
SCED 4367/4368 (21035/23358)
ONLINE HYBRID
SYNCHRONOUS/ASYNCHRONOUS
Teaching Mathematics & Science in Secondary School
Spring 2023

This syllabus is subject to change as needed. Any changes to the syllabus will be announced via email or posted on Blackboard. Please note this course is an Online Course.

Instructor Contact Information: Ruby Lynch-Arroyo, PhD
Contact/E-mail: rflynch@utep.edu
Synchronous Virtual on Blackboard Zoom Class Meeting Times: Thursdays 5:30 pm – 8:20 pm
Office Hours: Virtual on Blackboard Zoom Thursdays after class meeting; By Appointment

Course Philosophy and Description:

For teachers of mathematics and science to be truly effective involves bringing together four basic components:

A. An appreciation of the discipline of mathematics and/or science itself.

B. An understanding of how students learn and construct ideas.

C. An ability to design and select challenging tasks, create problem-solving environments.

D. The ability to integrate appropriate, mathematically, and/or scientifically meaningful assessment within the teaching process.

One of the main components of teaching is helping students to “discover” mathematics or science for themselves by creating successful inquiry-based, active learning environments, a friendly atmosphere, and an “open mind” approach. The goal of teaching is not only for students to find the correct answer, but to find answers using the "best" method. Hence, a teacher needs to promote students' thinking, to encourage searching for different methods leading to the same answer. Discovery learning is enhanced with error analysis and trial and error. The role of the teacher is to integrate novelty to engage students by posing challenging problems and encourage students to invent new ways of approaching the problem without fear of making a mistake.

This course has been constructed to help you in critically examining the philosophies, theories, research, pedagogical techniques, and materials associated with effective learning and teaching in
secondary classrooms.

**Course Goals and Objectives:**

We will address factors that support meaningful growth and progress on an inner journey towards personal transformation. Our classroom community will develop a process that will allow us to explore “who we are, what assumptions we hold as true, how and what we teach, how we organize ourselves, and what barriers prevent us from creating authentic learning environments” (Crowell, Caine & Caine, 1998).

Students enrolled in this course will explore the methods of teaching in secondary classrooms. Emphasis is placed on the equity principle (learning for all) and development of conceptual understanding of topics, as well as project/problem-based learning. Specifically, students will become more effective in the following areas by:

- Exploring innovative learning theories and techniques of teaching and learning including problem-based and inquiry, open-ended approach.
- Studying how to apply general and content methods of teaching and learning in diverse classroom settings.
- Helping the students to create successful learning environment in teaching and learning.
- Writing and analyzing lesson plans that support the learning cycle.
- Unpacking state standards for specific content areas and developing practical and engaging use of state standards/TEKS, NCTM Standards, Next Generation Science Standards (NGSS), and Common Core State Standards (CCSS)
- Demonstrating use of educational technology within lesson plan development and mini-teaching experiences.
- Demonstrating understanding of critical reading of texts and web sites through writing and discussion.
- Demonstrating reflection about teaching and learning through writing and discussion.
- Writing and discussion to demonstrate an informed perspective about curriculum and related educational issues.
- Addressing the domain and competencies that will prepare you for state certification content exam [TeXes].

**Course Structure:**

Classes for this course are Synchronous and asynchronous online (UTEP Blackboard). Asynchronous classes may be a combination of PowerPoint/Video lecture, Blackboard discussion boards, individual/group course assignments, assessments, and exercises, and final exam/project development. It is expected that students will participate in all activities and components of the course.
SCED 4367 Required Texts:
Captivate, Activate, and Invigorate the Student Brain in Science and Math, Grades 6-12 by John Almarode. ISBN - 13: 9781452218021

SCED 4368 Required Texts:
Captivate, Activate, and Invigorate the Student Brain in Science and Math, Grades 6-12 by John Almarode. ISBN - 13: 9781452218021
Action Science: Relevant Teaching and Active Learning by Robertson, W. ISBN: 9781452256566

Optional Texts/Resources:

Additional materials/resources we will be using:

Some required readings will be scanned and placed on blackboard, or you will be provided with appropriate web links:

❖ Texas Essential Knowledge and Skills (TEKS) for all content areas and grade levels. http://ritter.tea.state.tx.us/rules/tac/chapter111/index.html
❖ Common Core Standards http://www.corestandards.org/
❖ These websites provide a wide selection of virtual manipulatives for teaching mathematics: http://nlvm.usu.edu/en/nav/vlibrary.html
❖ NASA for Educators: https://www.nasa.gov/audience/foreducators/Alpha_index.html
❖ NASA Commercial Crew Program for students and educators: https://www.nasa.gov/content/forsstudents-and-educators
❖ NASA Wallops Flight Facility for Educators: https://www.nasa.gov/centers/wallops/education/for-educators
❖ Book "How Students Learn: Mathematics in the Classroom". You can read it online at http://www.nap.edu/catalog.php?record_id=11101
❖ Book "How Students Learn: Science in the Classroom". You can read it online at https://www.nap.edu/search/?term=How+Students+Learn%3A+Science+in+the+Classroom&x=0&y=0

