Eating, Breathing and Beautifying Ourselves Sick Spring 2017

MW 1:30-2:50 CRN: 20932 MAIN 306

Course Description

We live in a world where environmental contamination is inevitable. However, we often don't think about how the food we eat, the beauty products and cleaning agents we use contaminate our bodies and our homes. Many would never imagine that those contaminants are what affect us most each day. In this course you will read, analyze and investigate about how we are affected by the food and products we buy in today's market. Also, you will learn about success strategies needed in order to be successful in college. Amongst those success strategies are effective time management, note-taking, exam preparation, critical thinking and reading, and career guidance, amongst others. Also, students will participate in UTEP and community events, thus helping them become part of the greater UTEP/El Paso community.

- **1.3 Student Conduct (from the Handbook of Operating Procedures: Student Affairs)**
 - Each student is responsible for notice of and compliance with the provisions of the Regents Rules and Regulations which are available for inspection electronically at www.utsystem.edu/bor/rules/homepage.
- **1.3.1 Scholastic Dishonesty (from the Handbook of Operating Procedures: Student Affairs)**
 - It is the official policy of the University that all suspected cases or acts of alleged scholastic dishonesty must be referred to the Dean of Students for investigation and appropriate disposition. It is contrary to University policy for a faculty member to assign a disciplinary grade such as an “F” or zero to an assignment, test, examination, or other course work as a sanction for admitted or suspected scholastic dishonesty in lieu of normally charging the student through the Dean of Students. Similarly, students are prohibited from proposing and/or entering into arrangement with a faculty member to receive grade of “F” or any reduced grade in lieu of being charged with scholastic dishonesty. Any student who commits an act of scholastic dishonesty is subject to discipline.

Scholastic dishonesty includes, but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person any act designed to give unfair advantage to a student or the attempt to commit such acts.

- **1.3.12 Plagiarism (from the Handbook of Operating Procedures: Student Affairs)**
 - Plagiarism means the appropriation, buying, receiving as a gift, or obtaining by any means another's work and the unacknowledged submission or incorporation of it in one's own academic work offered for credit, or using work in a paper or assignment for which the student had received credit in another course without direct permission of all involved instructors.
- **Syllabus Change Policy:**
 - Except for changes that substantially affect the evaluation statement, this syllabus is a guide for the course and is subject to change with advance notice.
- **Policy for final exams (From the online Schedule of Classes)**
 - Exemption from final examination may not be given. Final examinations are scheduled to be two hours, forty-five minutes in length and take place during the final examination period. It is the policy of the university not to administer a second final examination in the course. It is also university policy that students shall not have more than two final examinations in a single day. In the unlikely event that the examination schedule results in a student having three final examinations on a single day, the faculty member upon the request of the student shall reschedule the second of that student's three examinations.
