Course objectives:

This course provides an overview of assessment of and for literacy learning, with an emphasis on identifying and correcting reading and writing delays in order to prevent literacy difficulties. Participants will learn the theory and practice of an integrated and recursive model of literacy and assess, plan & manage literacy tasks for students at *emergent, beginning, transitional, intermediate, and advanced* stages of literacy development. The course will provide numerous opportunities to connect literacy theories with the State Board of Education Certification (SBEC) standards, Texas Prekindergarten Guidelines and the elementary Texas Essential Knowledge and Skills for English Language Arts & Reading (ELAR TEKS). You will demonstrate knowledge and understanding of formal and informal literacy assessments and analyze students' results on literacy assessments to plan systematic, sequential, explicit and strategic standards-based (TEKS) instruction. This core course incorporates the science of teaching reading as well as the State Board for Educator Certification (SBEC) standards and Professional Responsibilities (PPR) EC-12 competencies:

- Understands basic concepts and principles of assessment and plans instruction and ongoing assessments that motivate students and are responsive to their developmental characteristics and needs (SBEC, Standard 10; PPR I, Competency 1).
- Understands the characteristics of students at various literacy stages and designs literacy assessments & experiences that are responsive to differences among students learning to read and reading to learn (SBEC, Standard 4; PPR I, Competency 2).
- Demonstrates knowledge of the types, purpose, and characteristics of varied literacy assessments and how to use assessment data to design differentiated and effective tiered literacy instruction (PPR I, Competency 3).
- Manages group and individual literacy assessments in order to select texts, plan and deliver differentiated literacy instruction and flexible grouping (PPR I, Competency 4).
- Applies principles and strategies of standards-based literacy instruction and make instructional decisions to support students' literacy development, engagement, and motivation using varied instructional technologies (SBEC, Standard 11; PPR I, III; Technology Applications I-V, Competency 7).
- Monitors student performance and achievement using decoding and comprehension literacy assessments; provides students with timely, high quality intervention; and responds flexibly to address a student's identified need (PPR I, III; Technology Applications I-V, Competency 10)

Evaluation & Coursework Requirements of Students:

Literacy Assessment Data Analysis & Lesson Plan Response (20 points—10 points each)

(1) Alphabet Principle Assessment Data Analysis & Lesson Plan Response (10 points) This is a two-part assignment that requires you to interpret and analyze a class composite of students' phonemic awareness and phonics test results. **I will provide the class composite data for you to analyze for this assignment.** Part two is a differentiated small group (4-6 students) alphabet principle lesson plan response based on the results of the assessment data.

Part 1: Assessment Data Analysis: use the **provided** classroom composite form and analyze the alphabet, phoneme awareness, & phonics skills for the whole class. Analyze a class students' ability to:

- ✓ identify initial & ending phonemes & alphabet letters in CVC & CVVC/CVCe spoken words (phonological awareness);
- ✓ identify middle vowel phoneme & alphabet letter in CVC & CVVC/CVCe spoken words.

- ✓ CVC, CVVC & CVCe words (phonological awareness);
- ✓ blend phonemes in CVC & CVVC/CVCe spoken words to form pronounceable words (phonological awareness);
- ✓ segment & count phonemes in CVC & CVVC/CVCe spoken words to form pronounceable words (phonological awareness);
- ✓ ability to rapidly identify high frequency sight words.
- ✓ decode the short vowel sound in written CVC words.
- ✓ decode the long vowel sound in written CVVC & CVCe words.

Part 2 Lesson Plan Response: Group the students together according to their achievement test results and write a differentiated lesson plan for an identified homogeneous group (4-5) of students. Use one alphabet principle teaching strategy from pages 53-69 in the *Making Sense of Phonics* textbook for the lesson. Clearly describe the sequence focus and the corresponding procedures for steps 1 through 4 or 5 to teach the letter-sound correspondence. Clearly describe the formative assessment that will use to determine students' mastery of the lesson TEKS. **Points will be deducted for late submission of the assignments.** A rubric for the Alphabet Principle Analysis & Lesson Plan can be found in the appendix.

