

**“The mediocre teacher tells. The good teacher explains. The superior teacher demonstrates.  
The great teacher inspires.” -- William Arthur Ward, writer**

SCED 4367 (11415)  
**ONLINE**  
Teaching Mathematics in Secondary School  
Fall 2021

This syllabus is subject to change as needed. Any changes to the syllabus will be announced via email or posted on Blackboard. Please note this course is a 100% Online Course.

Instructor Contact Information: Ruby Lynch-Arroyo, PhD

Contact/E-mail: [rllynch@utep.edu](mailto:rllynch@utep.edu)

Office Hours: **By appointment (with 48 hours' notice)** Virtual on Blackboard Zoom Wednesdays 4:30pm – 5:30 pm and Wednesdays 8:00 pm – 9:00 pm

**Course Philosophy and Description:**

For teachers of mathematics to be truly effective involves bringing together four basic components:

- A. An appreciation of the discipline of mathematics itself.
- B. An understanding of how students learn and construct ideas.
- C. An ability to design and select challenging tasks, create problem-solving environments.
- D. The ability to integrate appropriate, mathematically, and/or scientifically meaningful assessment within the teaching process.

One of the main components of teaching is helping students to “discover” mathematics for themselves by creating successful inquiry-based, active learning environments, a friendly atmosphere, and an “open mind” approach. The goal of teaching is not only for students to find the correct answer, but to find answers using the "best" method. Hence, a teacher needs to promote students' thinking, to encourage searching for different methods leading to the same answer. Discovery learning is enhanced with error analysis and trial and error. The role of the teacher is to integrate novelty to engage students by posing challenging problems and encourage students to invent new ways of approaching the problem without fear of making a mistake.

This course has been constructed to help you in critically examining the philosophies, theories, research, pedagogical techniques, and materials associated with effective learning and teaching in secondary classrooms.

### **Course Goals and Objectives:**

We will address factors that support meaningful growth and progress on an inner journey towards personal transformation. Our classroom community will develop a process that will allow us to explore “who we are, what assumptions we hold as true, how and what we teach, how we organize ourselves, and what barriers prevent us from creating authentic learning environments” (Crowell, Caine & Caine, 1998).

Students enrolled in this course will explore the methods of teaching in secondary classrooms. Emphasis is placed on the equity principle (learning for all) and development of conceptual understanding of topics, as well as project/problem-based learning. Specifically, students will become more effective in the following areas by:

- Exploring innovative learning theories and techniques of teaching and learning including problem-based and inquiry, open-ended approach.
- Studying how to apply general and content methods of teaching and learning in diverse classroom settings.
- Helping the students to create successful learning environment in teaching and learning.
- Writing and analyzing lesson plans that support the learning cycle.
- Unpacking state standards for specific content areas and developing practical and engaging use of state standards/TEKS, NCTM Standards ([https://www.nctm.org/uploadedFiles/Standards\\_and\\_Positions/NCTM\\_Secondary\\_2020\\_Final.pdf](https://www.nctm.org/uploadedFiles/Standards_and_Positions/NCTM_Secondary_2020_Final.pdf)), Flashcards <https://quizlet.com/14893039/nctm-standards-flash-cards/> , and Common Core State Standards (CCSS) <http://www.corestandards.org/>
- Demonstrating use of educational technology within lesson plan development and mini-teaching experiences.
- Demonstrating understanding of critical reading of texts and web sites through writing and discussion.
- Demonstrating reflection about teaching and learning through writing and discussion.
- Writing and discussion to demonstrate an informed perspective about curriculum and related educational issues.
- Addressing the domain and competencies that will prepare you for state certification content exam [TeXes] <https://tea.texas.gov/media/document/224253>

### **Course Structure:**

Classes for this course are asynchronous online (UTEP Blackboard). Asynchronous classes will be a combination of PowerPoint/Video lecture, Blackboard discussion boards, individual/group course assignments and exercises, and project development. It is expected that students will participate in all activities and components of the course.

