EDUCATIONAL PROGRAM PLANNING & EVALUATION (EDAD 5346/6346)
SPRING 2018
The University of Texas at El Paso

Professor: Penelope Espinoza, Ph.D.
Education Bldg., Rm. 507
915-747-8784
ppespinoza@utep.edu

Office hours: Tuesdays & Thursdays 11:30am-1:30pm
To schedule a meeting outside of these hours, please email me to arrange a meeting time.

Class meetings: Mondays, 6pm - 8:50pm; Education Building, Room 309

Hybrid course utilizing Blackboard: Blackboard will be used to provide course materials, send and receive assignments and graded work, and facilitate communication between the instructor and students.

You need a UTEP username and password to log into Blackboard at https://my.utep.edu/. For technical assistance with accessing Blackboard, please contact the UTEP Helpdesk (747-5257, helpdesk@utep.edu).

Course materials. The texts required for the course are not available from the UTEP bookstore, but rather, are available at discounted rates online, particularly for older editions. See the Announcements module on Blackboard for suggestions on textbook purchases online.

Required text #1: Program Evaluation: A Systematic Approach
Authors: Rossi et al.
Publisher: Sage
ISBN-10: 0761908943
[Note: 7th edition is newest, but other editions are acceptable for use in this course.]

Required text #2: Program Evaluation in Practice: Core Concepts and Examples for Discussion and Analysis
Author: Spaulding
Publisher: Jossey-Bass [Wiley]
ISBN-10: 0787986852
[Note: 1st edition is preferable to 2nd, but either edition is acceptable for use in this course.]

Course description. This course provides an overview of approaches, techniques, and tools for the evaluation of educational programs. The relationship of evaluation to program planning is also a major theme of the course. The course learning objectives and student learning outcomes are stated below.

Learning objectives. This course aims to guide students toward attaining the following learning objectives: (1) comprehension of key concepts in educational program planning and evaluation; (2) knowledge regarding approaches, models, techniques, and methods of program evaluation; and, (3) appreciation for the importance of program planning and evaluation from the perspective of an evaluator, educator, and decision-maker/stakeholder.

Student learning outcomes. By the conclusion of this course, students will have achieved the following outcomes: 1) Identify various approaches to program planning and evaluation; 2) describe the purpose of needs assessments, formative evaluations, and summative evaluations; 3) understand
concepts and issues in educational program planning and evaluation through analysis of case studies; 4) distinguish between common objectives for program evaluators and program stakeholders; 5) construct a program logic model through systematic identification of program goals, outcomes, activities, resources, and outputs; 6) identify various tools and methods for program evaluation; 7) construct questions to guide program evaluation research; 8) develop a proposal for program evaluation research.

**Course policies.** Please observe the university’s academic regulations outlined in the UTEP Graduate Catalog (http://catalog.utep.edu/grad/), in addition to more detailed course policies described below.

**Attendance Policy:** Full attendance is expected, especially due to the limited meeting dates and group presentations at each session. Missing more than two classes will result in a significantly lower grade or being dropped from the class (depending on the number of absences and quality of class participation). Prior notification of absence is expected if possible, but will not necessarily excuse your absence from being counted against you; each absence will be reviewed on a case-by-case basis. Class interruptions, such as late arrivals, early departures, answering phone calls, sending/receiving electronic messages, or using computers for non-course-related purposes are highly discouraged.

**Academic Integrity:** Students are expected to demonstrate academic integrity in two respects: (1) submission of work original to each student; (2) proper citation of informational sources in written and orally presented work. Students must compose work in their own words according to their own interpretation of the material. Students may discuss course material prior to completing assignments in order to facilitate an understanding of concepts, but when individual work is required, students should work on assignments separately to avoid submission of work identical (or nearly so) in part or in whole. For every assignment submitted, it is important that students follow APA guidelines on citing references. Submitting work that is not your own from other sources constitutes plagiarism. Also, including information or writing in your assignment without citing the source similarly constitutes plagiarism. Please refer to resources on avoiding plagiarism provided by UTEP, including: http://sa.utep.edu/osccr/academic-integrity/, http://sa.utep.edu/osccr/wp-content/uploads/sites/8/2012/09/Avoiding-Plagiarism.pdf, and, http://sa.utep.edu/osccr/wp-content/uploads/sites/8/2013/05/Faculty-Resource-Detecting-and-Deterring-Plagiarism.pdf.

**Grading Policies:** For each assignment, a set of written instructions will be provided that describes the expected content, structure, and format. Grades for assignments will reflect adherence to these instructions, as well as accuracy and quality of content. Grading rubric for the assignments and final project are available on Blackboard.

**Late work:** No higher than a B can be earned on an assignment that is 2 days overdue. In other words, the assignment will be graded starting at a “B” and additional points will be lost for incorrect, incomplete, or unsatisfactory responses, as outlined in the assignment rubric.

**I will not review a student’s assignment for errors prior to submission of the assignment for a grade,** which amounts to “pre-grading.” In other words, when asking for assistance with assignments, students must come prepared to the instructor with specific questions, not general requests to review work. Similarly, I will not review drafts of papers outside the context of a meeting to discuss specific questions about the paper. This policy is set in order for me to provide equivalent feedback to all students in the course.

I will assign an “Incomplete” for the course only under the conditions described in the UTEP Graduate Catalog (http://catalog.utep.edu/grad/).
Final grades of A, B, C, and lower will be assigned according to the number of points earned in the course, as shown in the section below on “Evaluation.”

Requirements. In addition to mandatory class attendance, as described above in "Course policies," students will be evaluated on their completion of the assignments described below.

Evaluation:
Assignments

<table>
<thead>
<tr>
<th>Assignment Type</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Individual submissions (4) x 5 points each</td>
<td>20 points</td>
</tr>
<tr>
<td>Group submissions (5) x 10 points each</td>
<td>50 points</td>
</tr>
<tr>
<td>Case study presentations (2) x 10 points each</td>
<td>20 points</td>
</tr>
<tr>
<td>Program evaluation presentation (1) x 10 points</td>
<td>10 points</td>
</tr>
</tbody>
</table>

**Total points = 100**

Grading scale:

<table>
<thead>
<tr>
<th>Final grades</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>100-90%</td>
</tr>
<tr>
<td>B</td>
<td>89-80%</td>
</tr>
<tr>
<td>C</td>
<td>79-70%, etc.</td>
</tr>
</tbody>
</table>

Assignments: The assignments are important for reinforcing the comprehension of course concepts, delivered through class participation, required reading, and in Blackboard learning modules.

Instructions for completing each assignment are posted on Blackboard. Learning objectives are stated on each set of assignment instructions and correspond to the course learning objectives and student learning outcomes outlined on p.1-2 of this syllabus.

When assignments are specified as individual work, each student must submit his/her own original work as reflections of his/her own conceptualizations, phrasing, and language. Independent work allows the instructor to assess each student’s level of understanding of course material.

When assignments are stated as group work, each group member is expected to fulfill responsibilities as assigned by the group. Full participation on group assignments is vital to their success, and group work is intended to prepare students for collaboration in educational program planning and evaluation.

See Blackboard for further guidelines on individual and group assignments.

Assistance with writing & citations: Students are expected to submit work that is proof-read and formatted in APA-style, where applicable. If you need assistance with APA style or general scholarly/research writing skills, please refer to resources provided by the University Writing Center (http://who.utep.edu/index.php?title=Main_Page). Useful APA information is provided on their website under the headings “Style Guides – Common Style Guides”.
