SCHOLASTIC INTEGRITY

Academic dishonesty is prohibited and is considered a violation of the UTEP Handbook of Operating Procedures. It includes, but is not limited to, cheating, plagiarism, and collusion. Cheating may involve copying from or providing information to another student, possessing unauthorized materials during a test, or falsifying research data on laboratory reports. Plagiarism occurs when someone intentionally or knowingly represents the words or ideas of another as one’s own. Collusion involves collaborating with another person to commit any academically dishonest act. Any act of academic dishonesty attempted by a UTEP student is unacceptable and will not be tolerated. All suspected violations of academic integrity at The University of Texas at El Paso must be reported to the Office of Student Conduct and Conflict Resolution (OSCCR) for possible disciplinary action. **POLICIES AND PROCEDURES**

*Food insecurity, mental health, and access to support services*

Learning happens only when our bodies and minds are well—and all of us occasionally face challenges to wellness that interfere with our learning. I want you to be aware of a variety of support services on campus that can help you navigate these challenges and obstacles. **The UTEP Food Pantry** is available to help address students’ basic food needs, as well as needs for personal hygiene items and access to additional support programs for students and their families. It is located at Memorial Gym Room 105, hours and more information posted online at [https://www.utep.edu/student-affairs/foodpantry/](https://www.utep.edu/student-affairs/foodpantry/). The office of **Counseling and Psychological Services** offers mental health counseling, crisis counseling, and many workshops on wellness topics—all of which are free to UTEP students. Their hours and services are posted online at [https://www.utep.edu/student-affairs/counsel/resources/services-students.html](https://www.utep.edu/student-affairs/counsel/resources/services-students.html). Additional support services and resources are listed at [https://www.utep.edu/student-affairs/resources/index.html](https://www.utep.edu/student-affairs/resources/index.html). If you are facing an obstacle to your learning, I encourage you to check out these resources, or let me know, and I will be happy to help you find the supports you need. You are not alone.

*Changes to the syllabus*

I strive to respond in my teaching to the shifting conditions of our class community: current events, our discussions, our interests, our extant experiences, and needs for growth. Some changes may be made to the syllabus along the way. I will always notify you or ask you to participate in the decision to make changes. If there are significant changes, the updated syllabus will be made available via email.
COURSE ASSIGNMENTS/REQUIREMENTS

Quick Writes/Written Closure Reflections
A Quick Write is a strategy used to develop writing fluency, to build the habit of reflection into a learning experience, and to informally assess current thinking. The strategy asks learners to respond in 5–10 minutes to an open-ended question or prompt posed before, during, or after reading or [viewing]. Its purpose is to activate prior knowledge, help make personal connections, promote reflection about key content concepts, encourage critical thinking, organize ideas for better comprehension, and demonstrate understanding of key concepts. You will be writing quick writes on articles, activities and viewpoints of documentaries presented in class, as well as, closure reflections at the end class. There will be no make-ups for missed Quick Writes/Written Closure Reflections due to non-attendance.

The Fundamental 5 Observation and Reflection
Each month students will complete an observation focused on the Fundamental 5 of the month. Students will be required to observe their mentor teacher or other teacher(s) on campus to complete the observation and reflection. We will meet face to face the last week of each month to connect The Fundamental 5 observation and reflection to our learning.

PPR 240 Tutoring Check Points
There will be 4 check points throughout the semester to ensure completion of PPR exam preparation on 240 tutoring.
Check 1: 25% Completion
Check 2: 50% Completion
Check 3: 75% Completion
Check 4: 100% Completion

Bridging the The Fundamental 5 to The POP Cycle
You will create, implement and evaluate a lesson plan modeled from your second POP cycle. The lesson plan will include detailed sections - knowledge of self, knowledge of students, student achievement chart, knowledge of curriculum and resources, and knowledge of standards, teaching and video taping one or more of your designed lessons in your assigned Residency I classroom and reflective analysis of your teaching (via video analysis).

Response to Observation and Practice(RtOP)
To help you synthesize your observations during the semester you will be required to submit “Response to Observation/Practice” (RtOP) reflections.
There are 4 necessary components for each of your RtOP reflections.