**SCED 4367 Required Texts:**

Captivate, Activate, and Invigorate the Student Brain in Science and Math, Grades 6-12 by John Almarode. ISBN -13: 9781452218021

Connecting Mathematical Ideas: Middle School Video Cases to Support Teaching and Learning by Boaler, J. Second Edition. ISBN-13: 9780325078182

**Optional Texts/Resources:**

National Research Council. (2005). How Students Learn Mathematics in the Classroom. Paperback 5th Ed. Additional materials/resources we will be using:

Some required readings will be scanned and placed on blackboard, or you will be provided with appropriate web links:

❖ Texas Essential Knowledge and Skills (TEKS) for all content areas and grade levels.  
[https://texreg.sos.state.tx.us/public/readtac\\$ext.ViewTAC?tac\\_view=4&ti=19&pt=2&ch=111](https://texreg.sos.state.tx.us/public/readtac$ext.ViewTAC?tac_view=4&ti=19&pt=2&ch=111)

❖ Texas College Readiness Standards

<https://tea.texas.gov/academics/college-career-and-military-prep/texas-college-and-career-readiness-school-models-ccrsm>

❖ Common Core Standards

<http://www.corestandards.org/>

❖ These websites provide a wide selection of virtual manipulatives for teaching mathematics:

<http://nlvm.usu.edu/en/nav/vlibrary.html>

❖ Book "How Students Learn: Mathematics in the Classroom".

You can read it online at [http://www.nap.edu/catalog.php?record\\_id=11101](http://www.nap.edu/catalog.php?record_id=11101)

This course will integrate bi-lingual and English as a second language education at an introductory level

<https://tea.texas.gov/academics/special-student-populations/english-learner-support/bilingual-and-english-as-a-second-language-education-programs>

### Materials:

Electronic Device and textbooks (hardback/e-book).

### Assignments in SCED4367:

#### Weekly Assignments

You will be asked to complete weekly assignments. These assignments will be diverse and may include solving or analyzing mathematical tasks, watching a video, analyzing student work, or preparing activities. Completing these assignments is a critical part of your coursework.

#### Game Development/Collaboration (25 points)

Based on the description of professional develop task #2, Captivate, Activate, and Invigorate, collaboratively develop a game to teach a high school Texas Essential Knowledge & Skills (TEKS) standards mathematical concept [http://corestandards.org/assets/CCSSI\\_Math%20Standards.pdf](http://corestandards.org/assets/CCSSI_Math%20Standards.pdf) . (50% of game development grade).

Review/Play two (2) other students' games and provide specific feedback by answering these questions (50% of game development grade):

- How did you feel about the game as a teaching strategy?
- Were you engaged?
- How would you modify/improve the game?
- What evidence supports your answers?

#### Final Project/Video-Website

Based on the foundations of Project-Based Learning, the 5-E Model of Lesson Planning and Unit Planning, you will be developing and creating a Unit Lesson Plan/Website-Webquest for Texas Essential Knowledge and Skills -

**TEKS (student choice) “Mathematics – High School Geometry”**

[https://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage?sl=R&app=9&p\\_dir=&p\\_rloc=&p\\_tloc=&p\\_ploc=&pg=1&p\\_tac=&ti=19&pt=2&ch=111&rl=41](https://texreg.sos.state.tx.us/public/readtac$ext.TacPage?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=2&ch=111&rl=41) utilizing the pedagogical approach of three (3) learning centers/stations integrating hands-on student experiences. You will videotape a ‘tour’ for each center/station demonstrating what students would do in each center/station (as if you were the student). Each center/station should take no longer than ten (10) minutes for students to complete the activity. Centers/stations are prepared for face-to-face instructions, yet easily adaptable to online learning as a ‘Webquest’ project utilizing a website you will create. Each center/activity are all integrated within the concepts of the chosen standard.

Your website (Webquest Project) must include the following:

1. Unit Lesson Plan (20% of final project grade)
2. Station Lesson Plans (15% of final project grade)
3. Stated Objective(s) (5% of final project grade)
4. Resource materials: handouts, links, list of materials, video etc. for each center/station (15% of final project grade)
5. Video demonstrations/directions of/for each station (student-user friendly) (20% of final project grade)
6. Visually engaging website with graphics, etc. (15% of final project grade)
7. Forms of formative and summative evaluation for each center/station (10% of final project grade)

You may use *any* free website building platform including (but not limited to) Wix, Weebly, Google, WordPress, Webs.com, Websitebuilder.com, or any other that you are comfortable with using. If you already have an established website, you may add a tab for SCED4367 (easy to navigate to). Final Project/Website-Webquest link will be **due on or before December 9<sup>th</sup>**.

