

GEOLOGY 3312/3112: “Geoscience Processes”

CRNs: 12927/12928/18578

The University of Texas at El Paso

Department of Geological Sciences

Fall Semester 2020

Instructor:

Dr. José M. Hurtado, Jr.
Geology room 301A
(915) 747-5669 office
(626) 399-6565 cell
jhurtado@utep.edu

TAs:

Racheal Schrock
rgschrock@miners.utep.edu
(915) 539-5581
Kenneth Singh
kcsingh@miners.utep.edu
(915) 526-8952

Note: Please only use the internal email system to Blackboard to communicate with the instructors (see below)

Course Description:

From the UTEP catalog: *GEOL 3312/3112 Geoscience Processes: Field-oriented, problem-solving studies emphasizing field identification of rocks; study of landforms and processes that create them; use of maps, aerial photographs, and satellite imagery; skills used in geologic mapping and field work. Emphasis on developing observational and analytical skills and the development of multiple working hypotheses. Prerequisite: Junior standing in Geology* or permission of instructor.*

*Note that this usually means having previously taken both “Physical Geology” and “Historical Geology”. **Also note that you should be taking both “Geoscience Processes” and Mineralogy together during the same semester!** Both courses are co-requisite to one another and are only offered once per year. Also, we may, on occasion, do joint activities between the two courses. In addition, both courses are prerequisites for all other courses in the Geology program. Talk to Dr. Hurtado and your advisor if you have questions!

Course Objectives and Expected Learning Outcomes:

I hope to teach you how to describe geologic materials and processes in the field and in the laboratory, and – equally important – how to record those observations in a meaningful way. Specifically, we will cover the following topics and skills, most of which relate to field geology as a forensic science:

1. Use of a topographic map and aerial imagery for navigation and recording of spatial data in the field.
2. Construction, use, and analysis of topographic maps, topographic profiles, stratigraphic columns, and geologic maps in the field and the laboratory.
3. Use of a Brunton compass for navigation and for measuring geologic features in the field.
4. Keeping an organized and complete field book to record field data.

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

5. Basic concepts and analytical tools (structural, stratigraphic, geomorphic, etc.) used in field geology.
6. Visualization of geologic data and relationships in 3-D.
7. Analysis of crosscutting relationships and 4-D thinking.
8. Thinking of the Earth in terms of processes and the application of the concept of "process from product".
9. Identification and description of common rocks, minerals, soils, and other geologic materials.
10. Identification and interpretation of tectonic, volcanic, geomorphic and other landforms/structures.
11. Survey of fundamental concepts in plate tectonics, geophysics, historical geology, structural geology, petrology, sedimentology, geomorphology and other topics.

Ideally, you will learn to operate as a scientist when solving problems: asking questions; making careful observations; thinking critically and quantitatively about those observations; developing multiple working hypotheses; and testing those hypotheses. An important part of this will involve working cooperatively and communicating your ideas to others. Most importantly, you must learn to be honest with yourself and **trust your own observations.**

Grading:

~20 lab/field trip/homework assignments (60%); 1 midterm examination (10%); 1 final examination (20%); participation (10%)

Grades will be computed based on the above percentage breakdown applied to the total number of points computed at the end of the semester. Each graded item (assignment, exam, quiz, etc.) will have an assigned point value that may vary from item to item. Every graded item will have an associated rubric that will be used for evaluating it and assigning points. The rubric will have crucial information that could affect your grade for each activity. You will find these rubrics by clicking on the appropriate assignment link in Blackboard.

Your participation will, in part, be evaluated based on weekly quizzes, weekly posts made to the Blackboard discussion forums, etc. Discussion forum posts and responses will have specific requirements, to include your post as well as replies to at least two others. Some extra credit points from assignments, quizzes, etc. may be made available.

