This Fundamentals to Engineering Leadership and Graphics course is designed to equip you with fundamental skills that will help you thrive during your pursuit of a BS in Engineering Leadership. Therefore, one major focus of the course is on helping you develop your identity as a leader and as an engineer. Another focus of the course is on building community and understand the culture, expectations, and structure of the E-Led Program. Further, this course introduces you to the way we teach in the E-Led program using techniques such as the flipped classroom method and project-based learning. The final focus of this course is on helping you develop engineering graphics skills. This includes building skills in sketching of 2D and 3D drawings, creating assemblies, and creating animations using contemporary computer aided design software.

Welcome to the E-Lead family!

**Attendance Policy**

Attendance is recommended in every class period. In the event that you must miss class, you must contact the teaching team in advance to let them know that you will not be able to attend. If you fail to do so or are missing class for reasons not approved by the University (i.e. religious holidays, illness, etc.), it will be counted as an absence. More than 3 absences will result in a 10% drop in your final grade. Every 3 late arrivals (i.e., more than 5 minutes late) are counted as 1 absence.

*See also separate Course Policies Document for policies on the use of electronics, late submissions, teamwork, etc.*

**Legalese**

Academic Dishonesty: Students are encouraged to collaborate throughout the semester but all graded materials must represent the student’s individual work. (When in doubt, ask!) Academic dishonesty is the attempt to present the work of somebody else as his or her own work or attempting to pass any assignment by improper means. It is a serious offense and will not be accepted. Any misconduct will be handled according to the current university policy and reported in accordance with university regulations. For more info visit the Dean of Students or http://studentaffairs.utep.edu.

**Special Accommodations**

If you would like to request special accommodation due to a disability, we can certainly work that out. Please contact The Center for Accommodations and Support Services via their website http://sa.utep.edu/cass/.
