Course Information

BED 4340 - Principles of Bilingual/ESL Education

3 Credit Hours

Location: EDU Rm. 307

Days and Times: Mondays - Fridays, 1:00pm – 6:00pm

Course Description: Principles of Bilingual/ESL Education (3 credit hours)

Emphasis is on the theory and practice of Bilingual Education and English as a Second Language. Focus on identification of program models in Bilingual/ESL education, including their historical, legislative, and philosophical foundations, as well as instructional frameworks for various programs. An additional focus is on the implementation of bilingual instruction with U.S. – Mexico border populations.

Prerequisite: *Admission to Teacher Education*

***Course is prerequisite to other BED courses on all Education degree plans.**

Course Purpose

This course is designed to prepare future educators with the foundational knowledge (history), conceptual understandings (philosophy), and current mandates and program model information (law and pedagogy) regarding the education of English language learners (ELLs) in the United States, and specifically in the state of Texas. All educators – general education; elementary; middle school; secondary; literacy education; special education; gifted education; bilingual education; ESL education; Counselors and Administrators – share the responsibility for Bilingual/ELL schooling.

College's Conceptual Theme

This course aligns with the University and College of Education's mission and vision in addressing the preparation of educators/future teachers with a special emphasis and support for student learning and development within linguistically and culturally diverse border region settings. It provides students opportunities to apply bilingual/ELL education knowledge as they develop and/or deliver presentations and teaching activities that are aligned to the State standards.

Course Learning Objective: *To develop understandings and the ability to apply these understandings as developing and future educators in the following:*

- Who English language learners are and the role of lived experiences on their schooling
- History of Bilingual Education in the United States and in Texas, and its impact on current legislation in Texas, as well as nationally;
- Philosophies underlying the concept of Bilingual Education and ESL Instruction
- Legal foundations of Bilingual Education and teaching English language learners
- Politics of Bilingualism, including landmark court cases
- Identification Sociocultural characteristics of ELLs

- Federal and State Policy, including NCLB
- Bilingual/Dual/ESL Program Models
- First and second language acquisition and research; Role of L1 in L2 learning;
- Oral language, reading, and writing to ELLs
- The role of culture in academic achievement
- Models of teaching and working with English language learners and Sheltered Instruction; Comprehensible Input;
- State Assessments for Bilingual/ELL students
- Texas Teaching Standards, Domains, and Competencies for Bilingual Education and English as a Second Language; EC-06 and 4-8.

University Policy on Academic Integrity

The University of Texas at El Paso prides itself on its standards of academic excellence. In all matters of intellectual pursuit, UTEP faculty and students must strive to achieve based on the quality of work produced by their individual. In the classroom and in all other academic activities, students are expected to uphold the highest standards of academic integrity. Any form of scholastic dishonesty is an affront to the pursuit of knowledge and jeopardizes the quality of the degree

awarded to all graduates of UTEP. It is imperative, therefore, that all faculty insist on adherence to these standards.

Any student who commits an act of scholastic dishonesty is subject to discipline. Scholastic dishonesty includes, but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are not attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Proven violations of the detailed regulations, as printed in the Handbook of Operating Procedures (HOP) and available in the Office of the Dean of Students, may result in sanctions ranging from disciplinary probation, to failing grades on the work in question, to failing grades in the course, to suspension or dismissal among others.

Expectations of You, as a Future Educator

As a future educator, it is expected that you perform and practice your developing craft in the most ethical, respectful, and professional manner. Following these expectations, and the subsequent actions, is often reflected in how you perform in your present coursework and the quality you invest in your own education. As such, all students are expected to be prepared for class, to “be present” in class by focusing on the task at hand and giving your attention to me and others, while not constantly checking your mobile device (face-to-face or online). Part of being a student at UTEP means you should also check your UTEP emails for communication, keep track of your performance in class through Blackboard, and being cognizant of who you want to become as an educator. Reading the assignments is essential to meaningful participation. Students are responsible for working with their groups. All students are required to maintain a high level of professionalism and respect for one another as we engage in discussions and group work.