Fieldwork:

There will be four (4) excursions to off-campus field localities at Mt. Cristo Rey during the semester. Due to UTEP rules, we will all need to fill out insurance and release forms in class before our trips. Due to the COVID-19 situation, everyone will need to provide their own transportation to the field, and we will

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

follow strict social-distancing and mask protocols. Please consult Dr. Hurtado ASAP if you have health or other concerns about doing fieldwork. Also consult Dr. Hurtado ASAP if you have scheduling concerns about any of the field trips.

Please be prepared when we go outdoors (e.g. have water, sunscreen, hat, good walking shoes, face covering, etc.)! Among the items you will need (e.g. they are required) for your field assignments are: **a field notebook (notebooks will be provided to you by Dr. Hurtado), hand lens (these will be provided to you by Dr. Goodell), a clipboard, 1-cm grid graph paper, a sharp mechanical pencil, a fine-tipped ink pen, a metric scale ruler, a protractor, colored pencils, and a calculator.** In addition, rock hammers and Brunton compasses will be available for your use on the days we need them (no need to purchase these). Talk to Dr. Hurtado if you have any concerns about field equipment.

For safety purposes during our field work, face coverings will be required at all times. Everyone should also have their own supply of hand sanitizer for their own use. We will work in small groups of no more than 5 students and a TA. Our groups will maintain social distancing of at least 6-feet at all times. Health professional guidance indicates that outdoor activities, such as our field work, are safer than activities indoors. See below for more COVID-19 information and policies.

Class Meetings:

Lecture: The lecture portion of the course will be entirely online and largely asynchronous, but we will proceed on a weekly schedule (i.e. not at your own pace). We will not meet face-to-face at any time this semester for the lecture (disregard any scheduled, on-campus GEOL 3312 meetings listed in Goldmine). Note, however, that we will meet online and synchronously as an entire class, once or twice during the semester, during a Th 9-10:20 am timeslot or during Dr. Hurtado's office hours (see below). These meetings will be required, and you will be notified of them ahead of time.

Lab: Most of the lab assignments will be for you to do online and asynchronously. However, four (4) will need to be face-to-face field trips that we will do in small groups (see schedule for locations/dates). Other than the field trips, which will not involve visits to campus, we will not meet face-to-face at any other time this semester for lab (disregard any scheduled, on-campus GEOL 3112 meetings listed in Goldmine). All the labs are required for the class, including (especially) the field trips. Some accommodation can be made for the field trips on a case-by-case basis.

Office Hours:

Dr. Hurtado and the TAs will each host their own, live virtual office hours on Blackboard Collaborate videochat at least once per week (see schedule below). Generally, your attendance at these will not be required, but you are strongly encouraged to participate so that you can stay engaged with the class and get help

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

with the lab assignments and/or any material presented in the lectures. You will be notified of any required meetings (which would follow Dr. Hurtado’s schedule; see below) ahead of time.

Dr. Hurtado: T and Th 1-2 pm, or by appointment

Racheal: M 5:30-6:30 pm

Kenneth: W 2-3 pm

Communication

Method	Response Time	Notes
Blackboard Announcements	--	Be sure to check Blackboard regularly for updates, deadlines, and other important messages. Blackboard is available on the web and also as a mobile app.
Blackboard Discussion Forum	Within <24 hours for replies to posts	Posts are visible to the instructors and the whole class. There are dedicated forums for technical help, general help, fun posts, as well as specific assignments.
Blackboard Collaborate	See above for scheduled sessions New appointments available within 24-48 hours	Schedule new appointments via Blackboard email. Scheduled office hours are in a group setting. Private conversations are possible on request/by appointment.
Microsoft Teams (or Zoom)	--	Will only be used as backup alternatives to Blackboard Collaborate
Email (do not use UTEP webmail, etc; use Blackboard internal email only please)	Within <6 hours	For direct, confidential contact with instructors, this is the preferred method. Please always include the course name as the subject line, state your message clearly, etc.
Cell Phone (see numbers above)	Within <3 hours	Monday to Friday: 10am-6pm Weekend: emergencies only. Please leave voice mail. No texts, please.
Office Phone (see numbers above)	Within <24 hours	Instructors will be remote working so cell phone is preferred. Please leave voice mail.

