

# EE 4379 --- Computer Architecture

Fall 2019

**Instructor:** Dr. Michael McGarry  
Office: Engineering Annex 340  
Telephone: 747-6955  
Email: mpmcgarry@utep.edu

**Text:** Computer Organization and Design: The Hardware/Software Interface  
by David Patterson and John Hennessy (5<sup>th</sup> Edition)

**Optional Reference Texts:**

The C Programming Language by Brian Kernighan and Dennis Ritchie  
Verilog HDL by Samir Palnitkar [available as an eBook through UTEP library]

**Course Description:** Binary representation of characters, integers, floating point numbers and assembly language instructions. Integer arithmetic circuit design. Data path and control path design of a non-pipelined and pipelined microprocessor. Multi-processing architectures. Hierarchical memory design.

**Prerequisite:** *EE 3176/3376* with a grade of “C” or better. Prerequisite by Topic: (1) combinational and sequential digital design techniques (2) high-level language programming with the C programming language

**Class Hours:** Tuesdays and Thursdays 4:30PM to 5:50PM (CCSB Rm. 1.0204)

**Office Hours:** Tuesdays and Thursdays 3:00PM to 4:30PM (Eng. A340)

**Course Outline:**

Weeks 1-2: Computer Performance Analysis Techniques  
Week 3: MIPS Assembly Language  
Week 4: Support for Procedures; Instruction Formats  
Week 5: Character and Integer Representation; Computer Integer Arithmetic  
Week 6: Floating Point Number Representation  
Week 7: Verilog HDL  
Week 8: Midterm; Processor Architecture: Data Path  
Week 9: Processor Architecture: Data Path  
Week 10: Processor Architecture: Control Path  
Week 11: Pipelining  
Week 12: Parallel Structures: Multi-Issue, Multi-Core, Multi-Processor, Cluster  
Week 12: Exploiting Parallelism: Job, Thread, Data, and Instruction  
Weeks 13-14: Hierarchical Memory Design: Cache Memory  
Week 15: Hierarchical Memory Design: Virtual Memory

**Grading:**

Homework/Quiz	20%
Class Participation	5%
Lab 1 (due 9/17)	5%
Lab 2 (due 10/24)	5%
Lab 3 (due 11/5)	10%
Lab 4 (due 11/26)	15%
Midterm (10/15)	20%
Final (12/10 4PM)	20%

**Learning Objectives:**

1. Learn methods of analyzing the performance of computer systems
  - a. Characterization of program execution time
  - b. Characterization of power consumption
  - c. Amdahl's law
2. Learn the organization and architecture of computer systems
  - a. Hardware/Software Interface (Instruction Set Architecture)
    - i. MIPS ISA
  - b. Computer Representation of Instructions and Data
    - i. Signed/Unsigned Integers
    - ii. IEEE 754 Floating Point
    - iii. MIPS ISA Instruction Formats
  - c. Integer Arithmetic Circuit Design
  - d. Basic Microprocessor Design
    - i. Data Path (ALU, Register File, etc.)
    - ii. Control Path
    - iii. Pipelining
  - e. Parallel architectures and types of parallelism
    - i. Job-level parallelism
    - ii. Thread-level parallelism
    - iii. Data-level parallelism
    - iv. Instruction-level parallelism
    - v. Multi-issue, multi-core, multi-processor, cluster
    - vi. SISD, SIMD, MIMD
  - f. Hierarchical Memory Architectures
    - i. Exploiting temporal/spatial locality
    - ii. Cache organization
    - iii. Cache performance analysis
    - iv. Techniques to reduce miss rate
    - v. Techniques to reduce miss penalty
    - vi. Virtual memory

**Graduate students** must also learn Dynamic Instruction Scheduling (including Scoreboarding and Tomasulo's algorithm) through independent study. There will be additional exam questions on that subject.

## **Academic Honesty**

During exams and quizzes, you are not allowed to use any form of wifi enabled electronic device, including cell phones or other electronic communication devices or methods (wrist watches, earbuds, etc.). No wrist watch or other electronic device may be worn.

