

Syllabus

Principles of Mathematics, Math 3325 CRN 13171

Fall 2020

Online

- Instructor: Piotr Wojciechowski, Ph.D, email: piotrw@utep.edu
- Textbook: Smith, Eggen, St.Andre *A Transition To Advanced Mathematics*
- Content: most of the topics from chapters 1-5 and additional topics from the lectures
- Lectures: videos recorded by the instructor and uploaded to Blackboard
- Resources: the only required resources for the course are the lecture videos and the textbook, email and Blackboard access
- Quizzes: there will be a quiz after every video, uploaded to Blackboard every Tuesday and Thursday; a quiz is usually 1 problem
- Exam: a final comprehensive exam of 10 problems on December 8, 8:00 AM - 10:00 PM
- Grading policy: 10 points per quiz and 200 points of the final; the grade is based on the sum of all the points
- Homework: assigned at the videos, for practice, not collected. Homework tutoring is allowed, eg. Utep's Marks Center
- Collection of quizzes: each quiz will be uploaded to Blackboard at 12:00 PM and is due by 10:00 PM the same day on Blackboard
- Collection of the Exam: the exam will be uploaded at 8:00 AM December 8, and is due 10:00 PM the same day on Blackboard
- Interaction with the instructor: open sessions 11 AM - 12 PM Tuesdays and Thursdays via Blackboard for questions and discussions and by email messages. Additional online appointments are possible
- Attendance at the sessions: optional
- All academic rules of the Department, College of Science and the University apply
- Academic honesty and integrity: **all quizzes and the exam must be solved individually, without help of any other person or internet resources**
- Drop deadline: October 30

Staying in class after the Census Day, September 9, is an indicator of your agreement with the terms of this Syllabus.
