Course Description:
This course is an interdisciplinary examination of the socioeconomic, political, and cultural forces that affect the status of Chicanas in the U.S. Special consideration will be given to the role of Chicanas in the Women’s and Chicano Movements, as well as the Mexicana/Chicana confluence in the U.S.-Mexico border region. Additionally, this course pays close attention to the categories of gender and sexuality as well as feminist theory to better understand how Chicana identities challenge and negotiate American norms.

Student Learning Outcomes:
By the end of the class, students will:
1. Develop the critical thinking and analytical skills necessary for effective communication both orally and written.
2. Identify, analyze, and articulate the central themes in Chicana identity and community formation.
3. Understand theories of race, class, ethnicity, and gender in the shaping of both geopolitical and metaphorical borders.
4. Connect the past to the present in an effort to better understand the world around them.
5. Interact and collaborate with people of diverse backgrounds in open and respectful ways.

The guiding questions for this course are the following: What is Chicana identity? What are the historical events that define Chicana identity? How do space and time inform identity formation?