- (2) **Word Study, Fluency, & Comprehension Assessment Data Analysis & Lesson Plan Response (10 points)** This is a two-part assignment that requires you to interpret and analyze a class composite of students' word accuracy, fluency, morphemic analysis and comprehension test results. **I will provide the class composite data for you to analyze for this assignment.** Part two is a differentiated small group (5-6 students) word study, fluency & comprehension lesson plan response based on the results of the assessment data.

Part 1: use the classroom composite form of students' results on an Informal Reading Inventory (IRI) to determine the number of words read per minute (WPM/fluency); syllabication & morphemic analysis skills and comprehension skills. Analyze students:

- ✓ oral reading word accuracy (independent, instructional & frustration) and comprehension on a grade level reading passage.
- ✓ automaticity and reading rate (WPM) in comparison to oral reading fluency grade level norms or benchmarks;
- ✓ knowledge of syllabication of multisyllabic words with V/CV open syllables;
- ✓ knowledge of syllabication of multisyllabic words with VC/CV closed syllables.
- ✓ Knowledge of syllabication of words with final e (VCe) patterns;
- ✓ knowledge of literal, inferential, & evaluative comprehension skills.

Part 2 Lesson Plan Response: Group the students together according to their achievement test results and write a differentiated lesson plan for an identified homogeneous group (4-5) of students. Plan the lesson objective, and the phonics/spelling, fluency, & author's purpose & craft TEKS. Follow the procedures for the Syllasearch activity on pages 112-121 in the *Making Sense of Phonics* textbook. Clearly list the title, author, and chapter of the book for the lesson focus and list 8 multisyllabic open or closed syllable words from the book/first chapter. Provide a clear description of procedures to teach word study/syllabication, fluency, & comprehension with the following:

- Word study activity (10-12 minutes) procedures to teach the Syllasearch activity using 8-10 multisyllabic words from the literary text;

- *Fluency activity* (8-10 minutes) procedures describing how students in the group will practice repeated oral reading of the literary text using choral reading, phased-cued reading, or echo reading;
- *Comprehension activity* (12-15 minutes) clear description of one literal, three inferential & two evaluative comprehension questions about the literary text that requires students to use their background knowledge & understanding of text structure, vocabulary & literary devices to comprehend the author's purpose & craft.

Points will be deducted for late submission of the assignment. A rubric for the Word Study, Fluency, & Comprehension Assessment Data Analysis & Lesson Plan Response can be found in the appendix.

The Science of Teaching Reading Reflection Paper (10 points) As part of this course, you will have the opportunity to reflect on the pedagogy, foundational skills, comprehension development, and assessment analysis & instructional response related to the science of teaching reading. Review the ELAR TEKS and the *Texas Prekindergarten Guidelines* and think about an integrated and recursive model of literacy and the characteristics of students at the *emergent, beginning, transitional, intermediate and advanced* literacy stages of reading development. To develop your reflection paper, review the key principles of reading pedagogy and how teachers use literacy assessment results to plan and manage standards-based (TEKS), systematic and explicit reading instruction for students learning to read and reading to learn as well as how teachers meet the needs of struggling readers to prevent reading difficulties. Describe how teachers explicitly and systematically implement the foundational reading skills: *oral language development; phonological & phonemic awareness; the alphabet principle & print awareness; phonics & word identification skills; morphemic awareness & syllabication*. Explain how teachers motivate readers and use increasing complex texts and research-based strategies and best practices to promote students' *vocabulary knowledge, reading fluency, metacognitive comprehension strategies; and reading comprehension of literary & informational texts*. Finally, depict the four types of struggling readers and how teachers analyze assessment data and plan effective tier 2 differentiated instruction and tier 3 intensive intervention to address students' phonological & phonemic awareness, phonics skills & morphemic awareness, reading fluency, vocabulary and comprehension knowledge. The science of teaching reading reflection paper should be 4-5 pages, double-spaced in length, and follow APA format. Use the following link as your resource: <http://owl.english.purdue.edu/owl/resource/560/01/>. A rubric for your science of teaching reading reflection paper can be found in the appendix.

