

# Introduction to Engineering Leadership

## Fundamentals of Graphic Design

EL 1050- Engineering Leadership I

EL 1205- Graphic Fundamentals in Eng. Design

Fall 2016 Syllabus

## Course Overview

Introduction to Engineering Leadership will prepare you for the next four years in the Engineering Leadership Program! You will receive the opportunity to make connections with other students and with E-Lead faculty. This class will provide you with the knowledge of what is yet to come in your other E-Lead courses, as well as the opportunity to discover who you are and how to utilize those skills in your academic career and even further into industry. You will become proficient in the areas of graphics design and will be able to implement them throughout your project based assignments. Welcome to the class and to Engineering Leadership!

# Legalese

## Academic Dishonesty

Students are encouraged to collaborate throughout the semester but all graded materials must represent the student's individual work. (When in doubt, ask!) Academic dishonesty is the attempt to present the work of somebody else as his or her own work or attempting to pass any assignment by improper means. It is a serious offense and will not be accepted. Any misconduct will be handled according to the current university policy and report-ed in accordance with university regulations. For more info visit the Dean of Students or <http://studentaffairs.utep.edu>

## Special Accommodations

If you would like to request special accommodation due to a disability, we can certainly work that out. Please contact The Center for Accommodations and Support Services via their website <http://sa.utep.edu/cass/>. See also separate Course Policies Document for policies on attendance, use of electronics, late submissions, teamwork, etc.