Class Online Materials:

Check the Blackboard portal for this course often for updates and announcements. The online materials are the key part of the class and Blackboard will be the main venue all class business. Note that, for simplicity, only the Blackboard portal for

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

the lecture component (GEOL 3312) will be used (the Blackboard portals for GEOL 3112 will remain unused). The course is designed around weekly modules, each of which includes learning content to include “lecture” notes, videos, PDF readings, weblinks, assignments (labs, homeworks, discussions), and quizzes. These modules will be released to Blackboard weekly.

All materials used in this course are protected by copyright law. The course materials are only for the use of students currently enrolled in this course and only for the purpose of this course. They may not be further disseminated.

Text:

There is no required textbook to buy, but there are required readings that will be posted to Blackboard.

Readings from a variety of books will be given as PDFs available for download. These books include, but are not limited to:

Compton, 1985, *Geology in the Field*, John Wiley & Sons, Inc: New York, 416 p. (ISBN-13: 978-0471829027)

Maley, 2005, *Field Geology Illustrated* (2nd edition): Mineral Land Publications: Boise, ID, 704 p. (ISBN 0940949059)

Reynolds, Johnson, Kelly, Morin, and Carter, 2008, *Exploring Geology*, McGraw-Hill Higher Education: Boston, 575 p. (ISBN 978-0-07-313515-1)

Spencer, 2000, *Geologic Maps: A Practical Guide to the Preparation and Interpretation of Geologic Maps* (2nd edition), Prentice Hall: Upper Saddle River, NJ, 148p. (ISBN 0130115835)

West, 1994, *Geology Applied to Engineering*, Prentice Hall: Upper Saddle River, NJ, 560 p. (ISBN 0024258814)

In addition, a large number of supplemental materials from a variety of other sources will also be provided as PDF readings, PPT files, etc. for discussion and for your general reference throughout the semester.

Required Information Technology Tools and Resources:

To fully engage in and complete the work for this course, everyone will individually need to have daily access to a reliable, preferably broadband, internet connection, ideally on a laptop or a desktop computer equipped with a camera and microphone and a selection of software (see below). Check that your computer hardware and software are up-to-date and are able to access all parts of the course.

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

All students will be expected to have access to the following information technology, software, tools, and resources:

1. *Microsoft Office* (Word, Excel, and PowerPoint) or equivalent productivity software (e.g. Google Docs, etc.). This will be used to write reports, analyze data, make illustrations, etc. for assignments.
2. *Microsoft Paint* (or your favorite other image viewing/editing software, e.g. GIMP, Adobe Photoshop, Inkscape, Adobe Illustrator, etc.). This will be used to make/view illustrations.
3. *Adobe Reader* (or your favorite other PDF viewer). This will be used to view PDF documents posted by the instructors.
4. *Windows Media Player, QuickTime Player, VLC or equivalent video player*. This will be used to view video files.
5. *Google Earth Pro* (the desktop version of Google Earth, not the web-based version; get it for free at <http://earth.google.com>). This will be used as a GIS for viewing geospatial datasets in support of lecture and lab activities.
6. *Strabospot* (get it for free at <http://strabospot.org>; a free account will be required). We will experiment with this tool for collecting and sharing field data.
7. *GeoVis3D* (get it for free at <http://ausgeol.org>). This tool will be used for viewing 3D models.
8. Access to <http://gigapan.com> and <http://sketchfab.com> (no need to make accounts, but you can for free if you like). These websites will be where you will access high-resolution imagery and 3D models.
9. Access to your *UTEP email account*. We may need to communicate via external email throughout the semester. Note, however, that the primary means of email communication will be through the Blackboard internal email function.
10. Access to *Blackboard*. Please be sure to check that you have access to the Blackboard site for this course by the first day. We will use Blackboard as our primary means of communication (including email) and for all course business. In particular, we will make use of the Discussion Board and Blackboard Collaborate. Please check that you can use both of these functions, as well as the Blackboard email system. **Mozilla FireFox and Google Chrome are the best-supported browsers for Blackboard.**
11. *Respondus*. See below for more information. This browser and associated software are used for exams. Be sure you have it installed on the device(s) you intend to use, and do so at the beginning of the semester. You can obtain Respondus through Blackboard.