This course will integrate English Language Proficiency Standards (ELPS) for English Learners (ELs) to provide strategies for language acquisition and academic success in all content areas for students at different levels (beginning, intermediate, advanced, and advanced high) in the domains of listening, speaking, reading, and writing. You can find the ELPS standards https://tea.texas.gov/sites/default/files/ch089bb.pdf and presentations about ELPS and Texas English Language Proficiency Assessment System (TELPAS) at https://tea.texas.gov/sites/default/files/telpas-telpas-alternate-educator-guide.pdf

Materials:

Your Own Electronic Device, textbooks (hardback/e-book) and designated online materials/sites. PLEASE LET ME KNOW ASAP IF YOU HAVE ISSUES WITH ACCESS TO AN ELECTRONIC DEVICE. PLEASE CHECK UTEP FOR COMPUTER LAB ACCESSIBILITY.
Student Learning Outcomes

“Talent is a dreadfully cheap commodity, cheaper than table salt. What separates the talented individual from the successful one is a lot of hard work and study.” ~Stephen King.

The course’s learning outcomes will require the student to acquire throughout the semester knowledge and skills and build upon them. The following table provides a list of the most relevant student learning outcomes for the course. The following outcomes are aligned with SBEC-approved Texas educator standards. Please, see the full standard* at http://tea.texas.gov/Texas_Educators/Preparation_and_Continuing_Education/Approved_Educator_Standards/

Table 1. Student learning outcomes and assessment

<table>
<thead>
<tr>
<th>Learning Outcomes</th>
<th>By the end of the course, the student will be able to:</th>
<th>Formative &amp; Summative Assessments</th>
</tr>
</thead>
<tbody>
<tr>
<td><em>TeXes</em> 7-12</td>
<td>Develop an understanding of current issues, practices and directions in mathematics and science curriculum and the ability to inquire into these.</td>
<td>To evaluate these outcomes, the faculty member will use the following assessment procedures:</td>
</tr>
<tr>
<td></td>
<td>a. Class and online interactive, Socratic discussions b. Quizzes and Exams c. Written Reflections</td>
<td></td>
</tr>
<tr>
<td>V, VI</td>
<td>Develop knowledge and skills in educational research</td>
<td>a. Class and online interactive, Socratic discussions b. Lesson Plan Development c. Quizzes and Exams c. Written Reflections</td>

**POLICIES:**

**A. Grading Scale**

<table>
<thead>
<tr>
<th>Excellent</th>
<th>Above Average</th>
<th>Average</th>
<th>Below Average</th>
<th>Failing</th>
</tr>
</thead>
<tbody>
<tr>
<td>A = 90 – 100%</td>
<td>B = 80 – 89%</td>
<td>C = 70 – 79%</td>
<td>D = 60 – 69%</td>
<td>F = 59% and below</td>
</tr>
</tbody>
</table>

Each assignment will be worth “x” number of points and averaged at the end of the semester. Some assignments are weighted more heavily than others. Descriptions of major assignment criteria/expectations are provided in the syllabus. *Estimated Total Possible Points = 400 to 600 Points*

**B. Submission of Assignments**

Assignments are to be submitted through Blackboard Assignment on the date indicated by 11:59 PM. **LATE ASSIGNMENTS WILL NOT BE ACCEPTED.**

**C. Standards of Academic Integrity**

Students are expected to uphold the highest standards of academic integrity. Any form of scholastic dishonesty is an affront to the pursuit of knowledge and jeopardizes the quality of the degree awarded to all graduates of UTEP. Any student who commits an act of scholastic dishonesty is subject to discipline. Scholastic dishonesty includes, but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are not attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Proven violations of the detailed regulations, as printed in the Handbook of Operating Procedures (HOP) and available in the Office of
the Dean of Students, may result in sanctions ranging from disciplinary probation, to failing grades on the work in question, to failing grades in the course, to suspension or dismissal, among others.

D. Students with Disabilities

If you have or believe you have a disability, you may wish to self-identify. You can do so by providing documentation to the Office of Disabled Student Services located in Union E Room 203. Students who have been designated as disabled must reactivate their standing with the Office of Disabled Student Services on a yearly basis. Failure to report to this office will place a student on the inactive list and nullify benefits received. If you have a condition which may affect your ability to exit safely from the premises in an emergency or which may cause an emergency during class, you are encouraged to discuss this in confidence with the instructor and/or the director of Disabled Student Services. You may call 747-5148 for general information about the Americans with Disabilities Act (ADA).

E. Equal Educational Opportunity

In order to create equal educational opportunities in the class, all students are expected to demonstrate respect for the diverse voices and individual differences in the class. Particularly, no person shall be excluded from participation in, denied benefits of, or be subject to discrimination under any program or activity sponsored or conducted by the University of Texas at El Paso on the basis of race, color, national origin, religion, sex, age, veteran status, disability, or sexual orientation. Any member of the University community who engages in discrimination or other conduct in violation of university policy is subject to the full range of disciplinary action, up to and including separation from the University. Complaints regarding discrimination should be reported to the University's Equal Opportunity Office. Inquiries regarding applicable policies should be addressed to the University's Equal Opportunity Office, Kelly Hall, 3rd Floor, 915.747.5662 or eoaa@utep.edu.

