Course Syllabus: MICR 2330 Microorganisms and Diseases (CRN#21785)

Classroom: Physical Science Building #115
Instructor: Jianying Zhang, MD, Ph.D., Professor, Department of Biological Sciences, UTEP
Office: B3.124; Lab: B3.200
Email: jzhang@utep.edu
Phone: 915-747-6995 (O); 915-747-5343/5183 (L)
Class Hours: TR 3:00-4:20 pm; Office Hours: TR 01:30-03:00 pm
Class Email Account: micr2330_class@yahoo.com

Required Materials:

Course Description:
 Survey of microorganisms important to humans with emphasis on pathogens;
 Diagnostic procedures for pathogenicity and immune responses to the more common pathogens.

Course Objectives:
After the completion of this course, students can understand the basic concepts and information in the science of microbiology, and are able to describe and use the general methods learned from this course to study microorganisms important to humans with emphasis on pathogens.

Evaluation:
Four quizzes and two projects will be given for this course. The final examination will be comprehensive, covering all reading and lectures, and will be given during the last week of this semester. The exercises (Review Questions) that accompany each chapter will be given. The exercises encourage students to immediately use their newly acquired knowledge and, thus, by practice, improve retention.

Grading:
Your grade in this course is based on a combination of quizzes, exam, and participation in class. Grades are based on a straight percentage scale; there is no curve and no +/- grades are awarded. So, an A=100-90%, a B=89.9-80%, a C=79.9-70%, a D=69.9-60%, and F=<60%. Quizzes: 180 points; Projects: 60 points; Final Exam: 130 points; Class Participation & Attendance: 30 points; Course Total: 400 points

Make-up Policy: For any reason, if you are not able to be in classroom for the quizzes/exams, you have to inform instructor before the quizzes/exams. Then the instructor can reschedule your missed quizzes/exams. Otherwise, it will result in a grade of 0% for the quizzes/exams.

Attendance, Absence and Drop Policy: Attendance in this course is critical to your success. Not only attending lecture aid in your understanding of course material, attendance is mandatory. If missing four class hours, you will be dropped from this class. If you have a serious illness or a legitimate excuse (includes military personnel called to active duty or training) for being out-of-town, make arrangements with instructor before you leave. April 4 is the last day students may drop with an automatic “W”.

Academic Integrity Policy: UTEP’s policies regarding academic integrity apply in this course. Information on this policy can be found at http://academics.utep.edu/Default.aspx?tabid=23785

Civility Statement: Please be respectful of all students’ right to learn without disruptions. In line with this statement please make an active effort to respect the other students in the classroom. Avoid making excessive amounts of noise and try to remember to turn off your cell phone.

Disability Statement: If you have a disability and need classroom accommodations, please contact The Center for Accommodations and Support Services (CASS) at 747-5148, or by email to cass@utep.edu, or
visit their office located in UTEP Union East, Room 106. For additional information, please visit the CASS website at www.sa.utep.edu/cass.

The following schedule is tentative, and the dates of lectures may be changed.

1\textsuperscript{st} week:

- Introduction
- Ch 01: Human and the Microbial World

2\textsuperscript{nd} week:

- Ch 02: The Molecules of Life
- Ch 03: Microscopy and Cell Structure

3\textsuperscript{rd} week:

- Ch 04: Dynamics of Prokaryotic Growth
- Ch 05: Control of Microbial Growth

4\textsuperscript{th} week:

- Ch 06: Metabolism: Fueling Cell Growth
- Ch 07: The Blueprint of life, from DNA to Protein

5\textsuperscript{th} week:

- Ch 08: Bacterial Genetics
- Ch 09: Biotechnology and Recombinant DNA

6\textsuperscript{th} week:

**Quiz 1 (Chapters 1-8)**

- Ch 10: Classification and Identification of Prokaryotes

7\textsuperscript{th} week:

- Ch 12: The Eukaryotic Members of the Microbial World
- Ch 13: Viruses, Viroids, and Prions

(1\textsuperscript{st} Project Due)

8\textsuperscript{th} week:

**Spring Break**

9\textsuperscript{th} week:

- Ch 14: The Innate Immune Response
- Ch 15: The Adaptive Immune Response

10\textsuperscript{th} week:

- Ch 16: Host-Microbe Interactions
- Ch 17: Immunologic Disorder

11\textsuperscript{th} week:

- Ch 18: Applications of Immune Responses
- Ch 19: Epidemiology

12\textsuperscript{th} week:

- Chapter Review and Project

**Quiz 2 (Chapters 9-18)**

13\textsuperscript{th} week:

- Ch 20: Antimicrobial Medications
- Ch 21: Respiratory System Infections

(2\textsuperscript{nd} Project Due)

14\textsuperscript{th} week:

- Ch 22: Skin Infections
- Ch 24: Digestive System Infections

15\textsuperscript{th} week:

- Ch 27: Blood and Lymphatic Infections
- Ch 28: HIV Disease and Complications of Immunodeficiency

16\textsuperscript{th} week:

**Quiz 3 (Chapters 19-22, 24, 27, 28)**

Final Review

17\textsuperscript{th} week:

- Final Examination (Thursday, May 15th, 2014, 4:00-6:45pm)
