GEOL 1211 Principles of Earth Science – CRN 12441

Instructor: Dr. Musa Hussein
Office: Geology Building 306B
Office hour: Via MS Team. Only by an appointment.
Phone: (915) 747-5424
Email: mjhussein@utep.edu (respond time 24-48 hours) or via class messages on Blackboard (respond time 24-48 hours)

Course Description
Study of the earth as a planet. A survey of physical processes operating in the atmosphere, lithosphere, and biosphere. Includes introduction to metrology, physical geology, soil, and vegetation. This course is divided into four blocks. Block one will focus on plate tectonics, and earthquakes. In block two students will learn about minerals, igneous rocks and volcanic hazards. Metamorphic rocks and deformation are significant parts of block three together with an introduction to the atmosphere. The course concluded by focusing on climate change, global warming and the desert regions.

Learning Outcome
At the end of the course students should be able to:
• Understand plate tectonics – how it works, what it explains, what it does not explain
• Understand the interrelationships between Earth processes and products/materials
• Recognize various tectonic settings on Earth
• Demonstrate an understanding of plate tectonics and the concept of a dynamic planet
• Understand what drives geologic processes
• Identify minerals by their physical properties, identify rocks by physical properties, composition, texture, and formation and relate them to their environment of formation
• Appreciate the variety of temporal and spatial scales of cycles
• Apply physics, chemistry, biology and mathematics to solve geologic problems
• Draw connections between geology, climate, climate change, and human activities events.

Attendance:
It is a key to success in this class. Students who begin the course and then stop participating will not be dropped. It is the responsibility of each individual student to drop this course if they stop participating.

Grading:

1. Exams (Four exams 30 points each) 50% of the overall grade. The questions will relate to the textbook. Exam review will be posted before each exam.
   NO MAKE-UP OR RE-OPEN OF EXAMS ARE GIVEN UNDER ANY CIRCUMSTANCES.

2. Assignment (12 assignments 10 point each) 40% of the overall grade
   Every week you will complete one reading assignment. I except that you will provide a full detailed answer for each question, short brief answers are not preferred and will not get the full grade, Beside the correct answer I will be looking for the way you express your answers. Late assignments will lose some points, assignments that are one week late will not be graded and will earn 0 points.

3. Six short (T, F) quizzes (5 points each) 10% of the overall grade:
   Only six quizzes. The quizzes serve to reinforce material. I assign them based on how you are doing with the material.

Grading scale:
90-100=A
80-89.9=B
70-79.9=C
60-69.9=D
less than 60 =F

Incomplete Grade Policy
Incomplete grades may be requested only in exceptional circumstances after you have completed at least half of the course requirements. Talk to me immediately if you believe an incomplete is warranted. If granted, we will establish a contract of work to be completed with deadlines.

Students with Disabilities
If you think you may have a disability or if you are experiencing learning difficulties, please The Center for Accommodations and Support Services (CASS) you contact them Monday through Friday 8:00a.m.-5:00p.m. Phone:(915) 747-5148 Union Building East Room 106 cass@utep.edu. They will provide any necessary accommodations. You should also meet with me in order to facilitate your needs. You are expected to provide documentation of your disability in order to make special arrangements for this class.
**Academic Misconduct**

Academic dishonesty will not be tolerated in this class (please refer to the student conduct code handbook for details regarding university policy and definitions). Dishonesty includes, but is not limited to, plagiarism on term papers, unauthorized notes brought into an exam; copying answers from another student or letting another student copy your answers. The penalty for the first offense will be a grade of zero points on the exam or assignment. Penalty for the second offense will be an F for the course. When someone in an audience is talking, or even whispering, it can be very distracting to those nearby. Since this type of behavior is quite rude and impedes the progress of other students, it will not be tolerated and anyone doing so will be asked to leave the classroom.

**Helpful Hints:**
- Review material regularly - multiple short study sessions over a period of weeks are more effective than a single "cram" the night before an exam.
- Form a study group. Each member should study material on their own before meeting with the group for discussion and comparison.
- Write out definitions and answers to essay questions; use a computer, the board in an empty classroom, or something else-don't just passively read your notes!
- Ask questions.
- Combine class notes, textbook, web materials, and old exams when studying – each provides a different perspective.
- Do the homework assignments. They will help your grade.
- Read your text in SMALL doses; don't plan on one massive reading session the night before the exam.
- Be sure to look at the pictures and diagrams in the text.

**Technology Requirements**

Course content is delivered via the Internet through the Blackboard learning management system. Ensure your UTEP e-mail account is working and that you have access to the Web and a stable web browser. Google Chrome and Mozilla Firefox are the best browsers for Blackboard; other browsers may cause complications. When having technical difficulties, update your browser, clear your cache, or try switching to another browser.

You will need to have access to a computer/laptop, scanner, a webcam, and a microphone. You will need to download or update the following software: Microsoft Office, Adobe Acrobat Reader, Windows Media Player, QuickTime, and Java. Check that your computer hardware and software are up-to-date and able to access all parts of the course.

If you do not have word-processing software, you can download Word and other Microsoft Office programs (including Excel, PowerPoint, Outlook and more) for free via UTEP’s Microsoft Office Portal. Click the following link for more information about [Microsoft Office 365](https://www.microsoft.com/en-us/microsoft-365) and follow the instructions.

**IMPORTANT:** If you encounter technical difficulties beyond your scope of troubleshooting, please contact the UTEP Help Desk as they are trained specifically in assisting with technological needs of students. Please do not contact me for this type of assistance. The Help Desk is much better equipped than I am to assist you!
COURSE OUTLINE: this schedule is subject to change.