Inclusiveness, Diversity, and Equity

Learning happens only when we feel respected as a whole human being. My top priority in our classroom is to cultivate relationships of trust and respect and a sense that we see each other as whole, complex human beings. That you experience this in our classroom is important for the sake of your learning in our course and for the sake of your future students’ learning, so that you feel able to cultivate such relationships with them. To that end, I want you to know that all of you is welcome in our classroom space—all the parts of you as a person are welcome in our discussions, our activities, our assignments, and in our assessments. We are all complex people with a variety of perspectives, experiences, challenges, assets, and resources—our gender identities, our sexual orientations, our religions, our races, our ethnicities, our economic statuses, our immigration statuses, our parenthoods, our veteran statuses, our ages, our languages, our abilities, and disabilities. All the parts of you are welcome in our learning community to the extent that you feel comfortable bringing them in. I strive to show respect for the variety and wholeness in each of you, and I expect that each of you shows respect for each other as well. If you feel marginalized in our class, and you feel comfortable discussing it, I would like to know so that I can support you, protect you, and make changes that feel more inclusive and equitable. You can also talk
with our Department Chair and/or you can report a complaint of discrimination to the University’s Equal Opportunity Office, Kelly Hall, Third Floor, 915-747-5662 or eoaa@utep.edu.

F. Professionalism

<table>
<thead>
<tr>
<th>Participation/Professionalism (50 points)</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Your participation grade will be based on attendance and on written and oral class activities.</td>
</tr>
<tr>
<td>• You are expected to attend all synchronous class sessions and to be on time, as your voice and participation are very important to your colleagues.</td>
</tr>
<tr>
<td>• Also key to the job of the teacher is timeliness in meeting deadlines. All work is expected to be turned in on time.</td>
</tr>
<tr>
<td>• Absences (over 1), tardies, and/or late work will result in points being deducted from your participation grade. If you must be absent, please let me know in advance. And, obviously, if you are feeling ill, please do NOT come to class. If you feel well enough to Zoom in, please do so.</td>
</tr>
<tr>
<td>• Missing three or more classes could result in your being dropped from class.</td>
</tr>
<tr>
<td>• There will be several pieces of work that you will share with your colleagues over the course of the semester. You must bring this work to share with the group when it is your turn to do so—there is no time for make up</td>
</tr>
</tbody>
</table>

Assignments in SCED4367/SCED4368:

Weekly Assignments
You will be asked to complete weekly assignments. These assignments will be diverse and may include solving or analyzing tasks, watching a video, analyzing student work, or preparing activities. Completing these assignments is a critical part of your coursework.

### Exit Tickets, Engaging Professional Development Tasks, Stop-n-Think Activities (Embedded in Multiple Assignments)

Week 13:
April 20
• 4 Learning Center Class Presentations (100 Points)
• Teams 1-4

• Exit Ticket
• Due April 20th at 11:59 pm

• Participate in and Evaluate Learning Centers

• Finalized Mini-Lesson
  Due April 30th at 11:59 PM
  As Part II of the Final Exam

Week 14:
April 27
4 Learning Center Class Presentations (100 Points)
Teams 5-8

• Exit Ticket
• Due April 27th at 11:59 pm

• Participate in and evaluate Learning

• Finalized Mini-Lesson
  Submit on Blackboard
  Due April 30th at 11:59 PM
  As Part II of the Final Exam

Final Project Implementation: Active Learning with Learning Centers
Week 15:

**Part I of Final Exam: (100 points)**
The Final Exam will be on Blackboard Assignments. It will be open April 30th at 4:30 pm to May 7th at 7:00 pm. It must be completed in a single seating, however, you cannot start it at one time and go back to it. Be sure to hit submit and save. Be sure to use compatible browser such as Chrome or Mozilla. [https://forms.gle/eChpkFqMU05KCa9Z9](https://forms.gle/eChpkFqMU05KCa9Z9)

**Summative Assessment**
Final Exam on Blackboard
May submit any time between April 30th – May 7th

**Centers**
Blackboard
Due April 30th at 11:59 PM
As Part II of the Final Exam

---

Week 16
May 7
Online

**Course Evaluation**
**Group Members Evaluation**

**Reflective Feedback**
Complete Course Evaluation (Optional)
Submit email (rllynch@utep.edu) documenting course evaluation completion (5 points extra)
Complete the "Group Members Evaluation Form"

**Complete Course Evaluation (Optional)**
Submit email (rllynch@utep.edu) documenting course evaluation completion (5 points extra)
Complete the "Group Members Evaluation Form"

---

**Final Word: I reserve the right to adjust the course syllabus or change assignments as needed.**
