Each week your instructor will discuss your progress with you. You will be provided with a progress chart which you are required to follow throughout the course. Each week topics goals must be met. Failure to meet your weekly goal will result in a warning.

If neither of the goals as stated above are met, you will be given an ALEKS Student Deficiency Contract. This contract will specify goals and a timeline required to be completed by you, to remain in the class. In addition, you may be required to attend additional tutoring and/or lab time.

Failure to complete the targeted goals on time may result in being dropped from the course.

The ALEKS notebook is the only notebook allowed for this class and it will be checked 10 times in the semester. You will earn 1 point for each check if the notebook is in acceptable form. FAQs:

What if I can't afford my book by the first day of class? Book loans are available to most students even if you are not eligible for financial aid. Go to <https://loans.utep.edu/> and select the third option to apply for a book loan. This will allow you to receive funds which may be used only in the UTEP Bookstore.

What if my computer won't run ALEKS at home? Call ALEKS tech support at **800-258-2374**.

What if I have to miss class? Make-up sessions may be done in any of the following ways by working out the details with your instructor.....

- Attend any instructor's session, providing they have room for you, and inform them you need to do a make-up class.
- It is your responsibility to request proof of attendance from that instructor.
- Attend additional hours during lab and let the instructor know you are doing a make-up.

What if I get behind in hours and/or percentage? You may make up hours and percentage working from home, extra sessions in any instructor's lab, attending extra labs, or using online tutoring.

What if I get dropped? If you get dropped from the NCBM class you cannot be reinstated. If you get dropped from the 12 week MATH 0311, consult with your instructor about ways to continue working on your course and possibly still have a chance to pass the course.