Diagnostic Literacy Kit (5 points). In order to organize a variety of informal literacy assessments for use with the literacy case study report, you will create a literacy diagnostic kit. Each student will create their own literacy diagnostic kit. Using copies of assessments from the Cockrum & Shanker textbook, the Elementary Spelling Inventory (ESI) Feature Guide, and literacy assessments distributed in class, you will organize literacy assessments according to the following categories: *Phonemic Awareness & Letter Knowledge; Elementary Spelling Inventory; Assessing Decoding Skills—Phonics & Structural Analysis; Assessing Fluency & Comprehension Knowledge—Sight Vocabulary Assessments, Grade-level Oral Reading Passages, & Estimate of Reading Comprehension; Reading Motivation Survey; and Literature Quick Write*. **Please make the one-sided copies of pages** from the Cockrum & Shanker textbook BEFORE class. You will

not have time to make copies on the day of class. A rubric for the literacy diagnostic kit can be found in the appendix.

Comprehension Strategy for Informational Text (Read Aloud) Lesson Demonstrations (10 points). In order to apply an understanding of how to teach comprehension strategies for informational texts, you will work with a partner or alone (only) to demonstrate a reading comprehension procedure to increase students' use of background knowledge to comprehend an **informational picture** book. Select an appropriate informational picture book and one of the following comprehension strategies for teaching informational text from pages 378-399 in Reutzel and Cooter text:

Building Students' Background Knowledge & Engagement

- The Picture Walk (pp.380-381)

Building Students' Ability to Recognize Organizational Patterns or Text Structures

- Graphic Organizers: Visual Representation of Informational Text Structure (pp. 386-387)

Determining an Author's Central Idea & How Important Ideas Fit Together

- Close Reading of Informational Texts (pp. 387-390)

Teaching Types of Questions & Informational Sources Available to Answer the Question

- Question-Answer Relationships (QAR): Answering Questions about Text (pp. 393-394)
- Question Generation (pp.394-396)

Using the Text Structure to Retell the Main Idea & Details.

- Informational Text Oral Readings (pp. 397-398)

On the day of presentations, both students will act as the **teacher** and **share the teaching role**; you will select 4-5 volunteers from the class to act as your students **for a 12-15-minute** comprehension strategy with informational picture book lesson demonstration. Points will be deducted for the lesson demonstrations exceeding 15 minutes.

Teacher demonstration of the comprehension teaching strategy by both students (6-8 minutes): Introduce the title & author of the informational text.

- ✓ **BEFORE Teacher Read Aloud:** Preview the text illustrations & vocabulary. Ask students what they notice about the pictures/words and set a purpose for reading the informational book.
- ✓ **DURING Teacher Read Aloud:** Read the text aloud to the students and stop intermittently to conduct a "think aloud" about the text structure and key vocabulary. A presenter will conduct a think aloud.
- ✓ **AFTER Reading:** A presenter will model how to complete the comprehension activity as students watch the demonstration.

AFTER Reading Student Practice (5-6 minutes): students re-read the informational text to complete the comprehension strategy. Follow the comprehension strategy procedures (Reutzel & Cooter) to build students' background knowledge; foster social interactions; build vocabulary; understand text structure; generate questions & answer; or use of multiple comprehension strategies.

Handout/Preparation (one page) with the following information:

1. Title of comprehension strategy & grade level;
2. Title & author of informational text;
3. Multiple Genres: *Genres (D) Recognize characteristics & structures of Informational Texts TEKS standard;*

4. A short explanation of the purpose of the comprehension strategy lesson.
5. Description of the steps for teaching the comprehension strategy before, during, and after reading;
6. Formative assessment of comprehension strategy

A rubric for the Comprehension Strategy for Informational Text (Read Aloud) Lesson Demonstrations can be found in the appendix

