Please contact me using the Messages tool on Bb.

Introduction to the Course

This course has been designated as a face-to-face (F2F) course. This means that students must attend the course during the designated meeting times in the actual classroom. The instructor cannot accommodate students in an online format. Therefore, attending class is an essential part of completing the course successfully.

Introduction to Marketing

Marketing is all about people! Getting the right products or services to the right people at the right time, place, and price is what marketing is all about. As marketers, we are in the business of satisfying consumer needs and wants in the context of the larger society in mind. What we do benefits both consumers and businesses: people get the products they need and want, while businesses earn the profit they need to thrive in the marketplace (and employ people). This course examines all activities related to marketing, including the 4Ps, understanding consumers' value needs, creating, communicating, and delivering the value proposition. The material is relatively easy to understand and follow. Importantly, marketing is very interesting because it examines issues we all face as consumers.

Learning Objectives

Objectives	Bloom's Taxonomy	Activities	Assessment Tools
1. Understand the importance and role marketing plays in a business enterprise.	Understand	eText reading, MyLab activities, discussion board	Bb exams, MyLab quizzes, MyLab homework
2. Understand and be able to demonstrate how marketing mix decisions help to determine the overall performance of the firm	Understand, apply	eText, MyLab activities, online discussions	Bb exams, MyLab activities
3. Develop a clear understanding of the global marketing environment and the marketer's ethical and social responsibilities.	Understand	eText reading, MyLab activities, discussion boards	Bb exams, team project rubrics, MyLab activities
4. Define primary and secondary sources of information; give examples of methods used to collect primary data; give examples of sources for secondary data; compare the advantages and disadvantages of both types of data	Remember, understand, apply, analyze	eText reading, MyLab activities, team project, discussion boards	Bb exams, team project rubrics
5. Describe major bases for segmenting consumer and business markets; define and be able to apply the three steps of target marketing: market segmentation, target marketing, and market positioning; understand how different situations in the competitive environment will affect choices in target marketing	Understand, apply	eText reading, MyLab activities, discussion boards, team project	Bb exams, discussion post rubric, team project rubrics, MyLab activities
6. Describe the major types of consumer buying behavior, the stages in the buyer decision process and completely outline the components of the marketing mix; identify how the firms marketing strategy and marketing mix must evolve and adapt to match consumer behavior and perceptions of	Remember, understand, analyze	eText reading, MyLab activities, team project, discussion boards	Bb exams, MyLab activities, team project rubrics, discussion post rubric

the product (e.g., classification of products and services, brand image, price and value), the stage in the product life cycle and the competitive environment; summarize the importance of measuring and managing return on marketing			
7. List and describe the steps in the new-product development (NPD) process; describe how the NPD process meshes with the adoption and diffusion process for those products	Remember, understand, analyze	eText reading, team project, MyLab activities, discussion board	Bb exams, team project rubric, MyLab activities
8. Identify the costs and benefits of marketing channels; discuss the firms and the functions involved in typical channels in North America	Understand, analyze	eText reading, MyLab activities	Bb exams, MyLab activities
9. Identify the roles of advertising, sales promotion, public relations, personal selling, and direct marketing in the promotion mix; compare integrated marketing communications with a non-integrated approach to the promotional mix	Remember, understand, evaluate	eText reading, MyLab activities, team project	Bb exams, MyLab activities, team project rubrics

How Do I Get Started?

Reading this syllabus is the first stop on your course journey. Read the syllabus carefully to understand what you are expected to do and when. After reading the syllabus, your next stop should be the Week #1 Learning Module. That's the place where you can start reading and completing assignments. Be sure that you have your access code to MyLab handy, as you will need it for accessing the eText and MyLab activities. Of course, feel free to explore any available links on Bb, but be sure to follow the order of activities in each weekly module and complete all activities on time.

Office Hours

I will hold regular, live office hours via Zoom (click on the Office Hours link in Bb) and F2F on the following days and times (MST - Mountain Standard Time):

- Tuesday: 3:30 – 5:00 pm (Zoom only)
- Wednesday: 3:30 – 5:00 pm (F2F only)
- Thursday: 5:00 – 6:00 pm (Zoom only)

You can also contact me via the Bb “Messages” tool at any time. Under normal conditions, I should be able to get back to you within 24 hours. If I am traveling, responses may arrive as late as 36 hours, but I promise to respond to your messages as soon as possible. You can also post your questions on the Help Board on Bb. One of your classmates or I will respond to you promptly. All questions are welcome!

