III. Specific Course Information

Course Description:

This course is an interdisciplinary examination of the social, political, and economic forces that characterize Chicana/o or ethnic Mexican identities in the United States. By comparing and contrasting historical and contemporary ethnic Mexican experiences, students will better understand how issues of nationalism, whiteness, masculinity, homophobia, and globalization re-define, incorporate, or neglect Chicana/o identities in the United States. This course utilizes the categories of gender and sexuality to analyze these topics and pays close attention to Chicana and third world feminism to better understand how Chicana identities challenge and negotiate U.S. norms. Through texts, films, and discussion this class explores a variety of Chicana/o identities and how these identities are produced and conversely destabilized.

Course Outcomes:

1. Develop the critical thinking and analytical skills necessary for effective communication both orally and written.
2. Identify, analyze, and articulate the central themes in Mexican American community and identity formation.
3. Identify and analyze differences and similarities among Mexican American experiences over time and space.
4. Demonstrate their understanding of the concepts of gender, sexuality, race, and class by using them to identify experiences of privilege and inequality as well as collaboration and conflict, within and between U.S. Latina/o communities.
5. Use an interdisciplinary approach to connect the past to the present in an effort to better understand the world around them and themselves as global citizens.
