Course Description:

This course is designed to provide the student with a general overview of past and present Mexican American culture and society. Using an interdisciplinary framework, this course examines Chicana/o Studies from the Chicana/o Movements of the early 1960s to the present. The course uses race, ethnicity, class, and gender as categories of analyses to interpret how and why ethnic Mexicans create distinct cultures and identities in the United States.

The readings and videos explore several topics to include immigration, citizenship, education, labor, politics, and pop culture for a better understanding of how ethnic Mexicans negotiate, resist, and redefine their place in the U.S. Students will develop several skills to include critical thinking, reasoning, analysis, and maintaining a point of view, verbally and in writing. Additionally, this course will help students develop computer skills and electronic communication skills.

Student Learning Goals and Objectives:

In this course students will:

- Develop the critical thinking and analytical skills necessary for effective communication both orally and written.
- Identify, analyze, and articulate the central themes in ethnic Mexican community and identity formation.
- Identify and analyze differences and similarities among ethnic Mexican experiences over time.
- Demonstrate an understanding of the concepts of gender, sexuality, race, and class by using them to identify experiences of privilege and inequality as well as collaboration and conflict, within and between ethnic Mexican communities.
- Use an interdisciplinary approach to connect the past to the present to better understand the world around them and themselves as global citizens.
-

The guiding questions for this course are:

- What is Chicana/o Studies?
- What does it mean to be a Chicana/o?
- How have Chicana/os contributed to the story of the United States?

Required Materials:

You will also use Blackboard to send e-mails to your fellow classmates or to me – always remember to include an appropriate subject line to prevent your email from going into the junk mail folder. All correspondence for this class must be done through Blackboard email.

Online learning is not a spectator sport. It is everyone's responsibility to participate fully so everyone can get the most from the experience. Here are some simple rules to follow to ensure participation and engagement in the learning process:

Ask Questions: I have created a Discussion Forum entitled HELP BOARD, located under the General Discussion Forum tab on the Home Page. The Help Board is for asking questions related to content OR any problems you are having. Make sure that you have clearly indicated the subject of your message. If you are having technical difficulties, you will probably be directed to tech support.

Reach Out to Others: Offer a fact, an article, link, or other items that can help others learn something you can share. I have created a Discussion Forum entitled AZTLÁN, located under the General Discussion Forum tab on the Home Page. Aztlán is for the entire class to share relevant information and to participate in leisure conversations as well. The only requirement is that you treat one another with the utmost respect.

Inappropriate behavior/comments online will not be tolerated. Inappropriate behavior WILL BE subject to disciplinary action. I reserve the right to drop you from this course if you use our class as a venue for insulting or insensitive comments, attacks toward other students or the instructor.

Required Software:

Please make sure that all your computer hardware is working properly and please make sure that you have all the required software and that the software is up to date. It is very important that your Java software and your Adobe software is up to date. On the Home Page go to the Course Resources folder and then click on Class Policies and Procedures and/or the Grading Rubric. The information provided is extremely important and crucial for your success in this course. I also embedded the Course Policies and Procedures in the first Learning Module: Introduction and Getting Started

Academic dishonesty is prohibited and is considered a violation of the UTEP Handbook of Operating Procedures. It includes, but is not limited to cheating, plagiarism, and collusion. Cheating may involve copying from or providing information to another student, processing unauthorized materials during a test, or falsifying research data on laboratory reports. Plagiarism occurs when someone intentionally or knowingly represents the words or ideas of another persons as ones' own. Collusion, involves collaborating with another person to commit any academically dishonest act. Any act of academic dishonesty attempted by a UTEP student is unacceptable and will not be tolerated. Violations will be taken seriously and will be referred to the Dean of Students Office for disciplinary action. Students may be suspended or expelled from the University for such actions.

Students with Disabilities:

I will make any reasonable accommodations for students with limitations due to disabilities, including learning disabilities. Please contact me immediately to discuss any special needs you might have.
