UNIVERSITY OF TEXAS AT EL PASO

EUROPEAN UNION POLITICS
Political Science 4347
Spring 2024

Professor
Gaspare M. Genna, Ph. D.
Department of Political Science
Office: Benedict Hall 204
Office Hours: Tuesdays 10-11am and Wednesday 1-2pm; appointments also available
Phone: 747-6066
E-mail: ggenna@utep.edu

Meeting Time/Location: Mondays 10:30-11:50am/Quinn Hall 203

Catalog Description
An advanced study of the political structures emerging from New Europe. Prerequisites: POLS 2310 and POLS 2311 each with a grade of "C" or better.

Course Content
This course surveys the development of the European Union. Since the end of WWII an extraordinary thing has happened: peace has broken out among the European nation-states. Not since the era of Pax Romana has Europe existed for so long without intra-continental war. Another development is the democratization and the acceptance of free market principles of the entire continent. While these developments may not be surprising and taken for granted today, “taking heads” in the years leading up to these changes could not and did not predict them. This semester we will look at these developments closely and attempt to understand not only what has happened in Europe in the latter half of the 20th century, but also why they happened and prospects for the 21st century.

The European Union has already completely united Europe, east and west, economically, and it may eventually do so politically. Some argue that the EU is a unique experiment in regional governance, while others believe it is only one of many similarly evolving cases. We will critically examine all the ups and downs of the EU’s development in order to explain whether or not it has, or will, meet its goals.

The course has the following specific goals:
• To impart factual knowledge of the European Union, past and present;
• To understand the various theories of regional integration;
• To assess the explanatory value of these theories;
• To use the power of scientific analysis to explain problem solving in the EU; and
• To understand and predict the EU’s trajectory.

UTEP Edge Tags: Problem-Solving, Global Awareness, Teamwork, and Critical Thinking
**Course Texts**

Other required readings are on Blackboard (Bb) and listed on the presentation schedule.

**Study and Project Teams**
Students will form teams of three to four members for the weekly discussion sessions and term paper project. Students are welcome to self-organize and the instructor will assist students that need to join a team. Team memberships are due by January 22 at 10:30am. More information will come from the instructor.

**Hybrid Course Details**
This is a hybrid course meaning that about half the content will be online and the other half in person. All lectures will be asynchronous voiceover presentations posted on Bb. Mondays (10:30-11:50am, MT) are the days that we will meet in person for the group discussion sessions. Questions covered during discussion sessions are on the course schedule found at the end of the syllabus.

**Course Obligations**
The following is the mix of obligations the student must meet to fulfill the requirements of the course:

1) Weekly group discussion reports  
2) Individual report on a significant EU achievement  
3) Midterm exam  
4) Team term paper  
5) Final exam

**Weekly Group Discussion of Assigned Topics:**
Each Monday, we will meet to discuss the week’s topic. To prepare for these group sessions, students must keep up with the assigned chapters and voiceover presentations. All topics, readings, and discussion questions are listed in the course schedule found at the end of this syllabus. To maximize the learning experience, the readings and studying the presentations should be done **before** the beginning of the group discussions. Class attendance is expected and participation should contribute to the learning process.

Teams will upload weekly reports by each Wednesday on Bb.

1) Clear presentation of the week’s discussion question and its relevance.  
2) The group’s answer to the question.  
3) Reaction of at least one other group’s answer to the question.  
4) Written from an objective prospective.  
5) 2 pages (± one page) in length.  
6) Formatted in the following manner:
a. double spaced (no extra lines in-between paragraphs),
b. new times roman font (12 point),
c. 1 inch margins,
d. title page (title, course, all team names, and date),
e. page numbers (page one is the first page of text),
f. uploaded on to Bb in a “.doc” format.

In addition, students are expected to follow European current events during the semester. Some suggested periodicals include the *New York Times*, *Los Angeles Times*, *Washington Post*, or *Christian Science Monitor*. One good online news source is [www.euobserver.com](http://www.euobserver.com). Students with knowledge of foreign languages are encouraged to read international newspapers online (*Le Monde*, *die Zeit*, etc.). Also, see McCormick appendix 4. These contemporary reports may be helpful in developing ideas for your team term paper.