**Student Learning Outcomes**

*“Talent is a dreadfully cheap commodity, cheaper than table salt. What separates the talented individual from the successful one is a lot of hard work and study.” ~Stephen King.*

The course’s learning outcomes will require the student to acquire throughout the semester knowledge and skills and build upon them. The following table provides a list of the most relevant student learning outcomes for the course. The following outcomes are aligned with SBEC-approved Texas educator standards. Please, see the full standard\* at <https://tea.texas.gov/texas-educators/preparation-and-continuing-education/approved-educator-standards>

Table 1. Student learning outcomes and assessment

TEXAS TEACHING STANDARDS [SBEC]	Assessment of SBEC Learning Outcomes
SCED4367 students will be able to:	
<b>Instructional Planning and Delivery</b>	
Develop lessons that build coherently toward objectives based on course content, curriculum scope and sequence,	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration

**TEACHER EDUCATION DEPARTMENT**  
**COLLEGE OF EDUCATION**  
**UNIVERSITY OF TEXAS AT EL PASO**

and expected student outcomes	
Effectively communicate goals, expectations, and objectives to help all students reach high levels of achievement	Standards Breakdown and Concept Mapping Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Connect students' prior understanding and real-world experiences to new content and contexts, maximizing learning opportunities	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Plan instruction that is developmentally appropriate, is standards driven, and motivates students to learn	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Use a range of instructional strategies, appropriate to the content area, to make subject matter accessible to all students	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Differentiate instruction, aligning methods and techniques to diverse student needs, including acceleration, remediation, and implementation of individual education	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Ensure that the learning environment features a high degree of student engagement by facilitating discussion and student-centered activities as well as leading direct instruction	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Set high expectations and create challenging learning experiences for students, encouraging them to apply disciplinary and cross-disciplinary knowledge to real-world problems	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Provide opportunities for students to engage in individual and collaborative critical thinking and problem solving	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Monitor and assess students' progress to ensure that their lessons meet students' needs	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
<b>Knowledge of Students and Student Learning</b>	
Connect learning, content, and expectations to students' prior knowledge, life experiences, and interests in meaningful contexts	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Understand the unique qualities of students with exceptional needs, including disabilities and giftedness,	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development

**TEACHER EDUCATION DEPARTMENT**  
**COLLEGE OF EDUCATION**  
**UNIVERSITY OF TEXAS AT EL PASO**

and know how to effectively address these needs through instructional strategies and resource	Collaboration
Understand the role of language and culture in learning and know how to modify their practice to support language acquisition so that language is comprehensible, and instruction is fully accessible	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Understand how learning occurs and how learners develop, construct meaning, and acquire knowledge and skills.	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
<b>Content Knowledge and Expertise</b>	
Organize curriculum to facilitate student understanding of the subject matter	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Understand, actively anticipate, and adapt instruction to address common misunderstandings and preconceptions	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Promote literacy and the academic language within the discipline and make discipline-specific language accessible to all learners	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Teach both the key content knowledge and the key skills of the discipline	Standards Breakdown and Concept Mapping Unit Plan Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
<b>Data Driven Practices</b>	
Gauge student progress and ensure mastery of content knowledge and skills by providing assessments aligned to instructional objectives and outcomes that are accurate measures of student learning	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Analyze and review data in a timely, thorough, accurate, and appropriate manner, both individually and with colleagues, to monitor student learning	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
Design instruction, change strategies, and differentiate their teaching practices to improve student learning based on assessment outcomes	Lesson Plan, Website Components/Teaching Video, Teaching Materials Development Collaboration
<b>Professional Practices and Responsibilities</b>	
Adhere to the educators' code of ethics in §247.2 of this	Collaboration/ Participation in Professional Learning

**POLICIES:**

**A. Grading Scale**

<b>Excellent</b>	<b>Above Average</b>	<b>Average</b>	<b>Below Average</b>	<b>Failing</b>
A = 90 – 100%	B = 80 – 89%	C = 70 – 79%	D = 60 – 69%	F = 59% and below