Required materials

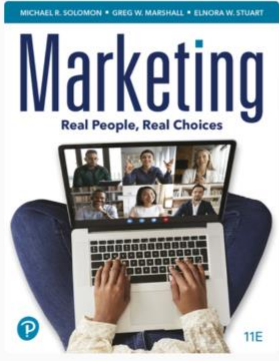

Marketing: Real People, Real Choices (11th Edition) with access to MyLab Marketing by Solomon, Marshall, and Stuart [Pearson]

The textbook is available as an eText only or an eText and printed, softcover copy. Be sure to purchase access to MyLab Marketing along with the textbook. Access to MyLab Marketing is required, and you must purchase it. Always be an informed consumer. So, be sure to investigate your various options of buying the textbook with MyLab Marketing but do so as soon as the course starts! Perhaps the cheapest and quickest way to get access to the textbook would be through the Pearson site directly (digital textbook PLUS access to MyLab Marketing). The

best choice would be the “MyLab” option. Here is the direct link to the Pearson site where you can buy the eText and MyLab access (click on the picture).

It's important to purchase the MyLab bundle, which also includes the eText itself. Do not buy any used codes as those have, well, been used.

Access details

Doing well in this class

Success in this class requires excellent time management. Read the syllabus carefully and note all assignments and their respective deadlines. Technology issues are not an excuse for late work. In fact, plan to complete all assignments as far ahead of the actual deadline as you can to avoid last-minute glitches and other issues. Develop good habits early and stick with them throughout the session. Late assignments will not be accepted for any reason. So, be sure to plan accordingly!

Equipment Needs

You are expected to have access to a computer with voice and video capabilities. For the best experience possible, be sure that your browser allows popups and cookies. Technical issues are not acceptable excuses for not turning in assignments! If you need any help with your computer, please contact the [UTEP Technology Support](#). Plan ahead!

All exams will be completed online. This necessitates the use of the Respondus Lockdown Browser and Monitor. Please be sure to get these installed and ready to go before the first exam. Alternatively, you can complete all assignments and exams at a UTEP computer lab. The bottom line is that there will be no excuses for late assignments or exams due to technical reasons.

Class policies

The instructor and student will closely adhere to the following policies:

1. Blackboard is the main portal for the course. All communication and activities will be done through Bb and in the classroom. You must access Blackboard (Bb) on a daily basis to check for updates and access all course materials.
2. You must review the syllabus carefully and understand all class components.
3. There is no way to make up points for missed assignments on MyLab.
4. The instructor reserves the right to ask any students disrupting the normal flow of activities such as the "Discussion Boards" to refrain from making additional posts, until any issues have been resolved. Ignoring the instructor's warnings will result in a report filed with UTEP's [Office of Student Conduct and Conflict Resolution](#) (OSCCR). This may result in a possible drop from the course.
5. Any and all attempts for cheating, plagiarism or other inappropriate behavior is a cause for disciplinary action. The instructor intends to pursue these very serious matters to the fullest extent of the class, department, and university policies and regulations.
6. Make up quizzes and other assignments are only possible with an approved medical excuse. You must send the instructor a note from your physician in English (on official letterhead with the physician's contact information) justifying your failure to complete any of the class activities. It is entirely up to the instructor to approve make-up activities. Missing activities for whatever reason will make the successful completion of the course extremely difficult.
7. You cannot make up missed assignments on MyLab. Plan accordingly!
8. The instructor will not accept any late assignments. The grade for late assignments will be 0 (zero). Pleading your case and/or begging for mercy will not be tolerated. All assignments must be turned in online on the date that those assignments are due.
9. You are required to access Blackboard frequently (i.e., at least once a day) for announcements and other course material. From time to time, I may send important/critical information via e-mail. So be sure to 1) have a UTEP e-mail address and 2) check your e-mail at least once a day. You are entirely responsible for accessing your e-mail account and Blackboard on a frequent basis to check for any and all messages and announcements. Unfortunately, I may not be able to send any broadcast (i.e., to the entire class) e-mail messages to addresses outside the UTEP (i.e., miners) domain. Please use Bb e-mail to contact me.
10. If you have a disability or feel you might have a disability and need assistance, contact the [Center for Accommodations and Support Services](#) (CASS) Office at 747-5148 or go to Room 106 Union East.

Academic Dishonesty

The University of Texas at El Paso prides itself on its standards of academic excellence. In all matters of intellectual pursuit, UTEP faculty and students must strive to achieve based on the quality of the work produced by the individual. In the classroom and all other academic activities, students are expected to uphold the highest standards of academic integrity. Any form of scholastic dishonesty is an affront to the pursuit of knowledge and jeopardizes the quality of the degree awarded to all graduates of UTEP. It is imperative, therefore, that the members of this academic community understand the regulations pertaining to academic integrity and that all faculty members insist on adherence to these standards.