**Exams (Midterm: March 6 and Final: May 10)**

There are two exams for the course: a mid-term and a final. Both exams will require essay answers that will test knowledge of key concepts and terms and assess analytical thinking of theories and facts. The mid-term will cover the material in the part one of course and the final will be comprehensive (parts one and two). The exams are open book, open notes, and answers will be uploaded onto Bb. A list of potential essay questions will be given on March 4 & May 6 and answers are due March 6 & May 10. The instructor will email students which questions to answer on the day before the exam is due (March 5 & May 9).

**Individual EU Achievement Report (Due: February 16)**

Students individually report on a significant EU achievement. A significant achievement would any decision, law, regulation, etc. that advanced European integration. Citing an entire treaty will be too much for this assignment since EU treaties often have multiple achievements. Instead, you can report on one achievement found in the treaty. Pick an achievement that is exciting to you! The EU achievement report will need to include the following:

1) Clear description of the achievement.
2) Clear description of how the achievement advanced integration.
3) Some thoughts about how well the achievement worked.
4) Written from an objective prospective.
5) 5 pages (± one page) in length.
6) Formatted in the following manner:
   a. double spaced (no extra lines in-between paragraphs),
   b. new times roman font (12 point),
   c. 1 inch margins,
   d. title page (title, course, name, and date),
   e. page numbers (page one is the first page of text),
   f. citations and a bibliography (at least seven sources with no more than two internet sources), and
   g. uploaded on to Bb in a “.doc” format.
Team Term Paper and Proposal (Proposal Due: March 20 and Paper Due: May 3)

Students are asked to analyze, within their teams, how the European Union solved a specific problem. The choice of the issue is up to the teams. The instructor will provide guidance in getting started, organized, and will continue to offer support as the course progresses. The idea is to find an interesting problem, describe how member states of the EU resolved the problem, and explain why they chose their particular solution. The term paper will need to include the following:

1) An analysis of the resolution of an issue of a European Union issue.
2) Address this basic question: Why did the member states choose their particular solution in resolving their problem?
3) The clear use of one theory presented in the course.
4) Clear hypothesis tested using empirical evidence.
5) Written from an objective prospective.
6) 10 pages (± one page) in length.
7) Formatted in the following manner:
   a. double spaced (no extra lines in-between paragraphs),
   b. new times roman font (12 point),
   c. 1 inch margins,
   d. title page (title, course, team names, and date),
   e. page numbers (page one is the first page of text),
   f. citations and a bibliography (at least seven sources with no more than two internet sources), and
   g. uploaded on to Bb in a “.doc” format.

Teams will submit a proposal. Early in the semester, a proposal form will be posted on Bb. The completion of this form will be your proposal. Also, a more detailed list of the term paper’s criteria will also be posted on Bb.

The following books can help students who are interested in making the most of their writing in political science:

Assignments are to be uploaded onto Bb by 11:59pm (MT) of the day they are due

No assignments will be accepted late except under extraordinary circumstances
Grade Weights
Each obligation will be given a score out of a total 100 points and have the weights found below in determining students' final grades. No “extra credit” points will be given in this course.

<table>

Technology Requirements
Some of the course content is delivered via the Internet through the Bb learning management system. Ensure your UTEP e-mail account is working and that you have access to the Web and a stable web browser. Google Chrome and Mozilla Firefox are the best browsers for Bb; other browsers may cause complications. When having technical difficulties, update your browser, clear your cache, or try switching to another browser.

You will need to have access to a computer/laptop, a webcam, and a microphone. Many, but not all, computer/laptop systems include a video camera and microphone. You will need to download or update the following software: Microsoft Office, Adobe Acrobat Reader, Windows Media Player, QuickTime, and Java. Check that your computer hardware and software are up-to-date and able to access all parts of the course.

If you do not have a word-processing software, you can download Word and other Microsoft Office programs (including Excel, PowerPoint, Outlook and more) for free via UTEP’s Microsoft Office Portal. Click the following link for more information about Microsoft Office 365 and follow the instructions.