Classroom Policies

- ***Be prepared.*** That means reading your textbook and all assigned readings carefully, closely, and critically. Reading is the beginning of the journey toward understanding. If you do not read, you have no knowledge base. You have no foundation. How can you know something, if you do not even have the beginning of what you need to begin to know? And if you want to get certified as a teacher, you will be tested on this content you read and study in your courses. So, read, read, read!
- ***Participate.*** In order to get the most out of this course, and to really get a sense of what you know, understand, and are learning, your participation – which includes questions, debates, discussions, and reflecting (even in your own mind) – is vital. As such, you are expected to participate actively in Blackboard, and contribute to get the most from this learning experience.
- ***Be responsible.*** As a future educator, how would you want your students to perform? What types of behaviors would you want them to exhibit? Develop habits and practices as a student that you can be proud of as an educator, and that you would want your students to learn from you. And no late work will be accepted. No excuses. No exceptions.
- ***Quality AND Quantity: Be Proud of Your Work.*** As prospective educators, you will hold the future and lives of students in your hands. For example, if you are responsible for teaching a student how to read, you better know how to teach a student how to read. As such, work hard. Go above and beyond. Produce high quality work. If you were a parent, would you want the teacher who always turned in work late as a college student, always

had excuses about their poor performance, and barely passed their classes, but still graduated? Or would you want your child to have the teacher who was responsible, on-time, organized, had good grades, and did high quality work? As such, all students are expected to be prepared, be responsible, be organized, and to do good work. Do good work well.

- **Attendance.** Due to the nature of this course and amount of material to be covered, attendance is mandatory online daily. If you anticipate missing a class meeting, it is advised that you take the course at another time.

**Texas State Board of Education (SBEC) Standards Assessed: Bilingual Standards II-III,
ESL Standards I, III, IV, V and VI**

Bilingual Standards

- The bilingual education teacher has knowledge of the foundations of bilingual education and the concepts of bilingualism and biculturalism
- The bilingual education teacher knows the process of first and second language acquisition and development

ESL Standards

- The ESL teacher understands fundamental language concepts and knows the structure and conventions of the English language
- The ESL teacher understands the processes of first- and second-language acquisition and uses
- The ESL teacher understands ESL teaching methods and uses this knowledge to plan and implement effective, developmentally appropriate ESL curriculum and instruction
- The ESL teacher has knowledge of the factors that affect ESL students' learning of academic content, language, and culture
- The ESL teacher understands formal and informal assessment procedures and instruments used in ESL programs and uses assessment results to plan and adapt instruction

These standards are addressed through various competencies that future educators (all levels, K-12) are expected to have within particular domains. The following competencies will be addressed and evaluated.

1. **Preparation/Attendance/Participation**: A Maymester course takes place within a very short period of time, with daily teaching-learning activity and outcomes expected within a block of time each day. There is a lot to learn, quickly. And much will be learned. All students are responsible for logging into class daily. This will be determined by a) indication by Blackboard that you have logged on, and b) your ability to complete assignments for the day and participate in Discussion Board.

(Points procedure on not attending class)

*For Maymester, you are not allowed to miss ANY class sessions. If you do miss a class session, no matter the reason, you will automatically be dropped from the course. If you anticipate missing a class session, you need to withdraw from the course on the first day of class.

*IMPORTANT: Since you will have A LOT to do each day, I suggest you pace yourself. Set personal goals and deadlines for yourself. You will need to post your Discussion Board work in a timely manner to ensure your group members have time to respond. I suggest posting your Discussion work by 6pm (at the latest) each day. That way you give time to your group members to respond. If you do it earlier, that's great. But post by 6pm each day.

2. **Daily Reading Quiz [90 points, 9 quizzes x 10pts. each]**: You will take a quiz every day of the course based on the assigned readings for the day. You may not use your textbook while taking the quiz. *NOTE: This is based on an Honor System, and it may actually be more detrimental to your score if you try to find answers in the textbook, since the quizzes are timed. The quizzes are created to test what you remember from the reading. That is, they will simply see if you've done the assigned reading for the day. They are not created to test your conceptual UNDERSTANDING of the material you read. The conceptual understandings will be developed through further discussion of the readings and Key Terms on the Discussion Board. The Daily Reading quizzes are designed to ensure that you begin to develop your knowledge foundation on the topics presented by reading important content and getting exposed to information. That's where it all begins...reading. You will not be allowed to make up any missed quizzes because you will actually be dropped from the course if you miss a day of class. **No exceptions.**

