Course Description: (catalog) Management theory and fiscal discipline relevant to healthcare delivery as it relates to physical therapy are presented. Alternate means and sources of healthcare delivery are assessed, as well as administrative factors that impact care giving. Concepts and strategies applicable to the marketing and management of physical therapy practice are discussed. The principles and ethics underlying effective conflict resolution are emphasized.

Student description: In this class you will learn the basic concepts from business to help you open and run your own clinic, marketing strategies, how to create a budget, and participate in the day to day administrative activities in your future workplace. You will also learn to accurately bill Medicare and private insurances. Finally, you will practice using ethical principles in various simulated situations.

Course Prerequisites for DPT Students: The UTEP DPT Program curriculum is a lock-step curriculum. Therefore, students must pass all courses in the prior semester of the DPT Program in order to enroll in courses in the subsequent semester.