If you encounter technical difficulties beyond your scope of troubleshooting, please contact the UTEP Help Desk as they are trained specifically in assisting with technological needs of students. Please do not contact me for this type of assistance. The Help Desk is much better equipped than I am to assist you!
**Course Communication**
Here are the ways we can keep the communication channels open:

- **Office Hours**: I will have office hours for your questions and comments about the course. My office hours are in-person, however, you can request a virtual meeting and I will send you a Zoom link. Please see the days and times at the top of this syllabus.

- **Email**: UTEP e-mail is the best way to contact me. I will make every attempt to respond to your e-mail within 24 hours of receipt. When e-mailing me, be sure to email from your UTEP student account and please put the course number in the subject line. In the body of your e-mail, clearly state your question. At the end of your e-mail, be sure to put your first and last name, and your university identification number.

**UTEP COVID-19 Precautions**
Please stay home if you (1) have been diagnosed with COVID-19, or (2) are experiencing COVID-19 symptoms. If you are feeling unwell, please let me know as soon as possible, and alternative instruction will be provided.

**Course Resources**
UTEP provides a variety of student services and support: Technology Resources

- **Help Desk**: Students experiencing technological challenges (email, Bb, software, etc.) can submit a ticket to the UTEP Helpdesk for assistance. Contact the Helpdesk via phone, email, chat, website, or in person if on campus.

**Academic Resources**

- **UTEP Library**: Access a wide range of resources including online, full-text access to thousands of journals and eBooks plus reference service and librarian assistance for enrolled students.

- **University Writing Center (UWC)**: Submit papers here for assistance with writing style and formatting, ask a tutor for help and explore other writing resources.

- **RefWorks**: A bibliographic citation tool; check out the RefWorks tutorial and Fact Sheet and Quick-Start Guide.

**Individual Resources**

- **Military Student Success Center**: Assists personnel in any branch of service to reach their educational goals.

- **Center for Accommodations and Support Services**: Assists students with ADA-related accommodations for coursework, housing, and internships.

- **Counseling and Psychological Services**: Provides a variety of counseling services including individual, couples, and group sessions as well as career and disability assessments.
Course Policies
The following policies are in place in order to better manage the learning environment:

- Some communication from me will be posted on Bb. Please monitor our course page on Bb regularly.
- Academic dishonesty is prohibited and is considered a violation of the UTEP Handbook of Operating Procedures. It includes, but is not limited to, cheating and collusion. Cheating may involve copying from or providing information to another student, possessing unauthorized materials during a test. Collusion involves collaborating with another person to commit any academically dishonest act. Your course work will be submitted to SafeAssign, a plagiarism detecting software. Any act of academic dishonesty attempted by a UTEP student is unacceptable and will not be tolerated. Violations will be taken seriously and will be referred to the Office of Student Conduct and Conflict Resolution for possible disciplinary action. Students may be suspended or expelled from UTEP for such actions. For further information, please refer to https://www.utep.edu/student-affairs/osccr/student-conduct/academic-integrity.html
- Some AI technologies or automated tools, particularly generative AI such as ChatGPT or DALL-E, can be beneficial during the early brainstorming stages of an activity, and you are welcome to explore them for that purpose. However, keep in mind that AI-generated ideas are not your own and may hinder your ability to think critically and creatively about a problem. It is also important to remember that these technologies often “hallucinate” or produce materials and information that are inaccurate or incomplete—even providing false citations for use. **That said, you are not allowed to submit any AI-generated work in this course as your own.** Any direct use of AI-generated materials submitted as your own work will be treated as plagiarism and reported to the Office of Student Conduct and Conflict Resolution (OSCCR).
- Reasonable accommodations will be made for students with limitations due to disabilities, including learning disabilities. Please see me personally within the first week to discuss any special needs you might have. If you have a documented disability and require specific accommodations, you will need to contact the Center for Accommodations and Support Services (CASS) (formerly known as the Disabled Student Services Office) in 302 Union East within the first two weeks of classes. CASS can also be reached in the following ways:
  - Web: http://sa.utep.edu/cass/
  - E-Mail: cass@utep.edu
  - Phone: (915) 747-5148 voice or TTY
# Course Schedule for Voiceover Presentations, In-Class Activities, Exams, and Assignment Due Dates