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

12. *Access to the UTEP VPN* (see this link for more information https://www.utep.edu/technologysupport/ServiceCatalog/NET_VPNGlobalProtect.html). Connecting to the VPN will be necessary to access UTEP library resources and for running UTEP-licensed software (but not for Blackboard).
13. Ability to install new software and/or access websites not specified here. As the semester progresses, you may be asked to install and use new software or other assets. Please let the instructors know if you have difficulty.

You will also be expected to stay continually up to date with all information posted on Blackboard, which will include the syllabus, course calendar/schedule, grades, announcements, email, discussion boards, video conferencing, course notes, readings, supplemental material, and assignments. All communications, including email, for the course will be exclusively via Blackboard. Also, all course materials will be disseminated electronically, and all work will be assigned and handed-in electronically via Blackboard only. No email or hardcopies will be accepted unless directed by the instructor.

That said, always keep off-line backups of any work you produce in the event of a problem with Blackboard. This way, you will have evidence that you completed the work and will not lose credit. Always submit your work with plenty of time to spare in the event that you have a technical issue with the Blackboard, the network, and/or your computer (see below).

If at any time you have problems accessing Blackboard, the internet, or any of the resources described here, or have any other technical difficulties, please reach out to the instructors ASAP. For troubleshooting, note that the Help Desk (<https://www.utep.edu/technologysupport/>) is trained specifically in assisting with technological needs of students.

Test Proctoring Software:

For the midterm and final examinations, we may make use of Respondus Lock Down Browser and Respondus Monitor inside of Blackboard to promote academic integrity. I will provide more details about this during the semester. You are also encouraged to learn more about how to use these programs. Please review the following guidelines:

- The assessments will only be available at the times identified on the course calendar.
- You may take the test at any time during the 24-hour window.
- A reliable Internet connection is essential to completing the exam. If you must go to a location to take the exam (such as the library), be sure to follow their health and safety requirements.

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

- You have 2 attempts to take the test. Once the window closes, your answers will be saved, and no changes can be made. The higher score will be recorded.
- Respondus Lockdown Browser will require that all internet tabs are closed prior to the start of the test.
- Respondus Monitor requires a webcam and microphone.
- You will be required to show the webcam your student ID prior to the start of the test.
- Your face should be completely visible during the test. Blocking the camera will disable the test.
- No notes or textbook materials are permitted during the test. Respondus Monitor requires you to take a video of your surrounding area (desk, chair, walls, etc.).
- You should not have conversations with other people and/or leave and return to the area during the test.

Class Recording Policies:

The use of recordings will enable you to have access to class lectures, group discussions, etc. in the event you miss any synchronous or in-person class meetings due to illness or other extenuating circumstances. Our use of such technology is governed by the Federal Educational Rights and Privacy Act (FERPA) and UTEP’s acceptable-use policy. A recording of class sessions will be kept and stored by UTEP, in accordance with FERPA and UTEP policies. Your instructor will not share the recordings of your class activities outside of course participants, which include your fellow students, teaching assistants, or graduate assistants, and any guest faculty or community-based learning partners with whom we may engage during a class session. You may not share recordings outside of this course. Doing so may result in disciplinary action.

Attendance and Engagement Policies:

Because of the asynchronous, remote, and independent nature of how most of this class is structured, it will be particularly important that every student maintain engagement. The onus will be on each one of you to make your own experience in the class a success. That means you need to **keep on schedule and on task from week-to-week**, including:

- staying in the loop on and being proactive about communication;
- participating in all discussions and other interactive activities;
- being diligent in reading/viewing all materials posted to Blackboard and making progress on assignments from week-to-week, e.g., for every hour of “class time” you should be devoting 3 hours to preparatory/study time and/or working on assignments. You are responsible for any and all material posted to Blackboard.

