TECHNOLOGY REQUIREMENTS

Some course content is delivered via the Internet through the Blackboard learning management system. Ensure your UTEP e-mail account is working and that you have access to the Web and a stable web browser. Google Chrome and Mozilla Firefox are the best browsers for Blackboard; other browsers may cause complications. When having technical difficulties, update your browser, clear your cache, or try switching to another browser.

You will need to have access to a computer/laptop. You will need to download or update the following software: Microsoft Office, Adobe Acrobat Reader, Windows Media Player, QuickTime, and Java. Check that your computer hardware and software are up-to-date and able to access all parts of the course.

If you do not have word-processing software, you can download Word and other Microsoft Office programs (including Excel, PowerPoint, Outlook and more) for free via UTEP’s Microsoft Office Portal. Click the following link for more information about [Microsoft Office 365](#) and follow the instructions.

IMPORTANT: If you encounter technical difficulties beyond your scope of troubleshooting, please contact the UTEP [Help Desk](#) as they are trained specifically in assisting with

technological needs of students. Please do not contact me for this type of assistance. The Help Desk is much better equipped than I am to assist you!

ASSESSMENT AND GRADING

Discussion posts/replies: (15 DP's each for 50 points each/760 points total)

Each week you are responsible for creating a discussion post referring to assigned readings for that week. These posts are due on Thursday by 11:59pm MST. To receive full credit your post must be at least 350 words per post (follow Bb instructions) and must indicate that you have read the assigned material. For the first week you must create two posts: one referring to the material and one providing an Introduction to yourself to the rest of the class. All original posts must be cited. Citation include your reference book or any other source used to answer the discussion question. **The Introduction post is worth ten points. You are required to post 2 replies to other students' introductions.**

You are also responsible for replying to another student's post. These replies are due on Sunday by 11:59pm MST. These replies must consist of substantive comments and not simple statements such as "I agree" or "I disagree." The responses should demonstrate your understanding of the post, provide an alternative to their opinions, or display application of concepts. The replies must also be at least 4 sentences.

A note on etiquette while online: Please remember that this is a classroom like any face-to-face course and you are expected to behave in the same manner as if you were having a face-to-face discussion with classmates. **Please refer to the Netiquette guide posted at the bottom of this syllabus.** Also refer to the following website: <https://www.utep.edu/extendeduniversity/utepconnect/blog/october-2017/10-rules-of-netiquette-for-students.html>

TIMED ONLINE Quizzes

There are seven quizzes, worth 100 points each (SEE schedule for exam dates and times) These exams will open/post 2 weeks prior and due on Sunday at close by 11:59 pm All quizzes will be timed at 60 minutes from the time the exam is started, so please be sure the exam is started by 10:30 pm at the absolute latest to give yourself the full 50 minutes. Exams will be structured with mostly multiple-choice questions and some True/False questions. Log in using your UTEP name and password and never as a "guest" because as a "guest" session end automatically after 15-20 minutes, and your test submitted as completed. Quizzes are open book, and students can use class materials (book, notes, power points,

etc.) to aid in completing the quiz. However, the quiz must be taken alone. You may not collaborate with any person (fellow student or other person) when taking the test. Test collaboration is considered a form of academic dishonesty/cheating.

Here is how to figure Your Grade at the Semester's End:

The letter grade for the class is determined by the number of points you accumulate during the semester, so every point counts. Your points will be recorded in the "My grades" section of Blackboard. Every assignment a grade will be recorded by the point values—not percentages. If you want to know what the point value means on an individual assignment, divide your score into the total number possible for that assignment. So, for example, if you score a "36" on Test 1, 36 divided by 50 = 72% or a "C". Each point value will be summed at the very end

In order to keep track, I've provided the box below:

My Points Possible: Quiz #1 _____ 100 Points, Quiz #2 _____ 100 Points, Quiz #3
_____ 100 Points, Quiz #4 _____ 100 Points, Quiz #5 _____ 100 Points, Quiz #6
_____ 100 Points, Quiz #7 _____ 100 Points (Total 700 points)

15 Discussion Question Sets/Introduction _____ 760 Points

MY TOTAL: _____ 1460 points total

Simply add up the number of points you earn for every exam and discussion questions and then refer to the final grading scale below GRADING SCALE AT THE END: 1450 points possible

Total Point Range A - 1460-1360, B- 1359-1220, C - 1219—1080, D- 1079-940, F - 0 – 939

NOTE: Grades are assigned according to the total points earned; there is no rounding or curving or moving a person to the next letter grade if they are one point away. The cut-off points are predetermined