Literacy Case Study Report (15 points) As part of this course, you and a partner will have the opportunity to compile a case study report that interprets & summarizes a variety of literacy assessments. Select a struggling learner in grades **one to five** and administer a variety of reading & writing assessments throughout the course. Partners (groups of three are not allowed) will analyze the results of literacy assessments, plan instruction, and develop literacy goals to improve the student's reading and writing competence. Upon completing the literacy diagnostic kit, begin administering the literacy tests, and then describe & interpret the results of each assessment. You will administer the following literacy assessments:

- Phonemic Awareness Assessments (if PA problems)
- Decoding Tests: Phonics and/or Structural Analysis Assessments
- Elementary Spelling Inventory
- Sight Vocabulary Assessment
- Fluency Assessment of Oral Reading (Grade Level Passages)—video or tape record.
- Estimate of Reading Comprehension Level
- Reading Motivation Survey
- Literature Quick-Write

The case study report should include:

- a) Background Information: a description of your diagnostic subject (the student).
- b) Assessments Administered: a description of each assessment administered the student's scores.
- c) Analysis & Interpretation: an analysis of the results of each test administered and the scores are interpreted.
- d) Summary: a clear summary of the grade level of the student's oral reading accuracy rates i.e. independent, instructional, & frustration reading levels based on the results of the **oral reading passages** that were administered to your diagnostic subject.
- e) Recommendations: a clear summary of **5-6 research-based instructional recommendations** for *phonetic blending; word building; reading fluency; reading comprehension & writing* based on the student's results on literacy assessments.
- f) Goals for Future Instruction/Intervention: a clear description of 4 goals aligned with grade level TEKS standards for *word study; reading fluency, reading comprehension; & writing* future instruction/intervention.
- g) Artifacts: the student's spelling & writing samples and the examiner's copy for each assessment administered as well as the spelling feature analysis sheet are scanned into **one** pdf document.

Your literacy case study report may be a PDF or Word document. For week #15 class, you will work with your partner to review administered literacy assessments (artifacts) and revise your literacy case study reports for alignment of 5-6 research-based reading & writing recommendations for future instruction tied to assessment results as well as the 4 goals tied to

grade-level TEKS for future instruction/intervention. Your literacy case study revision report will be submitted on BlackBoard for credit. **You and your partner will submit your case study report and artifacts as one pdf file to kmein@utep.edu.** A rubric for the literacy case study report can be found in the appendix.

Midterm & Final Exams (20 points, 10 points each)– There will be two exams in this course, one mid-term and one final. One key purpose of these exams is to help prepare you for the TExES Core Subjects and PPR certification exams that you are required to take before student teaching. Both the mid-& final exam will be comprehensive covering all required readings, class notes & assignments. Questions will be multiple choice and short answer and will be similar to those found on the TExES/PPR exams.

Quizzes/Formative Assessments (20 Points—2 points each for scores of 80% and above). In the course syllabus, each week’s course vocabulary and required readings are clearly outlined. Before each class, you are expected to read the required readings and maintain a digital Glossary of RED 4341 Terms. After reading the material, write the vocabulary word and definition which you will find in the course readings. Throughout the course, you are expected to maintain the glossary of RED 4341 terms; the required readings and glossary of RED 4341 terms will form the basis of quizzes/formative assessments. When reading the week’s class notes on BlackBoard (BB), you will have an opportunity to informally assess your knowledge of the week’s vocabulary terms. **You must receive a score of 80% or higher on each quiz in order to get the 2 points credit.** Quiz questions will be multiple choice and short answer and similar to those found on the TExES/PPR exams; you can use your glossary of terms when taking the quizzes, midterm, and final exams. **All quizzes will be online and must be completed by Thursday at midnight.**

You can do so by providing documentation to the Center for Accommodations and Support Services (CASS) located in Union E Room 106. Students who have been designated as having a disability must reactivate their standing with CASS on a yearly basis. Failure to report to this office will place a student on the inactive list and nullify benefits received. If you have a condition which may affect your ability to exit safely from the premises in an emergency or which may cause an emergency during class, you are encouraged to discuss this in confidence with the instructor and/or the director of CASS. You may call 919-747-5148 for general information about the Americans with Disabilities Act (ADA).