**B. Submission of Assignments**

Assignments are to be submitted through Blackboard Assignment on the date and time indicated by assignments. **In extenuating circumstances, LATE ASSIGNMENTS WILL BE ACCEPTED with a grace period of 72 hours and a point deduction of 30%.**

**C. Standards of Academic Integrity**

Students are expected to uphold the highest standards of academic integrity. Any form of scholastic dishonesty is an affront to the pursuit of knowledge and jeopardizes the quality of the degree awarded to all graduates of UTEP. Any student who commits an act of scholastic dishonesty is subject to discipline. Scholastic dishonesty includes, but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are not attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Proven violations of the detailed regulations, as printed in the Handbook of Operating Procedures (HOP) and available in the Office of the Dean of Students, may result in sanctions ranging from disciplinary probation, to failing grades on the work in question, to failing grades in the course, to suspension or dismissal, among others.

**D. Students with Disabilities**

If you have or believe you have a disability, you may wish to self-identify. You can do so by providing documentation to the Office of disabled Student Services located in Union E Room 203. Students who have been designated as disabled must reactivate their standing with the Office of Disabled Student Services on a yearly basis. Failure to report to this office will place a student on the inactive list and nullify benefits received. If you have a condition which may affect your ability to exit safely from the premises in an emergency or which may cause an emergency during class, you are encouraged to discuss this in confidence with the instructor and/or the director of Disabled Student Services. You may call 747-5148 for general information about the Americans with Disabilities Act (ADA).

### **E. Equal Educational Opportunity**

To create equal educational opportunities in the class, all students are expected to demonstrate respect for the diverse voices and individual differences in the class. Particularly, no person shall be excluded from participation in, denied benefits of, or be subject to discrimination under any program or activity sponsored or conducted by the University of Texas at El Paso based on race, color, national origin, religion, sex, age, veteran status, disability, or sexual orientation. Any member of the University community who engages in discrimination or other conduct in violation of university policy is subject to the full range of disciplinary action, up to and including separation from the University. Complaints regarding discrimination should be reported to the University's Equal Opportunity Office. Inquiries regarding applicable policies should be addressed to the University's Equal Opportunity Office, Kelly Hall, 3rd Floor, 915.747.5662 or [eoaa@utep.edu](mailto:eoaa@utep.edu)<<mailto:eoaa@utep.edu>>.

### ***Inclusiveness and equity***

Learning happens only when we feel respected human being. My top priority in our course is to cultivate relationships of trust and respect and a sense that we see each other as whole, complex human beings. That you experience this in our course is important for the sake of your learning in our course *and* for the sake of your future students' learning, so that you feel able to cultivate such relationships with them. To that end, I want you to know that all of you is welcome in our learning space—all the parts of you as a person are welcome in our discussions, our activities, our assignments, and in our assessments. We are all complex people with a variety of perspectives, experiences, challenges, assets, and resources—our gender identities, our sexual orientations, our religions, our races, our ethnicities, our economic statuses, our immigration statuses, our parenthoods, our veteran statuses, our ages, our languages, our abilities, and disabilities. All the parts of you are welcome in our learning community to the extent that you feel comfortable bringing them in. I strive to show respect for the variety and wholeness in each of you, and I expect that each of you shows respect for each other as well. If you feel marginalized in our class, and you feel comfortable discussing it, I would like to know so that I can support you, protect you, and make changes that feel more inclusive and equitable. You can also talk with our Department Chair and/or you can report a complaint of discrimination to the University's Equal Opportunity Office, Kelly Hall, Third Floor, 915-747-5662 or [eoaa@utep.edu](mailto:eoaa@utep.edu).

### **F. Professionalism**

- Consistent attendance, punctuality, collegiality, supportive critique, and professionalism will be expected
- Course expectations:

- Attend virtual meetings when you are scheduled to attend meetings (virtual meetings with peers, instructor, whole class, etc.)
- Be prepared to raise, share, discuss and attempt to solve any individual or collective problems you may have with your colleagues and/or your instructor in constructive ways that allows us all to maintain our dignity and continue to function effectively as a community.
- Demonstrate an understanding that while we can, and will probably, disagree, we need to do so within a community of respect; and
- Provide your classmates with supportive critique and constructive feedback.