No electronic version of the book, loose paper print-outs of the book or extra sheets of paper of any kind are allowed unless explicitly mentioned in writing by the instructor. As a part of the zero-tolerance policy, if you have a cellphone or other electronic device capable of communication on your person; or if any proctor sees or hears any electronic device during the exam or if you share your work with someone else, you will be reported to the proper authorities and you may receive a zero on the exam and an F in the class. Other actions including suspension may also be pursued.

If anyone leaves the exam room during an exam they must be accompanied by a proctor. This includes restroom breaks.

University approved recording devices may also be located at various locations in the room and may be out of sight of the students. These recordings will be managed according to the UTEP approved regulations for such media.

If you are suspected of scholastic dishonesty you may not be directly confronted about your conduct by the instructor or proctor. You will however, be reported to the Office of Student Conduct and Conflict Resolution (OSCCR) and your exam will not be admissible. Your grade in the class may not be available until OSCCR makes a final ruling, this may adversely impact your ability to enroll in other classes.

There will be no makeup exams administered. If you have a university approved excuse, your instructor will have a process for determining how to handle the missing grade outlined in the syllabus. However, no makeup exams will be given.

If you miss more than one exam, the instructor may choose to administratively drop you from the class. This may adversely impact a visa and financial aid.

Any food or drink brought into the examination room is subject to careful inspection by a proctor.

Departmental policy allows for the use of assigned seats. All students must present their UTEP issued ID prior to and during every exam and may be required to sign in. Not having a UTEP issued ID when asked will result in forfeiture of the exam.

Scholastic dishonesty on homework, lab assignments and all other class assignments will be held to the same standards and requirements of academic honesty as quizzes and exams.

## **Class Attendance Policy**

Attendance is mandatory. Anyone with 5 or more absences will be dropped from the class. A drop for not attending will count toward the State Allowed Six Drop Limit. If you are failing the class at the time of the drop you may also be given a WF designation. Be advised that a drop could adversely impact visa status, financial aid and other programs.

As per UTEP rules, you may be asked to show a UTEP ID at any time during class. Anyone who is present and not registered in the class will be subject to disciplinary action unless the instructor gives prior approval.

## **Excused Absence for Exams**

The UTEP catalog allows Exam Absence to be excused ONLY for University-Recognized Activities and very specific other situations. Medical absence is NOT allowed in the UTEP catalog. For consistency with the catalog, students will NOT be excused from exams due to illness.

## **Harassment Policy**

The department has a zero-tolerance policy for harassment. Engagement in any behavior considered harassment will be reported to the proper authorities. In addition to generally understood forms of harassment, the department also treats the following behavior as harassment:

- Repeated emails and/or calls regarding subjects that have already been addressed. Once a decision has been made or a question answered, a student who continues to ask the same question will be given a warning by the recipient of the email/call. If the student continues, the behavior will be reported. Questions that seek understanding of course material are not harassment; but repeated questions about a grade or an administrative decision are.

- Grades are NOT negotiable, ever. You receive the grade you earned, not the grade you want or even desperately need. If you believe a grading mistake has been made, you must follow the process described in the UTEP catalog. Any request for a grade elevation that is NOT based on a mistake is considered harassment and will be reported immediately.

- Remaining in an office after the occupant requests you leave is considered harassment and potentially threatening. You will be reported immediately without warning and depending on the severity, may be reported to law enforcement.

- Similar behavior towards department staff, and student advisors will also be treated as harassment, including persistent phone calls, emails, and badgering. Department staff and student advisors are there to help students, and should be treated with due respect.

**If you have a disability and need classroom accommodations, please contact The Center for Accommodations and Support Services (CASS) at 747-5148, or by email to [cass@utep.edu](mailto:cass@utep.edu), or visit their office located in UTEP Union East, Room 106. For additional information, please visit the CASS website at [www.sa.utep.edu/cass](http://www.sa.utep.edu/cass). *CASS' Staff are the only individuals who can validate and if need be, authorize accommodations for students with disabilities.***
