INSTRUCTORS INTRODUCTION

Hector G. Romero received his BFA in Painting and Drawing from the University of Texas at El Paso and his MFA in Painting from the University of California, Los Angeles. After living in New York City for fifteen years as an art book seller and working artist, Hector returned to El Paso in 2011.

COURSE DESCRIPTION

BASIC DRAWING I is the first course in a sequence of foundation level drawing classes structured for the needs of Art Majors who plan to pursue a career in art. This studio course emphasizes basic aesthetic and technical drawing skills that enable students to represent three-dimensional objects in an environment. Topics to be covered include perspective, eye-hand coordination, correct proportions and scale, positive and negative space, as well as compositional structure and effectiveness. Contour line and value are explored as compositional devices and tools to build volume, mass, and illusionistic space. In this course students will be introduced to methods of using traditional black and white drawing media such as pencil, charcoal, and ink. Drawings will be developed based on three-dimensional sources such as still-lives, architectural interiors and exteriors, landscapes, the human figure, etc. Students will be given specific drawing assignments for both class and out of class work.

The majority of class time will be spent working on drawings, with demonstrations and slide lectures given to provide examples relative to course work. Critiques will be held for comparative evaluation and critical feedback.

This course requires additional time to be spent outside of class hours for completion of homework assignments and in class work.

COURSE PRE-REQUISITE INFORMATION

No pre-requisites are required as this is the first drawing course offered within the structure of the foundations for a BFA or BA degree in Art. It is recommended that art majors take ARTF 1301 Basic Design concurrently with this course (ARTF 1302).

COURSE GOALS & OBJECTIVES

- Development of technical and aesthetic drawing skills needed to render three-dimensional forms and space in a convincing illusionistic manner.
- Develop expertise in working with a variety of black and white drawing media.
- Gain an understanding of the importance of aesthetic issues such as composition and the formal characteristics of line, shape, value and space in creating visual interest in a drawing.
- Develop the ability to think and speak critically about artworks through participation in critiques and introduction to art terminology
- Develop an outstanding work ethic and the commitment necessary to succeed in achieving the above stated goals and objectives.

COURSE OUTCOMES

Students who successfully complete this class can gain experience and competency in working with basic black and white drawing materials. These students will be able to effectively use line, value, shape, proportion, perspective and foreshortening to create convincing illusionistic drawings of three-dimensional forms and space. In addition, an awareness of the aesthetic aspect of drawing will be achieved through the creative use of the visual art elements and application of compositional principles in their drawings. Through exposure to critique situations and slide lectures, students can acquire a basic knowledge of art terminology and an awareness of important artists and the drawings they make.
