COURSE DESCRIPTION

Advanced Drawing 1: Life Drawing is a studio-based course that introduces students to drawing the human figure. Coursework will include direct observation and subsequent drawings from the model, with emphasis on achieving correct form and proportions. Other figurative subjects (students, mannequins, skeletons, etc.) will also be used as reference for drawings. Types of drawings to be done in class will include gestures, short studies, and prolonged drawings. The time devoted to the practice of drawing will also allow the student to develop and refine the drawing skills introduced in Basic Drawing I and II. Power points featuring figurative artworks that relate to coursework will be given throughout the session. Critical assessment of drawings will be offered through individual instruction, small group critiques, peer critiques, and/or class critiques. Students will be expected to draw with concentration and commitment during class time and complete some out of class assignments.

Please note: although we make every effort to schedule a live model for most class sessions, there may be class days when no model is available. In those instances, other figurative source material may be used as subject matter.

All students will be allowed three (3) absences, excused or unexcused. Students who have three (3) absences before midterm must provide a medical excuse or they will be dropped.
