

The University of Texas at El Paso  
College of Health Sciences  
Clinical Laboratory Science Program

CLSC 3365: Clinical Chemistry II

Lecture Schedule\*

Week	Date	Topic/Chapter
1	January 18-22	Chapter 20: Hypothalamic and Pituitary Function Chapter 21: Adrenal Function
2	January 25-29	Chapter 22: Gonadal Function
3	February 1-5	Chapter 23: The Thyroid Gland
4	February 8-12	<b>Exam #1: February 12</b> Chapter 24: Calcium Homeostasis and Hormonal Regulation
5	February 15-19	Chapter 25: Liver Function
6	February 22-26	Chapter 26: Laboratory Markers of Cardiac Damage and Function
7	March 1-5	Chapter 27: Renal Function
8	March 8-12	<b>Exam #2: March 12</b>
9	March 15-19	<b>Spring Break</b> ✨
10	March 22-26	Chapter 28: Pancreatic Function and Gastrointestinal Function Chapter 29: Body Fluid Analysis
11	March 29 – April 2	Chapter 30: Therapeutic Drug Monitoring
12	April 5-9	Chapter 31: Toxicology
13	April 12-16	<b>Exam #3: April 16</b>
14	April 19-23	Chapter 32: Circulating Tumor Markers: Basic Concepts and Clinical Applications Chapter 33: Nutrition Assessment
15	April 26-30	Chapter 34: Clinical Chemistry and the Geriatric Patient Chapter 35: Clinical Chemistry and the Pediatric Patient
16	May 3-7	<b>Final Exam Review</b> <b>May 6: Last Day of Classes</b> <b>Exam #4: May 7</b>
17	May 10-14	<b>Final Exam: May 11</b>