3. **End-of-Class Quiz [90 points, 9 quizzes x 10pts. each]**: This quiz is based on the *Guiding Questions* you will find at the beginning of each chapter. You will also see the Guiding Questions that you will be quizzed on at the day's Learning Module description on Blackboard. Some quizzes will be 2 questions (5pts. per question), and some may be 5 questions (2pts. each question). To prepare for this quiz, you MUST, at a minimum, be able to answer all aspects of the Guiding Questions.

4. **Key Terms Discussion [90 points, 9 postings x 10pts. each set]**: This Discussion Board activity requires you to discuss all Key Terms for each chapter of the course

textbook. **IMPORTANT:** Your original posting of the Key Terms Discussion must be posted by **7pm daily** (at the very latest). This will give some time for your group members to respond to your work (see below). **If you post past 7pm, you will automatically be deducted 1 point from your 10 point total.** *NOTE: If you find that some or most of your group members have not posted by this time, and you have already responded to the same group member the day before, you can then go back to that same group member and respond to their work.

Learning Objective: *To define, discuss, and contextualize **EACH Key Term provided in the list of Key Terms at the beginning of each chapter.** How will you do this? 1) **Create a discussion thread** for your group using your Group # as the subject of that thread to indicate to which thread group members go. Each group will have their own Key Term discussions of all Key Terms, taking place within your assigned group. 2) Begin to post Key Terms, **one post at a time for EACH Key Term** (not all Key Terms within one post). **Number** EACH Key Term that you provide. NOTE: This indicates to me that you provided all Key Terms from the chapter. So I must see each Key Term numbered 3) With your numbered Key Term, provide the following **within that one post for that Key Term** with the corresponding letters below (again, all of the following should be in one post for that one Key Term):

- a) **a definition, quote, or sentence from the textbook** that you feel helps you to begin to understand the Key Term best. The definition can come from the Glossary, or sentence from within the chapter itself. The definition or sentence can be verbatim from the textbook. **Indicate at the end of this textbook definition or sentence the page number where you got it from.**
 - b) Write 1-3 **context sentences** (at the most) that best contextualize EACH Key Term. The sentence(s) can be based on a personal experience, something you read, a discussion with a peer or professor, and the like. The most important thing is that this sentence(s) is **ORIGINAL and FROM YOU** (not the textbook) and reflects some sense that you understand the essence of each Key Term, in your own words.
 - c) After all this, post/submit that numbered Key Term with its textbook definition/textbook sentence, and your original sentence(s) you just provided with it.
 - d) Then for each Key Term posted by a group member (you only have to choose one group member to respond to each Key Term Discussion), **respond to each one of that group member's context sentences** by checking that they **accurately used the Key Term within a context that best reflects the meaning of the Key Term.** If a sentence does not accurately reflect an adequate understanding of the Key Term, then **write a 1-3 sentence reply explaining WHY that sentence does not.** (e.g. You would write something like, "This context sentence does not accurately reflect the meaning of *additive bilingualism* because additive bilingualism is..."). If it does reflect an adequate understanding of the Key Term, **write a 1-3 sentence reply explaining WHY that sentence does so. The most important element of this critique is you MUST tell me WHY or HOW something is or is not.**
- 4) Next, start another Key Term thread within your group thread for another Key Term, and then another thread for another Key Term, and so on. (*NOTE: There are a lot of Key Terms in Chapter 1. So expect a lot of activity the first day).

***This Discussion Board forum for the Key Terms Discussion will be available for engagement from 12:00midnight of that day until 11:59pm.**

4. **Guiding Questions Discussion [90 points, 9 discussions x 10pts. each]:**

This discussion is based on the Guiding Questions you find at the beginning of each chapter of the textbook.

IMPORTANT: Your original posting of the Guiding Questions Discussion must be posted by **7pm daily** (at the very latest). This will give some time for your group members to respond to your work (see below). If you post past 7pm, you will automatically be deducted 1 point from your 10 point total. *NOTE: If you find that some or most of your group members have not posted by this time, and you have already responded to the same group member the day before, you can then go back to that same group member and respond to their work.

