Biology 6399: Dissertation (3 units)

BRB 3.216

**Instructor:** Dr. Kyle L. Johnson, Department of Biological Sciences

Office hours: By appointment

Office location: Biosciences 3.148

Phone: (915) 747-6889

Email: [kljohnson@utep.edu](mailto:kljohnson@utep.edu)

**Text:** None.

**Prerequisites:** Instructor approval.

**Objective:** This is a 3-unit research course, to be taken by graduate students in the Pathobiology/Biological Sciences Doctoral program; students should be enrolled in this course during the final semester that they are working on (and will defend) their Ph.D. dissertation. Research projects will be in the area of virology. Additional responsibilities may include, but are not limited to: 1) writing and defending the dissertation; 2) attending lab meetings and seminars; 3) meeting with members of the student's committee; 4) presenting data at research symposia and scientific meetings; 5) experimental design and performance; and 6) discussing results and comparing them with those from the literature.

It is expected that students will dedicate a minimum of 10 hours per week to the completion of this course and its requirements.

Specific research projects and responsibilities will be assigned at the beginning of the semester for each student.

**Exams:** None.

**Grading:** Letter grades for this course will be determined based primarily on student attendance and performance, and will be assigned as follows:

90-100%	A
80-89%	B

70-79%	C
60-69%	D
59% or less	F

**Drop date:** To receive an automatic "W", students must drop or withdraw from this class by the drop date listed in the semester's academic schedule. After this date, a "W" can only be assigned by the Dean of the College of Science, and is only granted under exceptional circumstances.