Week 8: October 11 <sup>th</sup>	<p><b>Online Assignments:</b></p> <ul style="list-style-type: none"> <li>View Instructor Video: Models, Background Knowledge, Real World Connections, Differentiation, Level Up/Down</li> </ul> <p><u>Readings and Evidence of Understanding:</u></p> <ul style="list-style-type: none"> <li><i>Connecting Mathematical Ideas</i>, Chapter 8, and view video case - (Volume of Prisms &amp; Cylinders): watch, analyze and write a three (3) paragraph reflection of the pedagogical approaches used.</li> <li><i>Captivate, Activate, and Invigorate</i>, Chapter 2- Building Background Knowledge</li> <li>Professional Development Task (partner work), <i>Captivate, Activate, and Invigorate</i>, #2, p.41 (google document) (Graded)</li> <li>Using technology to teach mathematics: Explore and Review the following applications.               <ol style="list-style-type: none"> <li>GeoGebra (<a href="https://www.geogebra.org/">https://www.geogebra.org/</a>) Desmos (<a href="https://www.desmos.com/">https://www.desmos.com/</a>)</li> <li>"Zeros of Cubics"</li> <li>"Mathematics of Motion"</li> <li>Effects of Parameters (Desmos)</li> <li>"Making a GeoGebra app"</li> </ol> </li> <li>Complete and submit review sheet of sites (Graded)</li> </ul>	October 17 <sup>th</sup>
Week 9: October 18 <sup>th</sup>	<p><b>Online Assignments:</b></p> <ul style="list-style-type: none"> <li>View Instructor Video: Memorization vs. Understanding, Models to Formulas, Scaffolding Knowledge, Academic Vocabulary Building, Math Talk/Engaging Students in "math communication", Error Analysis</li> </ul> <p><u>Readings and Evidence of Understanding:</u></p> <ul style="list-style-type: none"> <li><i>Connecting Mathematical Ideas</i>, Chapter 9, and view video case - (Surface Area): watch and analyze (Script Math Talk/Moves in the Video)</li> <li><i>Captivate, Activate, and Invigorate</i>, Chapter 3- Prime the</li> </ul>	October 24 <sup>th</sup>

**TEACHER EDUCATION DEPARTMENT**  
**COLLEGE OF EDUCATION**  
**UNIVERSITY OF TEXAS AT EL PASO**

Week/Day	 <b>Remote Learning Agenda/Assignments</b>	Assignment Due Date
	Brain <ul style="list-style-type: none"> <li>• Stop-n-Think Box, <i>Captivate, Activate, and Invigorate</i>, #3.4, p.52, K-W-L (Graded)</li> </ul>	
Week 10: October 25 <sup>th</sup>	<b>Online Assignments:</b> <b>View Instructor Video: Topics-</b> 5-E Lesson Planning Model, Unit Planning, Project-based learning stations, student engagement, student positioning, mathematical disposition, Webquest, Final Exam Project/Video/Website Review <u>Readings and Evidence of Understanding:</u> <ul style="list-style-type: none"> <li>• <i>Captivate, Activate, and Invigorate</i>, Chapter 1- Review</li> <li>• <i>Captivate, Activate, and Invigorate</i>, Chapter 8 (Unit Planning)</li> <li>• Stop-n-Think Box, <i>Captivate, Activate, and Invigorate</i>, # 1.2 (p.9), 1.3 (p.11), 1.4 (p.13) (Graded)</li> <li>• Professional Development Task, <i>Captivate, Activate, and Invigorate</i>, #2, p.16 (Graded)</li> <li>• Begin working on Final Project/Video/Website</li> </ul>	October 31 <sup>st</sup>
Week 11: November 1 <sup>st</sup>	<b>Online Assignments:</b> <ul style="list-style-type: none"> <li>• Final Project/Video/Website Work</li> <li>• Submit website link (Graded)</li> </ul>	November 7 <sup>th</sup>
Week 12: November 8 <sup>th</sup>	<b>Online Assignments:</b> <ul style="list-style-type: none"> <li>• Final Project/Video/Website Work</li> <li>• Post on Website Draft Unit Plan (Graded)</li> </ul>	November 14 <sup>th</sup>
Week 13: November 15 <sup>th</sup>	<b>Online Assignments:</b> <ul style="list-style-type: none"> <li>• Final Project/Video/Website Work</li> <li>• Post on Website Station Lesson Plans (Graded).</li> </ul>	November 21 <sup>st</sup>
Week 14 November	<b>Thanksgiving Holiday</b>	