Learning Objective: *To find and discuss the multiple ideas and content that address the Guiding Questions as a small group and via peer response.

For this discussion, you must do the following:

1. The group leader begins a forum with their Group Number, and then types in the Guiding Question to be discussed within that particular forum. NOTE: Each discussion will take place in a different thread for EACH Guiding Question within your group forum. That is, start a new thread within your Group forum for its own Guiding Question.
2. Next, each group member “chimes in” with “pieces of the puzzle” in that thread for attempting to answer the Guiding Question. How will this be done?
 - a. Within a post in response to each Guiding Question, each group member must **provide a direct quote or good sentence from the chapter(s)** that they feel best contributes to answering the Guiding Question. Provide the page number of where that information was found in the textbook. After the direct quote or good sentence within that same post, **write 1-3 sentences explaining WHY that direct quote or good sentence from the textbook does a good job of answering the Guiding Question.** And here’s the “twist”. **No one in your group can put the same direct quote or good sentence from the textbook** to answer the Guiding Question. Everyone in the group has to put something different. So that means you have to read what a group member puts first to determine what you can put that is different. That means you will need to keep looking for something different to contribute to the “puzzle pieces” of answering each Guiding Question.
 - b. *What was just described above must be done for EACH Guiding Question for the day.
 - c. *NOTE: It is in your best interest to try to address all aspects of the Guiding Questions. One of your quizzes for the day will be based on this discussion activity. So, if you feel that at the end of your discussion that more needs to be added, then please go ahead and submit more. It will benefit you and your group.
3. Finally, go on to the next Guiding Question and do the same thing again.

5. **Module Chapter Responses [90 points, 9 response X 10 points each]:**

These module chapter responses are based on the Discussion Questions at the end of each chapter of the textbook, but will sometimes be modified according to certain expectations I will have, and which you will see on Blackboard for each Module Chapter Response assignment. So please do the following for each Module Chapter Response:

- a. **Copy and paste the question before your response in 10pt., Times New Roman font, singled-spaced.**

- b. Each response should be written in no more than about one (1) page. Double-spaced. (2 pages total for both responses combined). If you use less space for one question, and more for another, that's fine. As long as the total submission does not exceed 2 pages. But make the most of your 2 pages to answer each question.
 - i. Your Module Chapter Responses will be scored holistically, and will be based on your ability to 1) answer all of the question(s), 2) address the WHY and/or HOW of each question (your ability to provide a rationale, reason, and/or analysis), 3) the quality of your writing and ability to articulate your ideas to answer the question(s), and, 4) submitting your work in a timely manner (you will not receive credit for work not done)
- c. You **MUST** type your work on a Word document and upload/attach in the assignment section.
- d. *NOTE: Be sure to answer the questions as you see them on Blackboard (not the Discussion Questions at the end of the chapter in the textbook). I have added to or modified some of the questions, which you will see in the instructions there each week for this assignment.

6. **Final Exam [100 points]:** The Final Exam will be an exam with the following question types: True/False and multiple choice. Many of the questions will be scenarios and problem-solving questions that ask you to utilize the knowledge and skills you have acquired from the course textbook, and the activities in which you engaged daily during this course.

You will only be allowed to use your brain for the final exam. No notes, textbook, or help from your buddies! There are 50 questions (2 points each). You will have 90 minutes to complete the exam.

Once you complete the exam, then that's all. Congratulations! You have completed the course!

Students with Disabilities

If you have or suspect a disability and need accommodations you should contact Disabled Student Services Office (DSSO) at 747-5148 or at dss@utep.edu or go by Room 106 Union East Building. If you have or believe you have a disability, you may wish to self-identify. You can do so by providing documentation to the Office of disabled Student Services located in Union E Room 106. Students who have been designated as disabled must reactivate their standing with the Office of Disabled Student Services on a yearly basis. Failure to report to this office will place a student on the inactive list and nullify benefits received. If you have a condition which may affect your ability to exit safely from the premises in an emergency or which may cause an emergency during class, you are encouraged to discuss this in confidence with the instructor and/or the director of Disabled Student Services.
