Objectives

- Awareness, knowledge and use of processes and tools for practical application, so that artists / designers can act on their own behalf and be a vital part of their own careers.

Course Expectations

- You will be participating in a uniquely collaborative learning environment this semester. The creativity, integrity and commitment that you bring to this class will not only impact your final grade, it will also be indicative of the how you will conduct yourself as an arts professional in the future. Engage. Push yourself. Make it count, for yourself and the other artists / designers who are in this class with you.
- Students will demonstrate a resistance for premature assignment completion as exhibited through repeated attempts to rework and improve upon solutions.
- Students will use critical thinking skills to research and identify essential assignment related instruction, manage assignment development, and exhaustively work to solve problems they may encounter, and in advance of requesting instructor help.
- Students are required to think and respond creatively. You will need to be inspired, sift through this inspiration, and work toward identifying a personal creative point of view, both in your work and in writing. You will need to have an opinion about art / graphic design and about **your** work most specifically.

- Students are required to be prepared to participate in class discussions and collaborative group activities. Ask questions. Share ideas. Be curious. Share your perspectives and experiences in a productive and supportive manner. Your thoughts and questions will provide the starting point and fuel the discussions.
- As in all university classes, events and extracurricular activities, students should observe the university code of conduct during discussions by being respectful of other students, their opinions, and by contributing to an atmosphere of collegial and collaborative learning in the classroom.

Assignments

See Blackboard for listing of assignment details.

NOTE: Students will be required to purchase a unique domain name for their professional web site assignment along with a hosting subscription. Students may not submit sites for this assignment that were created for another class.

- Assignments submitted on the due date but after the set time has passed, will receive a 15% deduction from the final grade total.
- Assignments submitted the day after the assignment due date, and before 5:00 PM, will receive a 25% deduction from the final grade total.
- Assignments submitted the day after the assignment due date, and after 5:00 PM, will have not be accepted.

- If at any time a student would like to discuss a grade on an individual assignment, they must send a statement via the Blackboard Messaging System to me explaining in detail their concern and proposed solution along with an assigned grade. The student must wait 24 hours after the grade has been delivered before sending A COURSE MESSAGE. The instructor will respond within 48 hours, Monday – Friday.

Attendance Policy

- Each student is permitted 3 absences during the term without penalty. Information missed during an absence is the sole responsibility of the student.
- Excused absences are defined as documented personal serious illness, death in the immediate family, or university sanctioned events with prior approval.
- In order for an absence to be excused, all previous absences must be excused.
- Students arriving to class after the attendance has been taken, but no later than 10 minutes, will be marked late. 2 late entries constitute 1 full absence.
- If a student arrives late, but no later than 10 minutes, they must sign their name on the whiteboard in the front of the classroom to insure proper recording of the late arrival. The student should then find an open seat and prepare for classwork without disturbing other students or the instructor.
- Students returning late from a class break will also be marked late for the day. 2 late entries constitute 1 full absence.
- Each unexcused absence after 3 will result in the final class grade being lowered a full letter grade. Consequently, a final grade of “A” becomes a “B” with 4 absences, a “C” with 5 absences, a “D” with 6 absences, an “F” with 7 absences.

Regarding Assignment Reviews: The intent here is that students will work to complete assignments early, in advance of the due date and time to the best of their ability before requesting a review. Review requests made after 5:00 pm on the Friday of the week prior to the submission date, are not guaranteed a response. While class time may include opportunities for assignment help, this may not always be the case.

This course is offered in the hybrid format. Nevertheless, students should keep both weekly class meeting time slots clear in their schedule for the duration of the semester. It is recommended that students come to the classroom lab when there is not a required meeting to work on assignments.

Grading

A final letter grade will be assigned at the end of the term, based upon the total possible points according to the following scale:

A 90-100 Superior

Represents outstanding work reflective of effort and performance of exceptional ability and absolute quality.

B 80-89 Above Average

C 70-79 Average
