LEARNING MODULES

This course is designed using a modular format. Different segments of the course are “packaged” as a single module so that all the materials, lecture notes, submission areas etc. are in one area. There are 3 modules (approx. 5 weeks each).

ASSESSMENTS (Quizzes and Learning Activities) (60% of grade):

You will be evaluated throughout the semester on the materials presented in the form of reading assignment, lectures, videos and resources shared with you on blackboard. Each student **MUST** complete each assignment before the deadline. All study materials and assignment will be posted ahead of time. Students are strongly recommended to complete the assessment at least a day ahead of deadline to accommodate any unforeseen challenges with internet, technology etc. Students will not be allowed to make-up a missed assessment without **prior** arrangement made in case of emergency.

How should I prepare to take the assignment posted on blackboard? The purpose of the assignments are to evaluate students’ learning. Although students will have flexibility to complete assignment at their convenient time and quizzes will be made available ahead of time, each assignment will be allocated a certain time limit. The purpose of setting this time is to ensure students read and learn **prior** to taking a quiz.

Grading of Quizzes/Assessments: Scores for each assessment will be posted on blackboard. Final assessment grade will be calculated as a percentage of total assessment score possible throughout the semester.

REVIEW OF RESEARCH ARTICLES (40% of grade):

You are required to read the articles posted on blackboard and prepare a summary reflecting your understanding of study design and main findings of the study in your own word. Please note: copy-paste from the article or any violation of ethical standard is not acceptable. This assignment should reflect your **own work**.

How should I prepare and submit review of article summaries: Example of review of article summary and the rubric for evaluation will be posted on blackboard beforehand. Please follow those guidelines for article summary submission. Deadline for each assignment will also be posted on blackboard. **Article summaries should be submitted on blackboard as a word document.**

Articles will be made available for students ahead of time and students are strongly encouraged to submit this assignment ahead of time to avoid any technical challenges. In rare circumstances, if student faces technical challenges to submit the article

summary assignment, that needs to be communicated with the teaching assistant at least a day before the deadline that alternate arrangement can be made.

Submission after deadline will not be graded – no exceptions.

Grading of review of Article summary assignment: Articles will be randomly graded throughout the semester; Not all submissions will be graded. Scores for each article summary assessment will be posted on blackboard. Final grade for article summary will be calculated as a percentage of total score possible throughout the semester.