Any student who commits an act of scholastic dishonesty is subject to discipline. Scholastic dishonesty includes, but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Proven violations of the detailed regulations, as printed in the Handbook of Operating Procedures (HOP) and available in the Office of the Dean of Students, may result in sanctions ranging from disciplinary probation, to failing grades on the work in question, to failing grades in the course, to suspension or dismissal, among others.

All research papers, term papers, or other writing intensive assignments must adhere to APA style. Students are expected to submit all papers with appropriate citation, references, etc. If you are unsure of the parameters of this writing style, please contact the instructor within the first week of classes for further information. Style guides are available in the University Bookstore.

Grading

Your performance in the course will be determined using the following assessments and corresponding points:

Assessments	Points
Bb Exams (4) & Practice Exam	400 + 25
Attendance and Participation	75 (25 + 50)
Discussion Boards (2)	50 (25 points each)
MyLab Quizzes	150
MyLab Homework (videos or mini sims)	100
Team project & narrated PPT presentation	125 & 50
MKT 3300 Assessment of Learning Quiz	25
TOTAL	1000

Final grades will be determined as follows:

Cumulative points	Final Grade
900+	A
800-899	B
700-799	C
600-699	D
Below 600	F

The various assessment components are discussed below.

- **Bb Exams**

You are expected to take one exam on Blackboard for a week's worth of material for a total of four Bb exams. These exams will be timed and taken online with strict time limits. A short practice exam will be provided regarding the syllabus. Once you have started an exam, you must submit it within the specified time limit of one hour and ten minutes. No second attempts will be allowed for these exams. The exams will cover material based on all reading(s) as indicated in the calendar of activities. Each exam will include 50 multiple choice and/or true-false questions and must be taken within the time window as indicated in the tentative schedule. All exams are due on Saturdays by midnight. To take these exams, you will need to use the Respondus Lockdown Browser (RLB) and Respondus Monitor (RM). You will need to make your webcam available during the entire exam and you will be video recorded taking the exam. If you have not used RLB and RM previously, be sure to contact the UTEP Blackboard Help if you have any questions.

- **MyLab Activities**

The purpose of MyLab is to help you determine whether you understood the material that you have read in the textbook and consequently encourage you to do additional reading. Therefore, the first step prior to completing any of MyLab activities is to read the material in the textbook carefully.

Access to this online tool is bundled with the purchase of the textbook. If your textbook did not come with an access code for MyLab, you purchased the wrong textbook packet. You can find more information about signing up for MyLab on Blackboard. Be sure to follow all registration instructions carefully, including signing up by entering the correct UTEP e-mail address, name, and ID# (if it is required).

Using MyLab, you will be expected to complete two activities. One of the activities involves a 25-question quiz for each chapter. You will have 30 minutes to complete the quiz and one attempt. In order to help you understand how to use the system and what to expect, the quiz for Chapter 1 will include two attempts. For the remaining chapters, you will only get one attempt. So, it's extremely important to complete the quizzes on time.

The second component involves either a mini simulation (a.k.a. mini sim) or a video exercise. The mini sim will ask you to apply your knowledge from the chapter readings in a real-life business scenario. The video exercise involves a video of a real-life scenario and typically a series of approximately five questions that you must answer. You will only get one attempt for both the mini sim and video, but no time limit will be imposed other than the deadline to complete the activity. Again, I cannot emphasize enough how important it is to complete all chapter readings before attempting any of MyLab activities.

- **Discussion Boards**

You must participate in two out of the four discussion boards. Both the initial post and reply to a classmate must be done in the same discussion board. I will post a contemporary marketing challenge and each student will be expected to perform two tasks: make an initial and original post to the challenge (minimum of 150 words) by Thursday at midnight and then respond to one of her/his classmates' posts (minimum of 50 words) by Sunday at midnight. The deadlines during the last week of class are different. Keep the following policies in mind as you participate in the discussion boards:

