## LEARNING OBJECTIVES:

This course prepares students to:

1. Analyze reasons for why people commit crime and/or engage in deviance
2. Understand the concepts, terms, and propositions of each criminological theory, including deterrence, rational choice, biosocial, psychological, social learning, social bonding/control, strain, labeling, conflict, Marxist, feminist, and radical/critical theory.
3. Become familiar with key criminologists who developed each major criminological theory and the historical context leading up to each theory’s development.
4. Appreciate the practical application of each criminological theory in daily life and in the professional field.