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

- not hesitating to ask questions about material posted to Blackboard, e.g. by emailing the instructors directly, posting questions to Blackboard, attending virtual office hours, etc.
- meeting deadlines and keeping your commitment to complete all work (major assignments and other graded work) and completing it on time.

Each one of the above items will contribute to how you will be evaluated for class participation/attendance. Your success in each of them will also contribute to high scores on your assignments and exams.

Late and Missing Work Policies:

Generally, the instructors will post new material (including assignments, readings, lectures, etc.) to Blackboard on Tuesdays by noon (11:59 am MT). Generally, you will have at least one week to do work (homework, labs, quizzes, discussion board posts, etc.) which will due on Tuesdays no later than midnight (11:59 pm MT). **Due dates may change/vary, though, so be sure to read the instructions carefully.**

Unless other arrangements are made in advance, or you have a valid excuse (see below), **late work will lose up to 50% of its value for each day it is late, and work will not be accepted more than one week late.** In general, make-up exams and assignments will not be available unless in the case of a documented emergency, etc.. Note that any make-up work may be in a different format than the original work, may require more intensive preparation, and may be graded with penalty points. If you miss an assignment and the reason is not considered excusable, you will receive a zero. It is therefore important to reach out to the instructor, in advance if at all possible, and explain with proper documentation why you missed a given course requirement. Once a deadline has been established for make-up work, no further extensions or exceptions will be granted.

According to UTEP Curriculum and Classroom Policies: *“When, in the judgment of the instructor, a student has been absent to such a degree as to impair his or her status relative to credit for the course, the instructor may drop the student from the class with a grade of “W” before the course drop deadline and with a grade of “F” after the course drop deadline.”* See the UTEP Undergraduate Catalog for a list of excuse absences which include, but are not limited to, illness, absence with the instructor's prior approval, official University business, etc., but all require documentation. **Because you may be dropped from the course if you have excessive missing work or are not sufficiently engaged in the course, please contact Dr. Hurtado about any concerns, schedule conflicts, missing work, etc. ASAP and, whenever possible, in advance.**

Course Drop and Incomplete Grade Policies:

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

To drop this class, please contact the Registrar's Office (<https://www.utep.edu/student-affairs/registrar/students/registration.html>) to initiate the drop process. **If you cannot complete this course for whatever reason, please contact me. If you do not, you are at risk of receiving an “F” for the course.**

Incomplete grades may be requested/assigned only in exceptional circumstances after you have completed at least half of the course requirements. Talk to me immediately if you believe an incomplete is warranted. If granted, we will establish a contract of work to be completed with deadlines. If the deadlines are missed, the incomplete grade will automatically turn into an F.

Academic Dishonesty Policies:

Academic dishonesty is prohibited and is considered a violation of the UTEP Handbook of Operating Procedures (HOOP). It includes, but is not limited to, cheating, plagiarism, and collusion. Cheating may involve copying from or providing information to another student, possessing unauthorized materials during a test, or falsifying research data on laboratory reports. Plagiarism occurs when someone intentionally or knowingly represents the words or ideas of another as ones' own. Collusion involves collaborating with another person to commit any academically dishonest act. **Any act of academic dishonesty attempted by a UTEP student is unacceptable and will not be tolerated. The University guidelines for academic dishonesty are very specific and will be strictly followed.** All suspected violations of academic integrity must be reported to the Office of Student Conduct and Conflict Resolution (OSCCR) (<https://www.utep.edu/student-affairs/osccr/>) for possible disciplinary action. Refer to the UTEP HOOP (<https://www.utep.edu/hoop/section-2/student-conduct-and-discipline.html>), and the guidelines here (see <https://www.utep.edu/student-affairs/osccr/student-conduct/academic-integrity.html>) for more information, and contact the Dean of Students or Dr. Hurtado if you have any concerns.

Some of your course work and assessments may submitted to SafeAssign, a plagiarism detecting software. SafeAssign is used review assignment submissions for originality and will help you learn how to properly attribute sources rather than paraphrase.

