Course Description

Basic Drawing II is a studio course designed to serve the needs of studio-based art majors. Students will explore both traditional and innovative approaches to the description of form and space while experimenting with representational imagery, non-objective subject matter, and color media. Lectures will include examples and influences relative to course work, while critiques will be held for comparative evaluation and critical feedback regarding in-progress and finished drawings.

The assignments in this course will include exercises in direct observation of still life setups, composition, color, abstract imagery, narration, and the human figure. In this course, students will devote more time to thematic development, content and exploration of personal sources of meaning in their work. Students will be expected to develop a complete a series of drawings showing ambition and commitment to an idea. **Students are encouraged to keep a sketchbook as a tool for concept development.**