Week/Day	 <b>Remote Learning Agenda/Assignments</b>	Assignment Due Date
22 <sup>nd</sup>		
Week 15: November 29 <sup>th</sup>	<b>Online Assignments:</b> <ul style="list-style-type: none"> <li>• Post on Website materials &amp; Video for Stations #1 - 3</li> </ul>	December 6 <sup>th</sup>
Week 16 December 7 <sup>th</sup>	<b>Online Assignments:</b> Final Project/Video/Website Work Finalized ( <b>Graded</b> )	On or before December 9 <sup>th</sup>

*Final Word: I reserve the right to adjust the course syllabus or change assignments as needed.*

**Introductory Video Description/Grading Rubric (25 points)**

- (1) Prepare a 2-3-minute video introducing yourself. In the video include 3 things about yourself - 2 that are true and 1 thing that is false. Do not state what is true and what is false.
- (2) Post link to the video/or the video on Blackboard
- (3) Review your classmates' videos and post which thing you thought was a lie about them.
- (4) Respond to answers given by your classmates with the correct answer. Think about how many inaccurate assumptions were made! Ponder: How can we avoid making assumptions and stereotyping students before we get to really know them?

**Game Development/Collaboration (25 points)**

Based on the description of professional develop task #2, Captivate, Activate, and Invigorate, collaboratively develop a game to teach a high school Texas Essential Knowledge and Skills (TEKS) standards mathematical concept [http://corestandards.org/assets/CCSI\\_Math%20Standards.pdf](http://corestandards.org/assets/CCSI_Math%20Standards.pdf). (50% of game development grade).

Review/Play two (2) other students' games and provide specific feedback by answering these questions (50% of game development grade):

- How did you feel about the game as a teaching strategy?
- Were you engaged?
- How would you modify/improve the game?
- What evidence supports your answers?

**Weekly Assignments** including, but not limited to Stop-n-Think Boxes, Professional Development Tasks, Exit Tickets, NM Teach Rubrics/Scripting of Videos are meant to be simpler assignments demonstrating

critical thinking and understanding. These assignments should not be essays of great length. Submit complete, succinct responses integrating topics and concepts learned in that lesson. **(Grading varies depending on the assignment – maximum points = 20).**

### **Final Project/Video-Website Description/Grading Rubric (40% of final grade)**

Based on the foundations of Project-Based Learning, the 5-E Model of Lesson Planning and Unit Planning, you will be developing and creating a Unit Lesson Plan/Website-Webquest for Texas Essential Knowledge & Skills or TEKS (student choice) “Mathematics – High School Geometry)

[http://corestandards.org/assets/CCSSI\\_Math%20Standards.pdf](http://corestandards.org/assets/CCSSI_Math%20Standards.pdf) utilizing the pedagogical approach of three (3) learning centers/stations integrating hands-on student experiences. You will videotape a ‘tour’ for each center/station demonstrating what students would do in each center/station (as if you were the student). Each center/station should take no longer than ten (10) minutes for students to complete the activity. Centers/stations are prepared for face-to-face instructions, yet easily adaptable to online learning as a ‘Webquest’ project utilizing a website you will create. Each center/activity are all integrated within the concepts of the chosen standard.

Your website (Webquest Project) must include the following:

1. Unit Lesson Plan (20% of final project grade)
  2. Station Lesson Plans (15% of final project grade)
  3. Stated Objective(s) (5% of final project grade)
  4. Resource materials: handouts, links, list of materials, video etc. for each center/station (15% of final project grade)
  5. Video demonstrations/directions of/for each station (student-user friendly) (20% of final project grade)
  6. Visually engaging website with graphics, etc. (15% of final project grade)
  7. Forms of formative and summative evaluation for each center/station (10% of final project grade)
- You may use *any* free website building platform including (but not limited to) Wix, Weebly, Google, WordPress, Webs.com, Websitebuilder.com, or any other that you are comfortable with using. Final Project/Website-Webquest link will be **due on or before December 9<sup>th</sup>**.