Note that this course may require you to work in groups at times and individually at other times. **Although reasonable collaboration will occur from time-to-time (on assignments, not exams), all work you turn for a grade in is expected to be your own!** You MUST learn to trust your own observations and interpretations (especially in the field) and NOT rely on those of others. This is your opportunity to learn the material and to hone your skills, so do not cheat yourself by copying the work of others. Show all your work and be prepared to explain it! Copying of other's work WILL be noticed and WILL NOT be tolerated.

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

Course Citizenship Policies:

This class will require interactions with your instructors and fellow students in an online, asynchronous environment. Think about your colleagues and your role in this group environment and in the current global circumstances. Collegiality, teamwork, and self-organization will make this class a great experience. Please consider the following guidelines as you interact with others online:

- Always consider your audience. Remember that members of the class and the instructors will be reading any postings.
- Respect and courtesy must be provided to classmates and to the instructors at all times. No harassment or inappropriate postings will be tolerated.
- When reacting to someone else’s message, address the ideas, not the person. Post only what anyone would comfortably state in a face-to-face situation.
- Blackboard is not a public internet venue, so all postings to it should be considered private and confidential. Whatever is posted on in these online spaces is intended for classmates and the instructors only. Please do not copy documents and paste them to a publicly-accessible website, blog, or other space. If students wish to do so, they have the ethical obligation to first request the permission of the writer(s).

The instructors will be exercising other important leadership skills with you throughout the course, emphasizing good team behavior and dynamics.

SARS-CoV-2/COVID-19 Policies:

In light of the ongoing spread of SARS-CoV-2 virus and the pandemic of COVID-19, it has become necessary to develop and execute online alternatives to the face-to-face courses at UTEP. The intent of how I am organizing this course is to maintain the required social distancing. Note that if COVID-19 conditions deteriorate in the City of El Paso, all course and lab activities may be transitioned to remote delivery. Please follow the updates and guidance from UTEP (<https://www.utep.edu/resuming-campus-operations>) and from our Local, State, and Federal government in that regard during the ongoing crisis. If you have any difficulties or concerns related to the circumstances, please reach out to the instructors and/or take advantage of the student support resources UTEP is providing. There is a training module and video posted on our Blackboard site. UTEP policies currently include the following:

This course has a hybrid component that permits for actual face-to-face interactions with faculty and other students enrolled in this class. As you enter or exit campus (or any off-campus class meeting), minimize the number of encounters with others to avoid infection by the SARS-CoV-2. Use preventive safety and health

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

measures at all times until informed otherwise by campus officials. Everyone who attends in-person activities must wear a face covering over their nose and mouth at all times while such meetings are taking place, maintain social distance of a minimum of 6 or more feet, and practice proper hygiene practices. If you choose not to wear a face covering, you may be asked to leave. If you remove your face covering, you will be asked to put it on or leave. Students who refuse to wear a face covering and/or refuse to follow preventive COVID-19 guidelines will be dismissed from the class and will be subject to further disciplinary action according to the UTEP Handbook of Operating Procedures (Section 1.2.3: Health and Safety; Section 1.2.2.5: Disruptions).

Students have the following responsibilities:

- Complete COVID-19 student training at the start of the semester by visiting <https://covidtraining.questionpro.com/>
- You must STAY AT HOME and REPORT if you: (1) have been diagnosed with COVID-19, (2) are experiencing COVID-19 symptoms; or (3) have had recent contact with a person who has received a positive coronavirus test. Reports should be made at <http://screening.utep.edu>. You are advised to minimize the number of encounters with others to avoid infection. **Students are not permitted on campus (or on field trips) when they have a positive COVID-19 test, exposure, or symptoms.**
- For each day that you attend campus – for any reason – you must complete the self-screening questions on the UTEP screening website (<http://screening.utep.edu>) **prior to arriving on campus on each visit.** The website will verify if you are permitted to come to campus. **The same applies to field trips.**
- Wear a face covering at all times when in common areas of campus or when others are present.
- When on campus or when others are present, maintain 6 feet of separation at all times, including when talking with others.
- Follow campus signage indicating specific entry and exit doors and pathways.
- When on campus, do not cluster in groups and keep hallways open.
- Wash hands and/or apply hand sanitizer prior to entering classroom and after leaving a classroom. Do not touch face until after your hands are washed/sanitized.
- Use an alcohol wipe, provided outside of classrooms, to sanitize desks, chairs, or tables.

