass@utep.edu, or
visit their office located in UTEP Union East, Room 106. For additional information, please
visit the CASS website at www.sa.utep.edu/cass.

Class drop
The last day to drop the class with a “W” is April 1, 2021. The student MUST contact an advisor
to complete a course drop. I cannot do it, and it will not happen automatically. If a student does
not drop the class and stops coming to class, the student will receive an “F”. COBA Advising:
https://www.utep.edu/business/UndergraduatePrograms/advisingresources/AdvisingAppointment_.html
Academic Dishonesty
Academic dishonesty is not condoned nor tolerated at UTEP. Such dishonesty, when evidenced, will be reported to the Student Judicial Affairs Office at UTEP. Read UTEP’s website for more information about sanctions. Academic dishonesty is behavior in which a deliberately fraudulent misrepresentation is employed in an attempt to gain undeserved intellectual credit, either for oneself or for another. It includes, but is not necessarily limited to, the following types of cases: **Plagiarism** - The representation of someone else's ideas as if they are one's own. **Unauthorized Collaboration on Out-of-Class Projects** - The representation of work as solely one's own when in fact it is the result of a joint effort; **Cheating on Exams** - The covert gathering of information from other students, the use of unauthorized notes, unauthorized aids, etc.; and **Knowing Cooperation with Another Person in an Academically Dishonest Undertaking** - Failure by a student to prevent misuse of his/her work by others.

Learning requires you to do your own work. Just do it.

**The Faculty Senate, recommended the following list of student services:**
Student Counseling Center: [http://sa.utep.edu/counsel](http://sa.utep.edu/counsel); (915) 747-5302
202 Union West; walk-ins encouraged

Student Health Center: [http://chs.utep.edu/health](http://chs.utep.edu/health); (915) 747-5624
Many services free to students paid for through student health fee

Center for Accommodations and Support Services: [http://sa.utep.edu/cass](http://sa.utep.edu/cass)
106 Union East; (915) 747-5148 For disability accommodations

**Student Engagement and Leadership Center:** [http://sa.utep.edu/selc](http://sa.utep.edu/selc)
106 Union West; (915) 747-5670
Includes study space with workstations; family friendly room with lactation space
