INSTRUCTORS INTRODUCTION

Hector G. Romero received his BFA in Painting and Drawing from the University of Texas at El Paso and his MFA in Painting from the University of California, Los Angeles. After living in New York City for fifteen years as an art book seller and working artist, Hector returned to El Paso in 2011.

COURSE DESCRIPTION

In Basic Drawing II, students will continue to develop technical drawing skills taught in Basic Drawing I, with added emphasis on composition and content. Students will review working with line and value as form-building and expressive tools, with the addition of color media. There will be further emphasis on the awareness of the picture plane as a major unifying factor in pictorial art, as well as exploration of a greater variety of drawing materials. The figure will be introduced as a source of subject matter. Students will engage in an exploration of both traditional and innovative approaches to the description of form and space, exploring representational, abstract and non-objective imagery. More time will be devoted to thematic development and the exploration of personal sources of meaning during the second half of the semester. Students will be expected to develop the skills necessary to plan and complete a series of drawings showing ambition and commitment to an idea. Basic Drawing II is a studio course designed to serve the needs of the studio-based art major. Lectures, demonstrations, critiques and viewing of slides are interwoven with in class work time. Students will be given specific drawing assignments for both in class and out of class work. The class environment will encourage the development of critical skills, with frequent critiques and interchange of ideas. This course requires that additional time be spent outside of class hours for completion of homework assignments and in class work.