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

- Clean/sanitize shared tools, equipment, and materials after use.
- Follow faculty protocols for leaving and re-entering classrooms.
- Contact the instructor if **temporary** accommodations due to COVID-19 are needed (i.e., due to positive COVID-19 test, symptoms, or exposure).
- Students who are considered high risk according to CDC guidelines and/or those who live with individuals who are considered high risk may contact Center for Accommodations and Support Services (CASS) to discuss temporary accommodations for on-campus/face-to-face courses and activities.
- If unable to wear a face covering (e.g., for medical reasons), the best course of action is to enroll in courses that are entirely online or to work with academic advisors, if necessary, to identify alternative courses. If this is not possible, request an accommodation CASS prior to reporting for in-person activities. **Students who receive an accommodation to not wear a face covering must share this with the professor and work to minimize contact with others in the class.**

Non-compliance with on-campus UTEP policies can result in dismissal from the course, a report to OSCCR (<https://cm.maxient.com/reportingform.php?UnivofTexasElPaso>), or to Campus Police.

Accommodations Policies:

UTEP is committed to providing reasonable accommodations and auxiliary services to students, staff, faculty, job applicants, applicants for admissions, and other beneficiaries of University programs, services and activities with documented disabilities in order to provide them with equal opportunities to participate in programs, services, and activities in compliance with sections 503 and 504 of the Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act (ADA) of 1990 and the Americans with Disabilities Act Amendments Act (ADAAA) of 2008. Reasonable accommodations will be made unless it is determined that doing so would cause undue hardship on the University. Students requesting an accommodation based on a disability must register with the UTEP Center for Accommodations and Support Services (CASS) (<https://www.utep.edu/student-affairs/cass/ada-policies/accommodations-for-individuals-with-disabilities%20.html>) Note that the student is responsible for following up with the instructors about any accommodation letters and instructions.

Military Service:

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

If you are a military student with the potential of being called to military service and/or training during the course of the semester, you are encouraged to contact the instructors as soon as possible.

Student Resources:

UTEP provides a variety of student services and support, including:

- UTEP Library: Access a wide range of resources including online, full-text access to thousands of journals and eBooks plus reference service and librarian assistance for enrolled students.
- RefWorks: A bibliographic citation tool; check out the RefWorks tutorial and Fact Sheet and Quick-Start Guide.
- University Writing Center (UWC): Submit papers here for assistance with writing style and formatting, ask a tutor for help and explore other writing resources.
- Math Tutoring Center (MaRCS): Ask a tutor for help and explore other available math resources.
- History Tutoring Center (HTC): Receive assistance with writing history papers, get help from a tutor and explore other history resources.
- Help Desk: Students experiencing technological challenges (email, Blackboard, software, etc.) can submit a ticket to the UTEP Helpdesk for assistance. Contact the Helpdesk via phone, email, chat, website, or in person if on campus.
- Military Student Success Center: UTEP welcomes military-affiliated students to its degree programs, and the Military Student Success Center and its dedicated staff (many of whom are veterans and students themselves) are here to help personnel in any branch of service to reach their educational goals.
- Center for Accommodations and Support Services (CASS): Assists students with ADA-related accommodations for coursework, housing, and internships.
- Counseling and Psychological Services: Provides a variety of counseling services including individual, couples, and group sessions as well as career and disability assessments.

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

Course Outline and Schedule:

Note that **the details of our schedule are subject to change** as the semester progresses, particularly in light of the COVID-19 situation. Please be flexible, and let Dr. Hurtado know if you have any questions or concerns. A preliminary, detailed schedule is attached.