- **Language:** Given the online nature of discussions, written text can easily be misinterpreted. Avoid the use of strong or offensive language and the excessive use of exclamation points. If you feel particularly strongly about a point, it may be best to write it first as a draft and then to review it, before posting it, in order to remove any strong language.
- **Be Forgiving:** If someone states something that you find offensive, mention this directly to the instructor. Remember that the person contributing to the discussion is also new to this form of communication. What you find offensive may quite possibly have been unintended and can best be cleared up by the instructor.
- **This is Permanent:** Think carefully about the content of your message before contributing it. Once sent to the group, there is no taking it back. Also, although the grammar and spelling of a message typically are not graded, they do reflect on you, and your audience might not be able to decode misspelled words or poorly constructed sentences. It is a good practice to compose and check your comments in a word-processor before posting them.
- **Test for Clarity:** Messages may often appear perfectly clear to you as you compose them but turn out to be perfectly obtuse to your reader. One way to test for clarity is to read your message aloud to see if it flows smoothly. If you can read it to another person before posting it, even better.
- **Remember Your Place:** A Web-based discussion is still a discussion, and comments that would be inappropriate in a regular F2F discussion are likely to be inappropriate in a Web-based discussion as well. Treat your instructor and your fellow students with respect.
- **Follow the Parameters/ Stick to the Point:** Follow the posting requirements and parameters set up by your professor. Contributions to a discussion should have a clear subject header, and you need to stick to the subject. Don't waste others' time by going off on irrelevant tangents.

- **Read First, Write Later:** Don't add your comments to a discussion before reading the comments of other students unless the assignment specifically asks you to. Doing so is tantamount to ignoring your fellow students and is rude. Comments related to the content of previous messages should be posted under them to keep related topics organized, and you should specify the person and the point you are following up on.
- **Team writing assignment/report**
To become a successful businessperson, it is important to learn how to work in a diverse team environment. Interestingly and unfortunately, due to COVID-19, it has become evident that being able to work with a team, sometimes remotely, has become a “must-have” skill for all businesspeople. To help you acquire this skill and develop good interpersonal skills, you will carry out a team project. More details regarding the team writing assignment and a grading rubric will be provided on Bb under the topic “Team Project.”
- **Team presentation (Narrated)**
Each team will prepare a narrated presentation of the team project. You are expected to develop a professional presentation, which communicates the ideas in your written report in a succinct manner. More details about the presentation format, instructions, and a grading rubric are provided on Blackboard under the topic “Team Project.”

[N]etiquette Guide

Certain behaviors are expected when you communicate with both your peers and your instructor. These guidelines for online behavior and interaction are known as netiquette.

Security

Remember that your password is the only thing protecting you from pranks or more serious harm.

- Don't share your password with anyone
- Change your password if you think someone else might know it
- Always logout when you are finished using the system

General guidelines

When communicating online, you should always:

- Treat the instructor with respect, even in email or in any other online communication
- Always use your professor's proper title: Dr. or Prof., or if you in doubt use Mr. or Ms.
- Unless specifically invited, don't refer to him or her by first name.
- Use clear and concise language.
- Remember that all college level communication should have correct spelling and grammar.

- Avoid slang terms such as “wassup?” and texting abbreviations such as “u” instead of “you”
- Use standard fonts such as Times New Roman and use a size 12 or 14 pt. font.
- Avoid using the caps lock feature AS IT CAN BE INTERPRETTED AS YELLING.
- Limit and possibly avoid the use of emoticons like :) or ☺.
- Be cautious when using humor or sarcasm as the tone is sometimes lost in an email or discussion post and your message might be taken seriously or offensive.
- Be careful with personal information (both yours and that of others).
- Do not send confidential patient information via e-mail.

E-mail netiquette

When you send an e-mail to your instructor, teaching assistant, or classmates, you should:

- Use a descriptive subject line.
- Be brief.
- Avoid attachments unless you are sure your recipients can open them.
- Avoid HTML in favor of plain text.
- Sign your message with your name and return e-mail address.
- Think before you send the e-mail to more than one person. Does everyone really need to see your message?
- Be sure you REALLY want everyone to receive your response when you click, “reply all”. In fact, the “reply all” should never be used unless you are specifically asked to reply to all.
- Be sure that the message author intended for the information to be passed along before you click the “forward” button.

Message board netiquette and guidelines

When posting on the Discussion Board in your online class, you should:

- Make posts that are on topic and within the scope of the course material.
- Take your posts seriously and review and edit your posts before sending.
- Be as brief as possible while still making a thorough comment.
- Always give proper credit when referencing or quoting another source.
- Be sure to read all messages in a thread before replying.
- Don’t repeat someone else’s post without adding something of your own to it.
- Avoid short, generic replies such as, “I agree.” You should include why you agree or add to the previous point.
- Always be respectful of others’ opinions even when they differ from your own.
- When you disagree with someone, you should express your differing opinion in a respectful, non-critical way.
- Do not make personal or insulting remarks.
- Be open-minded.

Calendar of Activities (tentative schedule)

Important note!

We will do our best to adhere to the schedule below. Be sure to manage the completion of the activities throughout the week to succeed in the course. There will be no deadline extensions!

Weekly Learning Modules	Activities (check if completed)	Readings	Daily in-class Schedule	Recommended Activity Deadlines	Hard Deadlines