1. First, OBSERVE
There are a series of observation tools that you will be provided that assist you in looking at classroom practice in a purposeful way. When you observe, you will collect data by using each tool to help you make sense of what you are seeing, what it means and questions that may emerge for you. Additionally, this process will help you with the CONNECT to Standard, Text and Self portion of the RtOP written below. You will attach this completed form with each RtOP and submit it within the required timeline in order to receive credit.
2. Second, **CONNECT to Standard** - In a written response, you will synthesize 5 of your observations by connecting the experience to one of the *TExES Secondary and All Levels Professional Development Standards:*
   - Standard I: The teacher designs instruction appropriate for all students that reflects an understanding of relevant content and is based on continuous and appropriate assessment.
   - Standard II: The teacher creates a classroom environment of respect and rapport that foster a positive climate for learning, equity and excellence.
   - Standard III: The teacher promotes student learning by providing responsive instruction that makes use of effective communication techniques, instructional strategies that actively engage students in the learning process, and timely, high-quality feedback.
   - Standard IV: The teacher fulfills professional roles and responsibilities and adheres to legal and ethical requirements of the profession.
For your RtOP, create the heading: “Connect to Standard,” and in this section you will need to examine the standards and select one to discuss in light of your observation/practice. How does the standard speak to what you observed, saw or did? Be specific and give a detailed discussion that thoroughly demonstrates your understanding of the standard you selected. Keep in mind, that you are expected to use all 4 standards at least once over the course of the semester; however, there is not a particular order you must go in—just make sure you address each of them thoroughly.

3. Third, **CONNECT to Text**
Under the heading: “Connect to Text” and in this section you will connect your experience to one or more of the course readings. How do the readings speak to what you are observing or doing? What are the contradictions and/or challenges? How do the readings help you understand what you are observing, doing and/or thinking about? Make sure you properly cite your response in APA or MLA style. No excuses about APA or MLA formatting. See [http://owl.english.purdue.edu/](http://owl.english.purdue.edu/) for an excellent resource.

4. Fourth, **CONNECT to Self**
Finally, for each RtOP, under the heading: “Connect to Self,” you are expected to connect what you have observed yourself. What are you learning about yourself? What are you learning about teaching elementary, middle, and/or high school? How does this awareness inform your notion of teaching and learning —that is, what it appears to be and what it can be? So, to recap, each RtOP should have the following components with appropriate section headings:
   - Connection to Standard
   - Connection to Text
   - Connection to Self
   - Attached Observation Tool

TExES: Texas Examinations of Educator Standards

**TExES Standards Incorporation:** Class activities and assignments use the best practice methods that support the competencies from the TExES Standards. Discussions will focus on how the lesson/activity/assignment addresses the competencies that support best practice while also providing pre-service teachers insight into questions that may appear on TExES.

**TExES Elementary Professional Development Standards**

(Pedagogy and Professional Responsibilities Standards, EC Grade-12)

Students, Content and Pedagogy, Selection of Instructional Goals and Objectives Resources, Designing Coherent Instruction, Assessment of Student Learning

* **Standard II.** The teacher creates a classroom environment of respect and rapport that fosters a positive climate for learning, equity, and excellence. Creating an Environment of respect and Rapport, Establishing an Environment for Learning and Excellence, Managing Classroom Procedures, Managing Student Behavior, Maintaining a Physical and Emotional Environment that is Safe and Productive

* **Standard III.** The teacher promotes student learning by providing responsive instruction that makes use of effective communication techniques, instructional strategies that actively engage students in the learning process, and timely, high-quality feedback. Communication, Engaging Students in Learning, Providing Feedback to Students, Demonstrating Flexibility and Responsiveness

* **Standard IV.** The teacher fulfills professional roles and responsibilities and adheres to legal and ethical requirements of the profession. Interacting and Communicating with Families, Interacting with Other Educators and Contributing to the School and District, Continuing Professional Development, Legal and Ethical Requirements and the Structure of Education in Texas

To demonstrate the incorporation of standards students will be practicing teaching using a constructivist and a multicultural curriculum designed to provide successful learning experiences for all the children. Through actual classroom teaching experience, students will be practicing concepts from all four standards listed above.