Schedule Notes:

- 1. All lecture materials will be online. While there may be one or two live (and recorded), all-hands meetings on Blackboard, all lectures will be pre-recorded for you to watch asynchronously. While online, the lecture component is not self-paced. We will follow a tight weekly schedule.*
- 2. Much of the lab materials will be online, but will not be self-paced. We will follow a tight weekly schedule.*
- 3. All new materials, including assignments, will be posted to Blackboard by noon on Tuesdays. Assignments are due by 11:59 pm on the following Tuesday.*
- 4. There will be weekly opportunities for face-to-face video “office hours” with the instructor/TAs using Blackboard Collaborate and also the Discussion Boards (see schedule above).*
- 5. Four (4) of the labs will involve face-to-face field exercises at Mt. Cristo Rey. Students will travel to the field site on their own where we will meet as small groups. Note the dates of field trips.*

Your continued enrollment in this course implies your acceptance of the policies set by the instructor!

<u>Week</u>	<u>Dates</u>	<u>Topics and Labs</u>
Week 1	Aug. 24-28	Introduction; Earth Materials <i>Lab 1: The Campus Andesite (Virtual Field Trip)</i> <i>Lab 2: Rocks & Minerals (in conjunction with Mineralogy)</i>
Week 2	Aug. 31-Sept. 4	Basic Geologic Principles; Observational Field Science <i>Lab 3: Transmountain Road (Virtual Field Trip)</i> <i>Homework 1: Reading Assignment and Microsoft Word</i>
Week 3	Sept. 8-11	Geologic Time; Earth History <i>Lab 4: Stratigraphic Principles & Crosscutting Relationships</i> <i>Homework 2: Research Assignment and Microsoft PowerPoint</i>
Week 4	Sept. 14-18	Topographic and Geologic Maps; Fieldwork Basics <i>Lab 5: Topographic Maps</i> <i>Homework 3: Quantitative Assignment and Microsoft Excel</i>
Week 5	Sept. 21-25	Earth Structure; Geophysical Concepts <i>Lab 6: Cristo Rey Field Trip 1 (Sept. 25 OR Sept. 26)</i> <i>Homework 4: Geophysics</i>
Week 6	Sept. 28-Oct. 2	Plate Tectonics; Orogenesis <i>Lab 7: Cristo Rey Field Trip 2 (Oct. 2 OR Oct. 3)</i> <i>Homework 5: Geochemistry</i>
Week 7	Oct. 5-9	TBD <i>Lab 8: Orogenesis and Plate Tectonics in Google Earth</i> Midterm Examination: will be online this week
Week 8	Oct. 12-16	Structural Geology <i>Lab 9: Structural Geology</i>
Week 9	Oct. 19-23	Metamorphism <i>Lab 10: Cristo Rey Field Trip 3 (Oct. 23 OR Oct. 24)</i>
Week 10	Oct. 26-30	Earthquakes, Active Tectonics, and Geologic Hazards <i>Lab 11: Cristo Rey Field Trip 4 (Oct. 30 OR Oct. 31)</i>
Week 11	Nov. 2-6	Sedimentary Processes <i>Lab 12: Surface Processes in Google Earth</i> <i>Homework 6: Geomorphology</i>
Week 12	Nov. 9-13	Surface Processes <i>Lab 13: Mineralogy and Economic Geology at Orogrande and Bishop's Cap, NM (Virtual Field Trip Project)</i>
Week 13	Nov. 16-20	Igneous and Volcanic Processes <i>Lab 14: Hydrology, Faults, Volcanoes, and Planetary Field Geology in the Potrillo Volcanic Field, NM (Virtual Field Trip Project)</i>
Week 14	Nov. 23-25	Thanksgiving Break Week
Week 15	Nov. 30-Dec. 3	TBD

Final Examination: scheduled by UTEP for Tuesday, December 8, 10 am-12:45 pm (will be online)
